19TH YEAR. NO. 190. EAST LIVERPOOL, O., WEDNESDAY, AUGUST 13, 1902. TWO CENTS.

COUNCIL'S SESSION LASTED THREE HOURS MANY QUESTIONS UP

Contracts Entered Into For Various Street Improvements—Signs to Designate Streets Promised at Last.

The city council held a meeting last evening, the first regular one for five weeks. Much business had accumulated, and it required three hours of hard work to dispose of it.

On the reading of the minutes of three past meetings but one obection was offered. Marshall was not present at the meeting when council rescinded the motion giving Mr. Martin, of the East End, compensation for improving in front of his residence. He, having prevailed upon council to have the motion passed, thought that he had detected a flaw in the rescinding motion. He argued that the motion was not valid, but the chair overruled him.

Because they can get a rebate from business houses providing they pay cash, the city's street laborers presented a petition asking council to arrange to pay them semi-monthly instead of once a month. Council seemed to be in favor, but there being an ordinance providing for a monthly payment no action was taken until the matter can be further investigated.

A petition asking that a grade be established on Nottingham avenue was presented and the engineer ordered to make the grade.

On request made by Bullock a committee of three was appointed to investigate the condition of the wall in front of the McDevitt residence on West Market street. Rains have washed parts of the wall away and a damage suit is threatened. Bullock, McConnell and Johnson are the committee.

The regular monthly reports of the city officers were read and adopted. The fire chief reported one fire call, 39 patrol calls and three ambulance calls. The mayor reported the collection of $174.40 for fines and licenses.

Over $100 having been spent during the past few weeks for the hire of a team council thought it high time to make a purchase. Marshall, Johnson and Peach were appointed to purchase the team.

Marshal Thompson submitted a report showing that he had condemned nearly 100 sidewalks and the mayor was instructed to notify the abutting property owners.

The upper side of Third street from Washington to Market streets is sorely in need of new sidewalks. About half of the street has never been paved and foot passengers are in danger there. The engineer wanted immediate action, but the matter was referred to the solicitor.

An ordinance for the paving of Sugar alley from Robinson to Kossuth street was placed upon its third reading and passed, the rules being suspended.

The East Liverpool Brick Manufacturing company succeeded in having an ordinance passed granting the right to construct a side track in the alley of Frederick & Shenkle's addition. A clause requiring the company to plank the entire length of the track was stricken out. The company agrees to plank the approach at either end.

Upon motion of Marshall a resolution was passed declaring it necessary to improve Prospect street from Calcutta street to Lincoln avenue.

The clerk was instructed to notify the sewer commission to advertise for bids for the construction of sanitary sewers on East Seventh street, Green lane and West Market street.

McConnell asked that a grade line be established on John street. The engineer was instructed to furnish it.

Contracts were awarded to lowest bidders on street work as follows: For concreting a portion of Pennsylvania avenue, Thomas McLaughlin's bid was accepted. The excavation of Baldwin alley at 30 cents per square yard was given to Amos Anderson; the paving of Church allley at $1 per square yard and 27 cents for excavating to John Ryan; the paving of Drury lane at 99 cents per square yard to Mr. Ryan and the paving of College street at 97 cents per square yard to Mr. McLaughlin.

It was found that there is not enough money in the treasury to pay the city's part of the expense incident to the improvements and the clerk and mayor were instructed to give the city's obligation for enough money The whole amount is but $2,300, $1,500 of which will be spent on the concreting.

A motion instructing the clerk to notify the Sevres China works to cease running hot water on the street was passed, but later reconsidered, and the engineer was ordered to determine whether it would be advisable to turn the water into the sanitary sewer. It is not likely that he will find it a favorable proposition. When the matter is settled all potteries will receive a notice. For years they have been accustomed to drain the hot water into the streets, and, it is said, have thereby caused the city considerable unnecessary expense. During the winter months the water freezes on the streets and many hours of labor are consumed in removing the ice. Blacksmith bills for sharpening the picks are also no little expense.

Mr. Peach moved that the clerk be instructed to order the railway companies operating in the city to keep their cars on the tracks, or if they fail to do so that they be compelled to repair streets and walks torn up by derailment.

The numbering and naming of streets was again brought up. Bids will be advertised for and the engineer and street committee were instructed to confer with the bidders. As the streets are now named there is not a resident of the city that could tell the location of them all. At the next meeting steps will be taken to change some of the names, and if possible arrange them so that in starting on a street one will not travel several streets and still be on a straight route. Objection may arise from the property owners, who have property recorded according to the old names.

McConnell stated that for the convenience of several hundred people who travel the road at the foot of Jethro bridge steps should be erected. The street commissioner was notified to build them.

"Over 1,200 people living on Trentvale street are doing without water and fire protection," said President Nice, "and I think it is high time that steps were taken to have a main constructed." The matter was referred to the water works trustees.

The bills of the attorneys and physicians who tendered their services to Miss Itha McHenry in behalf of the city were turned down, but will be taken up again at the next meeting.

MAHOGANY TREE IN OHIO

One That Had Flourished for Years Cut Down at Steubenville.

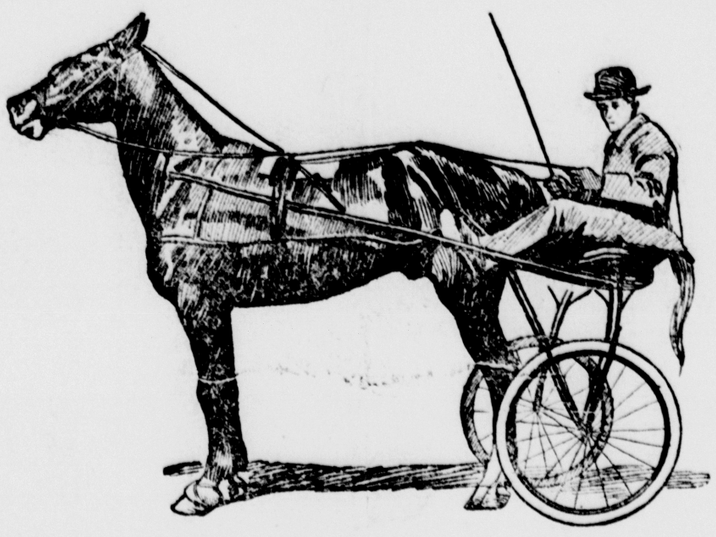

Steubenville, Aug. 13—Very few of the population of Steubenville were aware that a mahogany tree has been growing in their midst, but it, along with many other rare and cherished features of the city, has had to go to make room for industrial progress. In 1883 a man returning from Mexico brought seeds home and planted them.

This one tree grew and flourished, which is a rare thing so far north. It stood at the end of Thomas street in the Sixth ward, and recently it was chopped down by La Belle employes. It had grown to be a foot in diameter and many pointed to it with pride. The trunk was given to William Clifton, a carpenter at the La Belle, to work up into something.

FARMERS' PICNIC

Annual Harvest Home at Shelton's Grove on Saturday, August 13.

Salem, August 13.—(Special)—The sixteenth annual harvest home picnic will be held at Shelton's grove Saturday, August 23. Cash prizes amounting to $25 will be awarded to elocutionists. There will be musiic by two bands, and orations on "The Mission of Culture" by Prof. A. B. Riker, of Mt. Union college, and on "Success" by Hon. S. H. Todd, of Wakeman. The railroads will give excursion rates.

LORD DERBY, RIVAL OF THE ABBOT AND CRESCEUS FOR THE TROTTING PREMIERSHIP.

Lord Derby, whose recent hollow victory over Boralma in their $40,000 match race at Hartford attracted a good deal of attention, is really the only present rival of The Abbot and Cresceus for the trotting premiership of the world. Indeed, there are presumably good judges who do not hesitate to predict that Lord Derby is the trotter who will first touch the two-minute mark. During the season of 1900 Lord Derby was beaten in most of his races, but last year he was first in nearly every event in which he started. His consistent improvement has been one of the marvels of the trotting turf.

LOADED TEAM AND DRIVER WENT OVER 50 FOOT BANK

While driving his team attached to a wagon loaded heavily with household furniture, down the steep hill road leading to Gardendale last evening, William Biddle, a West End teamster, narrowly escaped death.

The horses were plodding slowly and safely down the hill when suddenly the big lock on the wagon broke and threw the entire weight of the wagon on the horses. They bravely but vainly tried to bring the wagon to a stop. But they checked it sufficiently until an abrupt turn and exceedingly steep portion of the road was reached. Before the driver realized his precarious position he and the horses and wagon fell over the bank, a distance of fifty feet.

A number of people witnessed the accident and hurried to the scene. They had difficulty in extracating Biddle from under the wagon and it was several minutes before they could remove him to the office of a physician, where it was found that although he had been badly shaken up he sustained only a broken ankle and several small cuts. Following the examination he became suddenly sick and was removed to his home, Jethro street, by the patrol wagon. The horses escaped serious injury but the wagon was badly wrecked and the contents damaged. It took hours to get the outfit back on the main road. Biddle may institute a suit for damages against the city.

BUILDING CAME DOWN KILLING MAN UNDER IT

Salineville, August 13.—(Special)—Jesse Black, a single man aged 40, was crushed under a building and instantly killed near Grant Hill church at 5 o'clock last evening. He was working for Clyde Smith and with him trying to raise a small building about 20 feet square by means of jack screws.

The building had been elevated two or three feet from the foundation when the supports slipped and Black was caught beneath the building and the stone. Smith was unable to get him out alone and went for help, soon returning with two men named Shepard and Miles. Their combined efforts soon succeeded in getting the weight from the mangled body. The remains were brought to Salineville today for burial. Black carried a life insurance policy for $500.

A TORONTO MAN KILLED WHILE CHASING HIS HAT

Toronto, O., August 14.—(Special)—Samuel Charles, aged 38 years, married, was killed by a street car yesterday afternoon at Silver Lake park. He was riding on a car when his hat blew off. On alighting to get it another car ran over him. He had accampanied the Sunday school excursion from Toronto and Empire to Silver Lake. He has relatives in East Liverpool.

MAMMOTH TURTLE CAUGHT WEIGHING 100 POUNDS

Captain W. R. Hill and John Anderson returned last evening from Long's run, where they spent a week camping out. While in camp they spent considerable time in fishing and were quite successful, making some big catches. Of one of them they are especially proud. It was a turtle weighing nearly 100 pounds. They brought it home with them and now have it on exhibition. Turtles of this size are seldom caught in this part of the country, and it is a valuable prize.

POTTERY WORKER'S FALL FRACTURED HIS RIBS

Because saggers and not wood or stone were used for steps at the Brunt pottery, in a portion of the glost kilnshed, Frank Rigby, a fireman at this plant, fell yesterday and fractured several ribs. He was walking down these sagger steps, which were turned upside down, when one of them tilted, causing him to fall. He struck his side on one of the saggers and was severely injured. He is suffering considerable pain.

FATHERS DEATH FOLLOWS FUNERAL OF THE MOTHER

Robert Slack, manager of the decorating department of the D. E. McNicoll pottery, returned home this morning from Trenton, where he went a few days ago to attend the funeral of his mother. When he arrived this morning he was presented with a telegram announcing that his father was dead. Mr. Slack left this afternoon for Trenton to bury his father.

Fined by the Mayor.

Charged with using indecent and vulgar language Nora Hardley, faced the mayor yesterday. She was represented by an attorney from Irondale. After all witnesses had been heard the mayor fined her $2 and costs. Thomas Smith, of Pittsburg, was arrested last evening for being drunk but was released in time to catch a train for home. He paid $1 and costs.

Tried to Kill His Only Son.

Steubenville, August 13.—Constable Milligan, of Warren township, brought William Danberry to this city and lodged him in jail, where he will probably remain until after the next grand jury meets. Danberry, who is a miner 51 years old, is charged with knocking down his only son and trying to kill him.

BOB COOLEY PLAYED THAT HE WAS SICK AND GOT OUT OF JAIL

He Was Soon Back Again and Now Gets Special Attention, But No More Dainty Food Is Furnished Him.

Lisbon, August 13. — (Special) — Robert Cooley, of East Liverpool, who is in jail on a burglarly charge, broke out and gave the sheriff and his deputy a lively chase yesterday afternoon.

Cooley has played sick for several days. A local physician has been calling twice a day to see him and Mrs. Leonard prepared toast and other delicacies to tempt his appetite.

Turnkey Porter thought the man too ill to run away and put the large hasp in the door over the staple without snapping the lock.

Cooley worked the hasp off the staple with a poker and struck out for liberty. Sheriff Leonard left the Democratic convention and started after him, while Deputies Porter and Brandon were also scouring the county.

Brandon found the fugitive in a store in Elkton and brought him back, a cured and crest-fallen man. He now gets no more toast.

RUNAWAYS HERE

Mrs. Schnabel And Man Who Left Cuyahoga Falls With Her Located.

The wife on Contractor Edward Schnabel, of Cuyahoga Falls, and C. D. McGibbon, who, it is alleged, eloped with her last week, have been located in this city and both are now under the surveillance of the police. They arrived last Saturday. The chief has no warrant for their arrest and will allow them their freedom until further advised by the authorities of Cuyahoga Falls.

Schnabel charges his wife with not only deserting him for McGibbon, but with stealing a large quantity of silverware and other useful household articles. The woman is lame.

TO THE INFIRMARY

A Man of 89, With Well-to-Do Children, Is Taken.

S. S. Dice, of Knox township, Columbiana county, a man who has turned the eighty-ninth mile stone, and has four children living in Columbiana county, and four in Stark county and one in Oklahoma, and all in fair circumstances, have all save two utterly refused to keep their father or help to support him.

Those that would have been willing to keep him concluded not to have all the responsibility and trouble resting on them, have given it over to the trustees of Knox township, who took him to the infirmary at Lisbon, says a Lisbon paper.

ASKS $10,000

Woman Whose Husband Was Killed by Train Wants Heavy Damages

Lisbon, August 13. — (Special) — Mrs. Jennie Whitman, of New Galilee, Pa., has entered suit against the Ft. Wayne railroad for $10,000 damages. Her husband, James Whitman, was killed while crossing the tracks August 18, 1901. She claims negligence. She has three young children.

ABUSE FOR 20 YEARS

The Grounds on which a Wife Married 41 Years Seeks Divorce.

Lisbon, August 13. — (Special) — Mary A. McCoy, of Madison township, has entered suit against Aaron McCoy for alimony. They were married in 1861 and have nine children. She claims that he has abused her for 20 years.

Sebring's Opera House.

Subscription books have been opened for the building of an opera house at Sebring to cost not less than $10,000. It has just been proposed, but already 68 shares have been taken, aggregating $4,000. It is only a matter of time when the ground will be broken for the new structure.

Wellsville Dispute Settled.

The reported strike at the United States pottery at Wellsville has been settled and this morning the entire clay department resumed operations. It is said the demands of the mould-runners and batter-outs for an increase of 15 cents a day were withdrawn.

Fish for the Ohio.

Through the efforts of local fishermen the Ohio river at Steubenville is to be restocked with black bass, crappie and jack salmon by the United States commission of fish and fisheries.

DEMOCRATS FIXED UP COUNTY TICKET

After Much Tribulation the Convention at Lisbon Finished Its Work.

FAMILIAR RESOLUTIONS

Which Denounce Republicans Are Again Brought Out And Made to Serve—Central Committee to Choose Delegates to Convention.

Lisbon, August 13. — (Special) — After the appointment of a committee to select delegates to the Democratic State convention the county convention yesterday afternoon proceeded to nominate candidates for county offices as follows:

Probate Judge—Conrade Hune, of Lisbon.

Clerk of Courts—John Sturgeon, Knox township.

Recorder—A. P. Dennis, Wellsville.

County Commissioner—Ed. Cook East Liverpool.

Coroner—B. F. Campf, Columbiana.

Surveyor—C. E. Vaughn, Unity township.

Infirmary Director—J. F. Dickey, Signal.

The names of Joseph Gottschalk, of Leetonia and J. F. Dickey, of Signal, were both proposed for the office of infirmary director. The question was put to a vote and Dickey received 48 votes and Gottschalk 26. The nomination of Dickey was then made unanimous.

The nomination for clerk of courts was tendered O. J. Astry, of Salem, but he declined the honor.

The following names were selected by the committee as delegates to the state convention: T. J. Duffy, East Liverpool; J. C. Walsh, East Liverpool; Otto Jourgens, Salem; O. J. Astry, Salem; George B. Aten, Wellsville; T. S Arnold, Leetonia; W. S. Potts, Lisbon; W. J. Foley, Unity township.

The resolutions proposed by the committee were read by W. S. Potts and unanimously adopted. They declare:

"First, that we adhere to the principals of Democracy as taught by Jefferson, and endorse the principals formulated at the last Democratic National convention.

"Second, we believe that taxation and the expenditure of public money are matters of the first importance and we denounce the Republican party, their leaders and public officers for the lavish hand they lay on the public funds and total lack of economy in the management of public affairs.

"Third, we insist that sober and competent men fill the public offices and we ask the taxpayers to vote out of office that drunken man, W. A. Tarr, who now disgraces the office of infirmary director.

"Fourth, we commend the public service of Sheriff Leonard and hereby express our full confidence in his integrity and ability.

"Fifth, We denounce the last Republican legislature for giving to our people the infamous road law that takes the management of roads from the hands of the farmers and places the expenditure of their road taxes in the hands of strangers. The road taxes ought to be expended in the

THE GIVING OF TITHES

Convention Representing Different Church Denominations Meets,

TO EVANGELIZE THE WORLD,

There Would Be Money, if the System Was Adopted, Declared Rev. Ballard—Movement to Have All Churches Adopt the System.

Warsaw, Ind., Aug. 13.—The National Tithers' convention was begun at Winona yesterday. The welcoming address was given by Thomas Kane, of Chicago, who was chosen to preside during the conference. Rev. F. O. Ballard, of Indianapolis, outlined the objects of the meeting. He said it was an inaugural effort toward getting all churches throughout the country to adopt a titheing system or Wesleyan chapel movement. If the system should be adopted, the speaker said, there would be plenty of money to evangelize the world on a scale far exceeding the dream of the most ardent Christian worker and foreign mission advocate. Delegates are present from all sections of the country. The denominations most numerously represented are the Baptists, Presbyterian, Christian, Methodist, Episcopal, United Brethren, Progressive Brethren and Congregational.

Elected to M. E. Church Position.

New York, Aug. 13.—The Rev. Stephen O. Benton, of Fall River, Mass., presiding elder of the New Bedford district, New England southern conference, Methodist Episcopal church, was yesterday elected recording secretary of the board of managers of the Missionary society, Methodist Episcopal church, to succeed the late Rev. Dr. S. L. Baldwin. Dr. Benton has been secretary of this conference for many years, has been a member of several Methodist general conferences, was for eight years secretary of the general book committee of the Methodist Episcopal church, and has been a member of the board of managers of the missionary society since 1892.

PRINCE CHEN WELCOMED.

Visited New York City Hall—Drove Through Chinatown—Left For Montreal.

New York, Aug. 13.—Prince Chen paid a visit to the city hall yesterday and was formally welcomed to the city by President Fornes, of the board of aldermen, who is acting mayor in the absence of Mr. Low on his vacation. The prince was accompanied by Third Assistant Secretary of State Peirce, the Chinese minister, Wu Ting Fang; the new minister, Sir Chentung Liang Cheng; the Chinese consul and vice consul and attaches of the Chinese legation at Washington.

A visit was next made to the postoffice, where Postmaster Van Cott, after receiving the distinguished visitors in his private room, conducted them through the office.

The prince and party then took a drive over the Brooklyn bridge, next visited the sub-treasury, and thence proceeded to Chinatown. An elaborate reception had been prepared. The prince drove through rapidly.

From Chinatown the party was driven back to the Waldorf-Astoria, where the prince entertained Sir Chentung Liang Cheng, Minister Wu Ting Fang, Secretary Peirce and Mr. A. W. Bach at dinner.

Prince Chen left last night for Montreal in a special car attached to the Montreal express.

ARMY OFFICERS URGE SMITH.

His Attorney Also Advises Contesting President's Action.

Portsmouth, O., Aug. 13.—Judge James Bannon, brother-in-law and attorney of General Jacob H. Smith, last night made a statement, saying in part:

"The sentence of the court martial was that General Smith be admonished for his order. President Roosevelt seems to have construed the word as meaning reprimand.

"I have said it once, but before I am through I will repeat many times—the president had no legal nor moral right to increase the sentence of the court martial.

"I have advised the general and will continue to advise him to go into the contest with heart and soul. Under the circumstances, his army friends can do no less, for they are more vitally interested than he.

"Many of them are now importuning him to begin action at once."

"THE PRISONER OF ZENDA."

Numbered among the many attractions which Manager Norris promises to an amusement loving public, the forthcoming engagement of "The Prisoner of Zena" is of special interest. This great play is the result of the dramatized form of Anthony Hope's novel of like name. The success of the book possibly signalized the success of the play, but if the former won immortal fame for its author, the latter has merited universal renown for itself as a masterpiece of dramatic art.

The ever progressive firm of Shipman Bros., who will direct its present tour, have engaged a company of artistic worth; mounted the play in magnificent style and promise a production second, not even to its New York engagement, when it comes to the New Grand in this city on September 30.

William Bonnett, accused of murder at a picnic in Wirt county, W. Va., some years ago, who escaped from jail and was captured afterward by Prosecuting Attorney Copen and returned to jail, escaped from the jail at Elizabeth, W. Va., by breaking through the walls. Samuel Shephard, who was taken to the penitentiary under death sentence, but who was afterward awarded a new trial and was awaiting it, escaped with Bonnett, but after wandering around a few hours returned to jail and gave himself up.

SIX STRIKERS WERE HELD.

Five Miners Were Charged With Intimidating Non-Union Men and Engaging In Riot.

Wilkesbarre, Pa., Aug. 13.—Five strikers, all members of Woodward local, United Mine Workers, of Edwardsville, were arraigned before Magistrate Pollock, of this city, last evening, charged with intimidating non-union workmen and rioting. The prosecution alleged that the defendants stopped a number of men on their way to work at the Woodward colliery and by threats and force compelled them to return to their homes.

The commonwealth wanted the secretary of the local, James Owens, to produce the minutes of the July meeting of the local, where, it is alleged, a motion was made that the members do picket duty at the mines and persuade the men who should attempt to go to work to return to their homes. Upon advice of counsel the secretary refused to produce the minute book and the magistrate held him in $100 bail for trial at court for contempt. The other defendants were held in $500 bail each on the charge of unlawful assemblage and rioting. Bail was furnished.

TWO MURDERERS LYNCHED.

Killed a Man Who Caught Them Stealing Chickens.

Lexington, Mo., Aug. 13.—At 1:30 yesterday morning a mob numbering 200 or 300 masked men battered down the door of the jail located in the court yard here and secured Charles Salyers, white, and Henry Gates, colored, who one week ago murdered George W. Johnson, and hanged them to a tree a short distance south of town. It took the mob 30 minutes to cut through the steel doors of the jail.

Gates was found to be shot in the right hip, showing that Johnson's shot had struck him. Salyer, in his statement to the mob, stated that Gates had done the murder, he having fired three shots, and when the last one was fired Gates had hold of Johnson Johnson had gone to his chicken house on hearing a noise and discovered the two men robbing the hen roost and opened fire, being then killed by the intruders.

New York, Aug. 13.—The Trust Company of the Republic yesterday completed the payments for all the shipbuilding plants held under the options of the United States Shipbuilding company, including the Bethlehem Steel company, Union Iron works, San Francisco; Bath Iron works, and Hyde Wandlass company, Bath, Me.; Eastern Shipbuilding company, New London, Conn.; Harlan and Hollingsworth company, Wilmington, Del.; Crescent ship yards, Elizabeth, N. J.; Samuel L. Moore & Son company, Elizabeth, N. J., and the Canda Manufacturing company, Cartaret, N. J. This consummates the transaction, and the business organization will begin at once by concentrating in different yards different types of vessels and introducing economies which are expected to result in increased profits over those of the independent companies before they were brought together. Daniel Leroy Dresser, president of the Trust Company of the Republic, says:

"There have been no negotiations whatever between Vickers, Maxim & Vickers and the United States Shipbuilding company."

Mr. Nixon was asked as to the report that the new company had acquired the Vickers, Maxim & Vickers plants in England, and he said:

"Our desire is to put American shipbuilding establishments upon such a basis that we can build foreign ships here. No steps looking to taking in English plants have been taken."

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises.

BUYS BALTIMORE FRONTAGE.

Western Maryland Railroad Gets Big Tract of Land For Terminals.

Baltimore, Aug. 13.—The Western Maryland Railroad company has purchased 125 acres of land in South Baltimore for terminal purposes, and it is said work will be begun immediately on improving the property for railroad purposes. The site is located west of Fort McHenry, on the middle branch of the Patapasco. Water front age on both sides of the point has, it is said, been acquired. To reach the point the Gwynns Falls route at the western city limits already acquired by the company will be used and the Patapasco will be bridged at a shallow portion farther up stream. Congress has appropriated several hundred thousands of dollars to dredge this branch of the Patapasco, and with the completion of this work Baltimore will be given a new deep water harbor.

It is understood that the price paid for the property was $600,000, but the details of the purchase are not available. The land for the most part has never been improved.

Her One Success.

In the civil war time a western woman who had lost her husband in the field and who hoped to win a livelihood for herself and her little ones by writing sent to Harper's Magazine a story which had no special distinction and was returned. In the desperate mood that followed this rejection she sat down with pen aflame and told "why I wrote it," and her story under that title was accepted and published, winning a sympathetic response from all its readers. But this production, the echo of a vital moment, was her one story in the magazine. Oliver Wendell Holmes said that anybody could write one interesting novel if he could truly tell the story of his own life.—Harper's Magazine.

BISHOP HANDY
SAYS

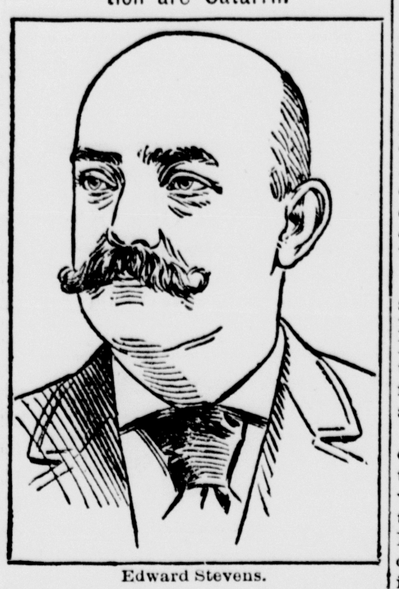

"I take great pleasure in acknowledging the curative effects of Peruna. At the solicitation of a friend I used your remedy and cheerfully recommend your Peruna to all who want a good tonic and a safe cure for catarrh."---JAMES A. HANDY.

Prominent members of the clergy are giving Peruna their unqualified endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop James A. Handy, D. D., of Baltimore.

OTHER NOTABLE CURES.

A Husband Escaped the Pangs of Catarrh of the Lungs.

Most Cases of Incipient Consumption are Catarrh.

Edward Stevens.

Mrs. Edward Stevens of Carthage, N. Y., writes as follows:

"I now take pleasure in notifying you that my husband has entirely recovered from catarrh. He is a well man today, thanks to you and Peruna. He took six bottles of your medicine as directed, and it proved to be just the thing for him. His appetite is good and every thing he eats seems to agree with him. His cough has left him and he is gaining in flesh, and seems to be well every way."—MRS. EDWARD STEVENS.

Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Mrs. Frederick Williams, President of the South Side Ladies' Aid Society of Chicago, Ill., writes the following words of praise for Peruna from 973 Cuyler avenue, Chicago, Ill.:

"My home is never without Peruna, for I have found during the past six years that there is no remedy that will at once alleviate suffering and actually cure, as Peruna does. Four bottles completely cured me of catarrh of the head of several years' standing, and if my husband feels badly, or either of us catch cold, we at once take Peruna, and in a day or two it has thrown the sickness out of the system."—Mrs. Frederick Williams.

Mrs. W. A. Allison, of 759 Sheffield avenue, Chicago, Ill., is the Assistant Matron of the People's Hospital. She has the following to say about Peruna:

Mrs. W. A. Allison.

"I have had frequent opportunities to observe the wonderful curative effects of Peruna especially on persons suffering with a conjested condition of the head, lungs, and stomach, generally called catarrh. It alleviates pain and soreness, increases the appetite and so tones up the entire system that the patient quickly regains strength and health."—Mrs. W. A. Allison.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

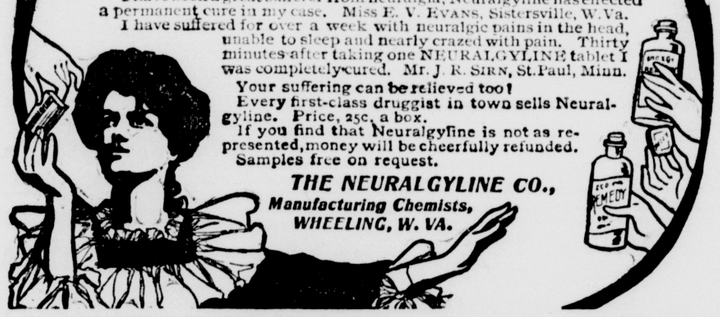

NEURALGYLINE
FOR THE NERVES

is the enemy of all neuralgic and other nerve troubles. Accept no substitutes for it. Neuralgyline does not cure or relieve all diseases. It only RELIEVES PAINS CAUSED BY NEURALGIA AND OTHER NERVOUS TROUBLES. No matter how bad the case is, it must succumb to the all-powerful influence of Neuralgyline. Neuralgyline, by soothing the nerves, restores them to their normal state.

Neuralgyline is absolutely harmless. It is a combination of health giving chemicals. Try a box of it if you are one of the great army of neuralgic sufferers. ONE PELLET WILL BRING YOU RELIEF WITHIN TWENTY MINUTES. Read what these representative people have to say of Neuralgyline:

I have been a great sufferer from neuralgia; Neuralgyline has effected a permanent cure in my case. Miss E. V. EVANS, Sistersville, W. Va.

I have suffered for over a week with neuralgic pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one NEURALGYLINE tablet I was completely cured. Mr. J. R. SIRN, St. Paul, Minn.

Your suffering can be relieved too!

Every first-class druggist in town sells Neuralgyline. Price, 25c. a box.

If you find that Neuralgyline is not as represented, money will be cheerfully refunded. Samples free on request.

EAST END

ALREADY IN TROUBLE

Steubenville's New Local of Street Railway Men Has a Fight on Hand.

The formation of a new local among the employes of the Steubenville and Toronto street railway seems to have started trouble on that line, and even at this early date the Trades Assembly of Steubenville has taken it in hand. Unless Motorman Davis, formerly of this city, is reinstated on the Toronto line district deputies of the Amalgamated Association of Street Railway Employes of America will be sent for to assist the Steubenville Trades Assembly in getting him reinstated.

President Charles Kontnier and Secretary Calhoun, of division No. 52, of the East End, have sent for the charter to National President Mahon, at Detroit, Mich., and it is expected to be received here in a day or so. The charter will then be forwarded to the Steubenville local.

The following officers have been elected for the Steubenville division, many of whom are known in the East End:

President, Howard T. Weekly; vice president, Hugh Crawford; financial secretary, Thomas J. Dowling; corresponding secretary, W. P. Maxwell; treasurer, E. G. Mushrush; conductor, George Spence; sentinel, Forney Good; warden, Ed Miller; executive board, Marion Ely, E. G. Mushrush, Eugene Burris, Thomas T. Brown, W. P. Maxwell; delegates to Trades and Labor Assembly, Charles Brandt, Thomas J. Dowling, Joseph Peterson, George Spence.

Representatives of the East End division will attend a meeting of the Steubenville local next Saturday evening, and the session gives promise of being very interesting.

Dancing Broke Lamps.

The Pastime club, of the East End, held a dance in the Larkins & Ferguson hall last evening, which did not adjourn until the early hours of the morning. The dance was held on the second floor, and a number of lamps in the grocery below were broken. The affair was well attended by about 50 couples, and all had a good time.

EAS TEND AFFAIRS.

Born, to Mr. and Mrs. Marion Shiveley, of McKinnon addition, a daughter.

George Pillar, of the East End, is arranging to remove his family back to Toronto.

A little daughter of Mr. and Mrs. McDevitt, of First avenue, is very ill with cholera infantum.

Miss Grace Heiser will entertain a number of her friends at her home on Mulberry street tomorrow evening.

The home of Mr. and Mrs. Jeff Green, on High street, has been quarantined on account of one of the children having scarlet fever.

Walter Supplee is constructing a cement walk around his residence on Ohio avenue. It is the only sidewalk of the kind on that street.

Arrangements have been made for a lecture to be given in the Second Presbyterian church on Virginia avenue the latter part of the month.

Owing to the cool weather during the early morning many of the motormen of the East Liverpool street railway are compelled to wear their overcoats on their first trips.

A meeting of the Woman's Missionary society of the Second Presbyterian church will be held in the church tomorrow afternoon. The regular monthly business will be considered.

In the court of Justice L. W. Carman, Mrs. E. M. Randall has entered suit against Miller Harsha for forcible detention. The case will be heard Saturday afternoon at 3 o'clock.

About 25 friends surprised Mrs. Jennie Bryan at her home on Railroad sereet yesterday afternoon. Mrs. Bryan is about 65 years old. The afternoon was spent most pleasantly.

The bricklayers will commence work on the new residence being built on Ohio avenue for George Smith Friday. This residence will cost $8,000 and will be of a colonial style of architecture.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by Alvin H. Bulger.

The Wheeling Traction company is to make extensions to Brilliant, St. Clairsville and Shadyside, south of Bellaire.

Brilliant will get the new power house that will furnish power for the Wheeling Traction company. It will cost $175,000.

Miss Lyle, a Youngstown nurse, has been secured to nurse Attorney T. E. Raley, of Akron, who is suffering with smallpox at Signal.

Mrs. Charles Fullerton, aged 21, committed suicide at Youngstown by taking morphine. She removed there a short time ago from Allegheny.

Two children aged 2 and 5 of Joseph Williams, who formerly lived at Toronto, have been sent to the Harrison county children's home. Their father is in the penitentiary for stealing brass.

The Wellsburg-Brilliant Bridge and Ferry company has been chartered, with an authorized capital stock of $50,000, to operate a ferry and also to build and operate a bridge across the Ohio river between Wellsburg and Brilliant.

Judge Hervey, of the Hancock county circuit court, on Monday decided a case involving the title of 4½ acres of land, which is surrounded by oil wells producing 50 to 75 barrels. The decision was adverse to E. A. Freshwater.

Samuel Carter, a Unity township farmer, was violently thrown from his buggy and injured a few days ago. He had just returned from East Palestine during a violent storm, and a flash of lightning caused the horse to rear and plunge, throwing him out.

J. Frank Smith, until recently a resident of Salineville, met with a queer accident at his home in Elyria. He is night dispatcher on the Lorain & Elyria electric line, and in throwing a switch to turn off the electric power his hand was burned to a crisp by the current.

THE DOMINATING FACTORS

In Stock Market, Yesterday, Were the Coming Crops and the Money Outlook.

New York, Aug. 13.—The dominating factors in the stock market continue to be the coming crops and the money outlook. Crop news was eminently satisfactory yesterday, both that of the monthly report of the agricultural department and the later current news of the weather bureau, but it is to be borne in mind that the speculation for some time past has been diligently discounting good crops, which have been clearly foreshadowed. On the other hand the autumn activity in the money market, while it has been expected and made the subject of industrious warnings, has been ignored in speculation. This week's rise in money rates, therefore, would naturally be of most effect on speculative conditions.

Buyers, in anticipation of good crops, seeing the danger of a flurry in the money market which might force liquidation of stocks and attracted by the high level to which prices have attained, are tempted to sell to realize their profits. There was considerable strength at one time yesterday and in a few cases it continued to the close, but for the most part the early rise in prices was taken advantage of to realize profits, and the general level of prices ended lower than Monday night. There was a further contraction also in the volume of the dealings, which dropped back again below half a million shares.

Knights of Pythias Met.

San Francisco, Aug. 13.—The biennial convention of the Knights of Pythias was formally opened yesterday in the Palace hotel. Nearly 150 delegates were present. There were few vacant seats and these will be filled today. The absent supreme representatives have all telegraphed that they will be here as soons as the delayed specials shall be able to move. Among other business done, reports were made. Supreme Chancellor Fethers, in his annual report, said that on Dec. 31, 1901, the order had 540,138 members.

Origin of Spoons.

Two natural objects seem to have furnished the model for the spoon to primitive man—the river or sea shell and the leaf of plants. In southern China shell spoons are still used that are closely reproduced in the familiar porcelain spoon of that country, while metal spoons are found in India on which are reproduced even the veins of the leaves from which they were copied.

Surveyor—J. C. KELLY.
Coroner—J. L. STRAUGHN

The United States bureau of forestry now has a division of forest extension and is co-operating with states, communities and private land owners in an effort to add to the country's wooded area. The field work of the division is now being carried on by a force of 32 men, and planting plans are being prepared by representatives of the bureau, working individually where their services are demanded. At the beginning of the present field season 224 planting plans had been made in 172 localities of 29 different states. Experiments are in progress in New England, Nebraska, Oklahoma, Arizona, Washington, Oregon, Texas and elsewhere. A line of work recently taken up by the bureau of forestry, and for the first time receiving adequate attention in the United States, is the study of the tendency of natural forests to extend over the land devoid of forest growth. This tendency has been noticed in many parts of the country, but has never been studied with a view of controlling it for practical use, or assisting it where desirable. Successful work has been done in the line of holding shifting sands in check by planting shrubs and grasses; denuded pine forests are being prepared for new growth, and the extension and preservation of hardwood forests are also receiving attention. The government is engaged in a noble work, which, scientifically and zealously prosecuted, with the co-operation of the people, should result in adding largely to the value of lands that are now nearly worthless, thus benefiting posterity, while present day benefits will speedily become apparent in greater uniformity of rainfall and the decrease of destructive floods.

The negro Young People's Christian and educational congress held at Atlanta last week did not waste its time in lamenting the social standing of the colored race nor in discussing visionary projects of deporting the negro to Africa. It attacked actual problems with zeal and earnestness and took a sensible and optimistic view of the present and the future. In a resolution it declared: "In spite of theorists and their theories, both before and after emancipation, we have shown ourselves able to live and thrive. A generation ago we came out of bondage without a foot of land, without a home, without a name. Even the clothes which covered our poorly clad bodies were not ours. Today we have some land, some homes, some money. Yesterday we had nothing; today we own millions of acres of land, pay taxes on property worth millions of dollars, and raise more cotton under freedom than under slavery." The white people can help the colored people to better their condition, but the prime requisite for advancement is that they should show a disposition to help themselves. The negro is learning this and much else that will be useful in the industrial schools which Booker T. Washington has been so instrumental in establishing.

Parliamentary law is absolutely useless in a Democratic convention. Attempts to apply it are a waste of effort and supremely ridiculous, as the proceedings at Lisbon prove. The father of the Democracy wrote eloquently of "a decent respect for the opinions of mankind," but modern Democracy has no respect for opinions, traditions or decency.

A member of President Roosevelt's cabinet is credited with the remark that one agitation for tariff revision is worse than two revisions. Those who are attempting to start such an agitation are simply striking a blow at business interests.

Half a century hence the "oldest inhabitant" will be telling incredulous youngsters of the remarkable summer of 1902 when overcoats were needed for comfort, even in dog days.

A volcano in Alaska is warming up and gold seekers are hoping it will thaw out their claims without overdoing the job.

The Venezuelan revolution, having reached a stage where actual battles are fought, cannot long survive.

Some ambitious code makers apparently have never read the state constitution.

It was not exactly a happy family party that the Democrats held at Lisbon.

OBITUARY

Willie Scheester.

Willie, the 18-months-old son of Mr. and Mrs. Emil Scheester, died at the home of its parents on Trentvale street last evening at 8:30 o'clock, of cholera infantum. The funeral services were held this afternoon, interment being at Riverview cemetery at 5 o'clock.

WHAT ADVERTISING DID.

Enormous Increase In Sales of National Biscuit Company.

The annual meeting of the National Biscuit company, held in Jersey City, was of considerable interest. The report of Mr. A. W. Green, chairman of the board of directors, showed a phenomenal growth in the business of the company. This he explained as follows:

"When the company started, our goods were sold almost entirely in bulk, and the package business was in its infancy. We determined that the true way to sell certain of our goods was to sell them in small, airtight, moisture proof packages. The first result of this determination was the Uneeda biscuit, a five cent package protected by United States patent. The idea was novel, and we soon found that we had struck the taste of the people. The introduction of the Uneeda biscuit was followed by many other packages put up in the same manner and sealed with the In-er-seal trademark design.

"The next point was to reach the consumer. We did this by extensive advertising.

"The results have exceeded even our expectations. The total sales of the company increased to $38,625,135, a gain of $2,185,975, or 6 per cent, and the profits increased to $3,670,445, a gain of $352,000 over the previous year. During the past year the company invited its employees to invest in its stock, and they have taken over 4,000 shares."

There's a Good Deal More Than Theory In Medicine.

When the medicine comes out of our Prescription Department. We know not only the theory of compounding, but also the practical experience that produces medicine which accomplishes the results expected. Ask any competent physician about this point and you will understand better how important it is. We do the largest prescription business because we produce the best medicines from prescriptions. THE KILTIES ARE HERE

Famous Band Will Give Concert at Rock Springs To-night

The Kilties came in this forenoon, and will appear this afternoon and evening in concerts at Rock Springs park. For the past two Sundays they have been the attraction at Calhoun park near Pittsburg, where delighted crowds listened to their music. They praded the streets of this city this forenoon, and attracted much attention by their costumes and their excellent music. The band is a large one and the way it plays Scotch music and popular airs has won golden opinion wherever the organization has appeared.

THE BELLES.

Oh, the belles,
Summer belles!
What a plenitude of heartaches their giddiness compels!
How they giggle, giggle, giggle,
In the sea breeze laden night!
How their victims squirm and wriggle
In an ecstasy of fright!
How they hurt
When they flirt,
When with ghoulish glee they gloat
On the squirming of a fellow when they have him by the throat.

Oh, the belles,
Summer belles,
How they conjure, scheme and plan
To entrap the summer man,
The ribbon counter gentlemen who masquerade as swells!

Oh, the belles,
Greedy belles,
How they wring, wring, wring
Soda water, everything,
From the pockets of those "Cash!" exclaiming swells!

Oh, the belles,
Foxy belles,
What a wealth of hints they fling
To compel the pleasant ring—
Diamond ring—
Ah, the heart engaging ring
Of the golden wedding bells, bells, bells, bells, bells,
Oh, the belles!

SHIPPED TO KENSINGTON

Body of the Ill-fated Railroader, L. G. Cox, Sent Home for Burial.

The body of C. G. Cox, who was struck and instantly killed by train No. 309 yesterday, was taken to Kensington last night on train No. 301. Cox was a first-class railroader and was recently promoted to first extra passenger conductor. The cause of his falling asleep on the track is said to be due to over-work. A brakemanof the Conway drag stated last night that Cox had been on duty for twenty hours previous to the fatal accident.

Funeral services will be held from the home of his parents in Kensington this afternoon.

HORSE THIEF CAUGHT

And the Place Where He Was Found Raided By the Police.

George R. Tate, who, it is alleged, stole a horse from J. T. Sheppard at Amsterdam last Saturday, was arrested at Wellsville today. Tate sold the horse to Joe Keenan, of Second street, Wellsville, for $100. Tate was arrested at Keenan's resort and the same officers pulled this place, capturing five men and five women.

One woman was fined $13.60 and the other four paid $8.60. Keenan also paid $8.60.

One Saloon Less.

Third street has now one less saloon. The saloon run by Paul Leach in a building owned by Henry Greenwood, the East Liverpool brewer, was dismantled Saturday and the fixtures sent to Lisbon where Mr. Leach will start in business. It is stated that Mr. Greenwood expects to start a soft drink bottleing establishment in the building vacated.

Arrested in Wellsville.

"Mandy" Logan, a well-known Salineville character, and a well-known Irondale cripple were caught by Officers Houser and Davis here last evening. Each had had a drop too much and was loudly demonstrating their love for each other. The cripple put up a $5 forfeit and the woman's friends did likewise any they departed on a train.

Sent to the Infirmary.

Poor Director Hutchinson has ordered that Henry Malone and Lucas Phillips be taken to the infirmary. McLean Bros., will take them there to-day. Malone has heretofore been residing with his daughter-inlaw on Railroad street.

Funeral of a Child.

The three-months-old daughter of Mr. and Mrs. J. Pippin, of Eighteenth street, died at 1 o'clock yesterday; funeral took place at 2 o'clock this afternoon, Rev. C. L. Wells officiating.

Deadly Prussic Acid.

Hydrocyanic acid, or, as it is most commonly called, prussic acid, is one of the most deadly poisons known to animal life. It is a volatile principle contained in numerous shrubs and trees, chiefly the wild cherry, bitter almond, sherry laurel, St. Ignatius bean and the peach tree. It is obtained by distillation from ferrocyanide of potassium by the action of sulphuric acid in the form of a light, colorless gas. The preparation kept in the drugstore is a dilute acid of a strength of 2 per cent of anhydrous acid in distilled water, a colorless liquid, with the odor of bitter almonds. The dose is from two to six drops. One-half grain of the anhydrous acid is sufficient to produce death. It is used in medicine in correcting diseases of the stomach, also in whooping cough and the last stages of consumption.

It is very volatile, and the fumes will destroy vegetable life, causing the stems of plants to wither and dry up. Its effect on the lower animals is similar to its action on man, with the exception of the horse and the hyena, upon whom it does not appear to produce any impression. In fatal doses it causes death quickly by paralyzing the heart's action. After death the rigor mortis sets in, and in a few moments the unfortunate subject is as stiff as a board.

Some Curious Book Titles.

In the sixteenth century we find the greatest extravagance displayed in the titles of books. These may be taken as examples: "The Spiritual Snuffbox, to Lead Devoted Souls to Christ," and "The Spiritual Seringa For Souls Steeped In Devotion." A work on Christian charity published in 1587 is entitled "Buttons and Buttonholes For Believers' Breeches." Another quaint publication is Father La Chaucie's work entitled "Bread Cooked on the Ashes; Brought by an Angel to the Prophet Eligiah (Elijah) to Comfort the Dying." Another was issued with the curious title of "The Lamp of S. Augustine and the Flies That Flit Around It."

The following very attractive title appeared in a book published at Newcastle in 1605: "Some Beautiful Biscuits Cooked In the Oven of Charity and Put Aside For the Fowls of the Church, the Sparrows of the Spirit and the Swallows of Salvation."

Rubber Foot Fever.

If a man has a corn, it can be removed, but if he is suffering from rubber foot fever no chiropodist can help him, and the only thing to prescribe is liberal bathing of the feet and removal of the cause. Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from forcing the perspiration to soak the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. Even loose rubbers are a source of danger and the cause of many more serious colds than they avert.

Tiffany's Big Day In 1837.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of $1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, fine stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only $4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to $236.—American Monthly Review of Reviews.

Dublin's Red Haired Club.

The Red Haired club of Dublin, which flourished years ago, was a society which barred out all whose hirsute covering was not of the most pronounced auburn. In order that no one could gain admission by false pretenses it was required at the initiation of each member that the applicant wash his hair and whiskers in hot soda and water. This effectually took out any "dye" that might have been used.

All Agreed.

Krankleigh—Naw! I don't like my new neighborhood at all. Every man on the street's a cad.

Krankleigh—Yes, and there's one man in particular who isn't fit to live there at all.

Prediction That Captain Goucher Will Win in Pending Litigation.

The Emily, the Congo and Wellsville ferryboat, will continue to run until the litigation is fully decided. The matter was referred back from the circuit court to the county court for correction on a technicality. It is predicted that S. B. Goucher will win the case, notwithstanding reports to the contrary. The action on the bill is simply to make a correction on Judge Hervey's objection.

The decision was really in favor of Goucher, but for the technicality. When the county court rectifies this matter the decision is final.

Real Estate Purchases.

Dr. W. F. Donehoo has purchased a lot from the Chester Land and Rolling Mill company near Carolina avenue and Fifth streets. He will erect a residence and office building. C. P. Harrigan, formerly of Irondale, now superintendent of the tin house mill, has purchased a residence on Virginia avenue.

AROUND THE CIRCLE

PRESIDENT ROOSEVELT TO TOUR THE COUNTRY NEXT FALL.

Will Visit Nearly Every State East of the Rockies—Previous Tours of Chief Executives—Presidents Who Liked to Travel.

When President Roosevelt starts out next fall to make his projected swing around the circle, he will be following the example set by many of his illustrious predecessors. The president has received many invitations to visit various sections of the country during the summer and fall, and if he finds time to fulfill his engagements he will before November have visited nearly every state in the Union except those in the Rocky mountains and on the Pacific slope.

Plans already made contemplate the most important swing around the circle made by a president in many years. The real beginning of Mr. Roosevelt's peregrinations will be in late August, when he will visit Maine and Vermont, where elections are held in early September.

The president is expected to make two speeches in Maine and one or two in Vermont. Following the New England tour, the president will start late in September for the northwest. He has accepted invitations to speak in Detroit, Minneapolis, Illinois, Missouri and Iowa.

Late in October the president will start on a long trip through the southwest and will probably go as far as San Antonio. On the way he will enjoy a big bear hunt in the swamps of Mississippi. Altogether the president has planned a very busy fall, and if every city and town in the Union does not see him and hear his voice before next November it will not be because they have not invited him.

The custom of taking long excursions through the country by presidents is much older than is generally believed. Washington had seen nearly all of the Union north of the Carolinas before he became president, and both of the Adamses were great travelers in their time.

President Monroe was the first to conceive the idea of making an ex-

PRESIDENT ROOSEVELT SPEAKING FROM A CAR.

tensive journey through the states while president. During one of his vacations he undertook to travel in his carriage northward through New England and then westward as far as Ohio. It was a tedious journey. No special invitations were extended him, but he was cordially received everywhere. The sight of a president was rare in those days.

Andrew Johnson was the first of recent presidents to make a long journey through the country. He delivered speeches from an open carriage in which he was driven through many large towns.

Johnson left Washington in September, 1866, to attend the laying of the cornerstone for the Stephen A. Douglas monument in Chicago. On his outward trip he stopped, among other places, at Baltimore, Philadelphia, Albany, Cleveland and Detroit. He returned by way of Louisville and Cincinnati, taking three weeks for the trip.

President Hayes traveled through the south soon after his plan of reconstruction was adopted. Garfield was starting on a trip when he was shot.

President Harrison made more trips than any of his predecessors. In 1891 he made his trip across the continent, taking thirty days. He traveled almost 10,000 miles and made 140 addresses.

In April, 1901, the late President McKinley made a trip extending over 15,000 miles, going to the Pacific coast by way of the south. He made speeches in the principal cities.

The trains on which presidents travel in these days are marvels of equipment and mechanical perfection. Everything is done to make the journey as comfortable as possible. Besides the invited guests of the president a corps of newspaper correspondents are provided with quarters, and these are the busiest men on the train. Whenever the president makes a speech these alert newsgatherers are on hand to telegraph his words all over the country. Every move of the president is known to the world from the time the wheels first begin to turn until the traveler returns to Washington.

Wolsey's Household.

In Cardinal Wolsey's palace no less than 280 beds were provided for strangers, with superb canopies and curtains of silk or velvet. There were bedsteads of alabaster, quilts of down and pillowcases embroidered with silk and gold. The chairs of state were covered with cloth of gold; the tables and cabinets were of the most costly woods. Much of the splendid furniture was emblazoned with "my lord's arms." Everywhere was impressed the cardinal's hat. The same magnificence appeared in the decorations and ornaments of the chapel, but the forty-four gorgeous copes of one suit and the rest of the sacerdotal pomp displayed there were eclipsed by the majesty of Wolsey's secular equipment.

The annual expenses of his household exceeded £30,000, an immense sum for those days. His retinue of 500 persons, his kingly stud, his sumptuous open table, are mentioned in every history. When he rode to and from Westminster in his character of lord chancellor, his mule was attended by a long train of nobles and knights on horseback; his pursuivant, ushers and other officers led the way in rich liveries, while footmen with gilded poleaxes brought up the rear.

WITH THE WORKMEN IN THE CLAY PLANTS

FROM NEW CASTLE.

The Shenango pottery is now being operated in full in every department. The employes, however, are a little doubtful as to how long this run is to last, and as far as I can learn, orders are a little slow. Many of the employes have arranged to go to Erie, Pa., where they will take new positions under their old foreman, Henry Haney.

After a severe illness Jack Monroe, mouldmaker at the Shenango pottery, has returned to his work.

Del Thorman, a mouldmaker at the same shop, who has been confined to his home on account of illness, has recovered sufficiently to permit him to be about his home.

John Craven has left the Shenango and is now located at the Beaver Falls sanitary shop.

After a prolonged visit at East Liverpool Samuel Coventry has returned to New Castle.

A cable shape will soon be placed on the market by the Shenango pottery. The mouldmaker is now working on the moulds, and they will be ready for the clay shops within a week.

A strong effort is being made to make the Snenango pottery a card shop. The firm has agreed to this and the only drawback is the men themselves.

William Gillespie is the latest arrival in New Castle from East Liverpool.

Owing to a rush of business the warehouse girls at the New Castle China company have been compelled to work late at nights for several weeks.

Robert Conwell has resigned his position in the pressing shop at New Castle. No one knows where he will go.

Thomas Nolan has gonne to Sebring to hunt work. He resigned his position at the china shop.

Like a great many other operatives who leave East Liverpool to work in new shops, John McGuire will leave New Castle to return to his former home. He is now working out his notice. He has been employed as a dishmaker at the Shenango.

A man named Fitzgerald, who was employed as a dishmaker in this city, left town rather suddenly and no one knows where he has gone.

Ralph Woods, who left a good position at the Diamond in East Liverpool, where he was employed for a long time as a presser, and who left that position to take a similar one at the New Castle sanitary shop, has also resigned his position there. He is now on his way to Camden, N. J., where he will take a position in the sanitary there. William Ayers, of Wheeling, lately employed at the Riverside plant in that city, will take the position made vacant by Woods.

The sanitary shop will resume operations next Monday. The plant is closed this week on account of some needed repairs being made.

William Van Fossen has been elected president of Local No. 54 to fill the unexpired term of Samuel Dobbs, who resigned. The new board of trustees of this local is composed of Alfred Woods, J. Pershall and J. Gilligan. The local will be represented in the New Castle Labor day demonstration.

MORE ABOUT TRUST.

Now comes the announcement that a trust or working combination is bound to be formed among the manufacturing potters of this city before the first of the year. The old story, it seems. There is always room, however, for something of this sort to take place, but when and how, are questions that are not answered. A few weeks ago Messrs. Irwin and Trainer, of Chicago, were asked for a statement of their work in forming a combination upon the plans they mailed to every manufacturing pottery in the country, and which communication was published exclusively in this paper at the time, but they never took the time to answer that letter. Their scheme is a dead one. Only yesterday a manufacturer, talking about the plans of the Chicago men, said: "Why should we give those fellows a few million of dollars for doing something that we can and are perfectly able to do ourselves?" The Chicago lawyers do not know any more about forming a combination among the manufacturing potters of the country than the potters do themselves. Why did they ask for such a large amount of money for putting through such a scheme? There may be a combination formed, but when it is, the chances are 10 to 1 that it will be done at home, and not by a Chicago or New York law firm.

STOPPED FOR MONTHS.

The California pottery, located out California hollow, has suspended operations. It did so several months ago. The shop, under the management of the men who took hold of it about the first of the year, had an apparently bright future before it, but it is different now. No person is seen about the plant save the watchman and a few chickens, who perchance roost there at night. 'Tis a pity that this shop is not operated. True, it is a little distant from the city and was operated on a small scale, but still there is money to be made at this little shop and the wonder is that some person does not take advantage of the fact. It will be remembered that when certain pottery workers of this city took a lease on this plant from the First National bank the intention was to make a fine grade of jet ware. Several kilns were made and sold and the company advertised extensively in all the trade papers for representatives, in fact, they had representatives in all the large cities of the country. Not so now. There is nothing doing. Shop closed. Going fast to decay. Why not, if nothing else is possible, convert this shop into a small art pottery? Something might become of such an attempt in after years. All that is required is a trial.

AS TO THE FRAUDS.

Local pottery manufacturers seen today claim that they are not at all conversant with the matter which has been brought to the attention of the treasury department by the eastern manufacturers. A well known hill manufacturer today said: "The matter does not affect this city very much, other than in this way: If there were not so much crockery imported the trade of the United States potters would be materially increased." Referring to the published statement to the effect that the treasury department had in its possession evidence tending to show that the government had lost many millions of dollars through undervaluations on pottery importations, Secretary Shaw stated that this question was not new. Charges of undervaluations on pottery had been made from time to time covering a number of years, and when made by responsible parties they always had been investigated. At present the treasury department had agents at work on the other side looking into the marked prices of pottery, and it is possible that an increase in prices of certain kinds and qualities may be necessary. At present there is no evidence in the possession of the government showing that it has been defrauded out of large sums by pottery undervaluations.

WILL START SOON.

Work will soon begin on the remodeling of the old soap factory at Wellsville by the Burgess Stilt company. Mr. and Mrs. William Burgess, who have been spending a short vacation in England, are expected to arrive in the city about the first of the week, and Mr. Burgess' arrival here will be followed by detail work connected with the new purchase. Then the actual work on the remodeling of the plant will start, and it is expected that it will be ready to operate within a month or six weeks.

THEY NEED SAGGERS.

The biscuit kilnmen at the Union who have been unable to work for several days owing to a shortage of saggers, expect to return to work tomorrow morning. The company has ordered 500 new saggers and they are expected to be delivered at the plant today. A kiln or two have been missed but this, it is expected, will be made up in a short time.

NOW AT PITTSBURG.

William Cartwright, Sr., of this city, who has been spending some weeks at Cambridge Springs for the benefit of his health, is now at the home of his daughter, Mrs. S. R. Huss, Waverly street, Pittsburg. His health has been much improved by his stay at Cambridge Springs, and it is expected that he will return to the city within a fortnight.

SAME OLD STORY.

Archie Putnam, well known in the West End, who has been employed at the Barberton pottery, which is something new, for a few weeks as a jiggerman, has resigned his position and is now located at Sebring. His friends here think that it will be but a short time until he will be back in East Liverpool.

STARTED TODAY.

The kilnmen at the United States pottery at Wellsville, who have been off for several days, resumed work this morning, and owing to the rush of orders offered this firm, the employes have a continued run in sight. This is one of the plants operated by the East Liverpool Potteries company.

LONG WAS TOUCHED.

Joseph Long, a drayman at the Sebring pottery, is mourning the loss of $22. It happened Saturday evening and the belief is that he was "touched." The police, however, are trying to unravel the mystery. Long is well known in this city.

TO START SOON.

It is announced that the new Crooksville Art pottery, near Zanesville, will be completed and ready for operation about the first of the month. New designs will be made at this shop, all of which are very neat.

KILNMAN ILL.

Albert Krider, a glost kilnman at Laughlin No. 2, has been unable to work for several days on account of illness. He is suffering with an attack of tonsilitis.

AMONG THE POTTERS.

Frank Grant, a well known pottery worker of this city, returned home from a visit with Salem friends.

Frank A. Sebring and Frank Hummel, of Sebring, were in the city yesterday afternoon on business pertaining to their interests in this city.

Frank A. Sebring is making some extensive additions to his residence at Sebring, consisting of a circular porch with a bay window at the north extension, drill arches, stairway, etc.

FOR M'KINLEY MEMORIAL.

$50,000 Subscribed by the People of Illinois.

Chicago, Aug. 13.—The Illinois auxiliary of the McKinley memorial association reported yesterday that the fund of $50,000 asked of the people of Illinois has been raised. The fund consists of over 50,000 subscriptions and, counting the individual school children who sent their pennies in through the schools, the contributors in Illinois run into the hundreds of thousands.

At the close of business yesterday the subscriptions amounted to $50,128. Many of the local committees and others throughout the state still have their lists open and it is expected that by the time all of them have been heard from the funds will have been swelled to $60,000.

A BLOODY BATTLE.

VENEZUELAN TROOPS SURRENDERED AT BARCELONA.

Rebels Murdered and Pillaged—Minister Bowen Cabled the Cincinnati to Go to Barcelona.

Port-of-Spain, Island of Trinidad, Aug. 13.—Details of the fighting at Barcelona, Venezuela, received here by boat, show that a terrible battle started on Sunday, Aug. 3, and that on the following Wednesday the revolutionists entered the city. They kept up a continuous firing day and night, destroying houses one by one to reach the center of the city. At midnight on Thursday two-thirds of the city was in the power of the revolutionists. On Friday the government strongholds were carried and the last survivors of the government officers tried to escape by the river to the sea, but failing in this, they made one last stand, after which, at noon Friday, they surrendered to the revolutionist commanders, Generals Francisco, Monagas and Platero. Among those taken prisoner are Martin Marcano president of the state of Barcelona and commander of the government troops, eight generals and 23 colonels. The dead on both sides numbered 167. All houses in the city were sacked and in some instances inoffensive women and children were maltreated and killed. All stores were pillaged, especially those belonging to foreigners, and the French cable office was robbed. The American, Italian and Dutch consulates were pillaged, and the consuls have asked for men-of-war to protect life and property.

United States Minister Bowen, at Caracas, has cabled the United States cruiser Cincinnati to go to Barcelona without delay and take provisions. The Topeka is anchored at Porto Cabello, the Marietta is on the Orinoco the German warship Falke is at Curacoa and the Italian cruiser Giovanni Pausan and the British cruiser Pallas are at LaGuaira.

TWO POLICEMEN MURDERED.

Shot to Death by Burglars at Chicago.

Chicago, Aug. 13.—Two policemen were shot in an alley, both dying within a few minutes, shortly before 4 o'clock yesterday morning. Their assailants were two burglars, caught in an attempt to rob the house of Dr. Harry Shaw, 222 Ashland boulevard. Both escaped.

The policemen were Timothy Devine, 40 years old, shot through the heart, and Charles Pennell, 35 years of age, shot through the abdomen; died at the county hospital.

Five men, Arthur, John and Sam Dillon and Jerry Hawley and George O'Brien, were among those arrested after a terrific fight with the police. They are known to have been hostile to Officer Devine, and it is believed by the police that they had a hand in the murder of Devine and Pennell.

GUERIN CODE BILL.

Principal Topic to Be Considered by Ohio Republican Legislators.

MEETING TO BE HELD THIS WEEK

Most of Members Have Accepted Guerin's Invitation to Visit Cedar Point—News of Ohio, Pennsylvania and West Virginia.

Sandusky, O., Aug. 13.—The gathering of Republican members of the legislature at Cedar Point, in this city, Aug. 14, 15 and 16, on invitation of Representative Guerin, of Erie, promises to have a more important bearing on the work of the general assembly at the approaching extra session than at first was supposed. Of the 67 Republican members of the lower house, 50 have accepted the invitation, and all the Republican members of the senate, except three. Governor Nash will be present Friday; Attorney General Sheets on all three days; also other state officials.

The Guerin code bill will be the principal topic of the speeches and discussion. It is likely that the work of the approaching special session will have been pretty well outlined and the unity of action from the Republican standpoint foreshadowed before the members return home.

ALLEGHENY COUNTY LEADS.

Figures on Production of Pig Iron and Steel, In Pennsylvania.

Harrisburg, Pa., Aug. 13.—Captain James M. Clark, chief of the bureau of industrial statistics, will devote a considerable portion of his forthcoming annual report for 1901 to pig iron and steel statistics. During the year Pennsylvania produced 7,364,295 gross tons of pig iron. The capital invested to bring about this production was $152,075,575, and the average realized value per ton was $14.52. The number of workmen employed was 14,739, and the aggregate wages paid was $8,646,479. The average yearly earnings for all workingmen employed was $586.24.

The average daily wage paid was $1.85.

Allegheny leads in the production of pig iron, with 3,685,665 tons; Mercer, Cambria, Lebanon, Lawrence and Dauphin followin the order named. Of the steel products the following was the productive: Bessemer, 4,319,144 gross tons; open hearth, 3,754,828 tons; crucible and other processes, 85,748 tons, making a total production of steel in the state of 7,959,720 tons. Allegheny leads in steel production, with 5,140,580 tons, and Cambria follows, with 655,775 tons. Over 80 per cent of the production came from counties west of the Allegheny mountains.

OHIO BOY NOT ARRESTED.

Expedition Wilson Was With, Under Direction of Colombian Army.

Columbus, O., Aug. 13.—In a letter to a cousin in this city Dr. Russell Wilson, of Norwalk, O., who was reported to have been condemned to death by the Nicaraguan government for participating in a filibustering expedition, says he has never been arrested and was never in danger. The doctor says in substance:

"Several months ago I joined the Colombian regular army, with the rank of major surgeon. Colombia and Nicaragua were at variance, and I was placed on board the gunboat General Pinzon as surgeon to accompany the expedition. We tried to land at Bluefields, at night, but a high sea suddenly coming up, 50 men only were able to land, and at daybreak we were fired on from the forts and forced to retreat, leaving the 50 there. That may account for the story getting out that I was arrested. The expedition I was with was not a filibustering trip, but one under the direction of the regular Colombian army."

WILL CARRY ON STRIKE.

Secretary Wilson Will Violate Law, if Necessary.

Charleston, W. Va., Aug. 13.—The case of John Richards and others charged with contempt for violating an injunction issued from Federal Judge Keller's court was argued yesterday by counsel, and will be decided by Judge Keller today.

National Secretary W. B. Wilson, of the Mine Workers of America, who is here, stated yesterday that the object of his visit is to direct the movement of the strikers and that he will observe the injunction of the court as far as he believes the court has a right to go. If it shall become necessary to violate the court order to carry on the business of the strike he will do so.

THE PENNSYLVANIA FIGHT.

Democratic Campaign Committee Met. Executive Committee Also Met.

Harrisburg, Aug. 13.—The Democratic state campaign committee met yesterday at state headquarters in this city to formulate a plan of campaign and arrange for a tour of the state this fall by ex-Governor Pattison and his associates. Members of the committee said before the meeting that it was necessary to perfect party organization in every county or the state if they hoped to elect the ex-governor. To do this, they said, would require untiring labor on the part of State Chairman Creasy and his assistants, as well as a big campaign fund.

The state executive committee also met yesterday to discuss certain changes in the party rules and other matters pertaining to the organization. Chairman Creasy reported that he was perfecting an organization in every school district of the state to work independently of the Democratic county and city committees and that he expected good results from those organizations at the fall election.

SOME TRI-STATE EVENTS.

New Castle, Pa., now has an anti-expectoration law.

Erie, Pa., barbers are on strike to enforce a demand for a half holiday each week.

At Aetna, near Reading, Pa., Hettie Anspach, aged 17, was struck by lightning and killed.

At Toledo, O., Joseph Kelley, aged 30 years, fell off a government dredge into the river and was drowned. His home is said to be at Plattsburg, N. Y.

John Williams, a well-known tin worker, formerly employed in the Star mill in Pittsburg, was killed by a train near Washington, Pa.

At Warren, O., A. Sotinger attempted to commit suicide with laudanum, but prompt service of a doctor saved him. He had been drinking heavily.

At Springfield, O., Samuel Parker, charged with criminal assault by Mattie Merrett, his 15-year-old stepdaughter, was bound over to the grand jury.

Albert Lacy, it is charged, stabbed Leonard Scott in the left side in a fight at Conesville, near Coshocton, O. Lacy escaped.

Delle Center, near Bellefontaine, O., had a Beal law election, and by a majority of 107 voted to remain dry.

At Willoughby, O., in the local option election under the Beal law, the drys won by a vote of 309 to 130.

Rev. Charles Allen, of Peninsula, near Akron, O., is endeavoring to have the mayor and town marshal and the county sheriff removed from office, because they refuse to stop Sunday ball playing.

At Findlay, O., M. A. Curtess, a prominent merchant, returned with a bride, having been married to Miss Ida McElroy, of Galian, in Windsor, Canada, a few days ago.

19TH YEAR. NO. 190. EAST LIVERPOOL, O., WEDNESDAY, AUGUST 13, 1902. TWO CENTS.

COUNCIL'S SESSION LASTED THREE HOURS MANY QUESTIONS UP

Contracts Entered Into For Various Street Improvements—Signs to Designate Streets Promised at Last.

The city council held a meeting last evening, the first regular one for five weeks. Much business had accumulated, and it required three hours of hard work to dispose of it.

On the reading of the minutes of three past meetings but one obection was offered. Marshall was not present at the meeting when council rescinded the motion giving Mr. Martin, of the East End, compensation for improving in front of his residence. He, having prevailed upon council to have the motion passed, thought that he had detected a flaw in the rescinding motion. He argued that the motion was not valid, but the chair overruled him.

Because they can get a rebate from business houses providing they pay cash, the city's street laborers presented a petition asking council to arrange to pay them semi-monthly instead of once a month. Council seemed to be in favor, but there being an ordinance providing for a monthly payment no action was taken until the matter can be further investigated.

A petition asking that a grade be established on Nottingham avenue was presented and the engineer ordered to make the grade.

On request made by Bullock a committee of three was appointed to investigate the condition of the wall in front of the McDevitt residence on West Market street. Rains have washed parts of the wall away and a damage suit is threatened. Bullock, McConnell and Johnson are the committee.

The regular monthly reports of the city officers were read and adopted. The fire chief reported one fire call, 39 patrol calls and three ambulance calls. The mayor reported the collection of $174.40 for fines and licenses.

Over $100 having been spent during the past few weeks for the hire of a team council thought it high time to make a purchase. Marshall, Johnson and Peach were appointed to purchase the team.

Marshal Thompson submitted a report showing that he had condemned nearly 100 sidewalks and the mayor was instructed to notify the abutting property owners.

The upper side of Third street from Washington to Market streets is sorely in need of new sidewalks. About half of the street has never been paved and foot passengers are in danger there. The engineer wanted immediate action, but the matter was referred to the solicitor.

An ordinance for the paving of Sugar alley from Robinson to Kossuth street was placed upon its third reading and passed, the rules being suspended.

The East Liverpool Brick Manufacturing company succeeded in having an ordinance passed granting the right to construct a side track in the alley of Frederick & Shenkle's addition. A clause requiring the company to plank the entire length of the track was stricken out. The company agrees to plank the approach at either end.

Upon motion of Marshall a resolution was passed declaring it necessary to improve Prospect street from Calcutta street to Lincoln avenue.

The clerk was instructed to notify the sewer commission to advertise for bids for the construction of sanitary sewers on East Seventh street, Green lane and West Market street.

McConnell asked that a grade line be established on John street. The engineer was instructed to furnish it.

Contracts were awarded to lowest bidders on street work as follows: For concreting a portion of Pennsylvania avenue, Thomas McLaughlin's bid was accepted. The excavation of Baldwin alley at 30 cents per square yard was given to Amos Anderson; the paving of Church alley at $1 per square yard and 27 cents for excavating to John Ryan; the paving of Drury lane at 99 cents per square yard to Mr. Ryan and the paving of College street at 97 cents per square yard to Mr. McLaughlin.

It was found that there is not enough money in the treasury to pay the city's part of the expense incident to the improvements and the clerk and mayor were instructed to give the city's obligation for enough money. The whole amount is but $2,300, $1,500 of which will be spent on the concreting.

A motion instructing the clerk to notify the Sevres China works to cease running hot water on the street was passed, but later reconsidered, and the engineer was ordered to determine whether it would be advisable to turn the water into the sanitary sewer. It is not likely that he will find it a favorable proposition. When the matter is settled all potteries will receive a notice. For years they have been accustomed to drain the hot water into the streets, and, it is said, have thereby caused the city considerable unnecessary expense. During the winter months the water freezes on the streets and many hours of labor are consumed in removing the ice. Blacksmith bills for sharpening the picks are also no little expense.

Mr. Peach moved that the clerk be instructed to order the railway companies operating in the city to keep their cars on the tracks, or if they fail to do so that they be compelled to repair streets and walks torn up by derailment.

The numbering and naming of streets was again brought up. Bids will be advertised for and the engineer and street committee were instructed to confer with the bidders. As the streets are now named there is not a resident of the city that could tell the location of them all. At the next meeting steps will be taken to change some of the names, and if possible arrange them so that in starting on a street one will not travel several streets and still be on a straight route. Objection may arise from the property owners, who have property recorded according to the old names.

McConnell stated that for the convenience of several hundred people who travel the road at the foot of Jethro bridge steps should be erected. The street commissioner was notified to build them.

"Over 1,200 people living on Trentvale street are doing without water and fire protection," said President Nice, "and I think it is high time that steps were taken to have a main constructed." The matter was referred to the water works trustees.

The bills of the attorneys and physicians who tendered their services to Miss Itha McHenry in behalf of the city were turned down, but will be taken up again at the next meeting.

MAHOGANY TREE IN OHIO

One That Had Flourished for Years Cut Down at Steubenville.

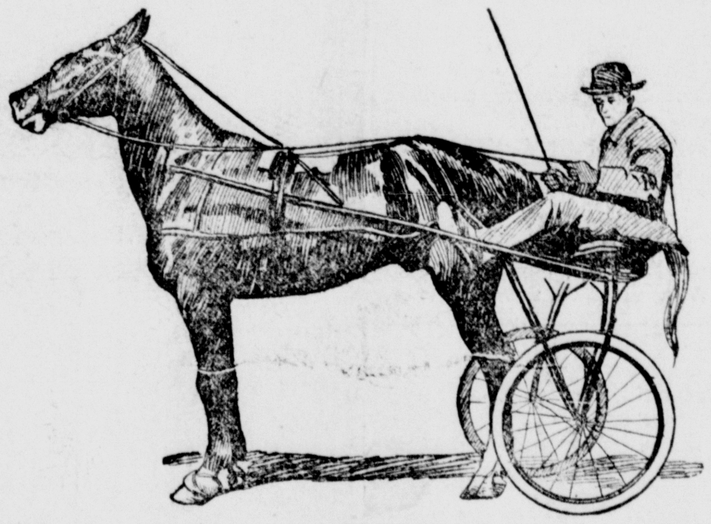

Steubenville, Aug. 13.—Very few of the population of Steubenville were aware that a mahogany tree has been growing in their midst, but it, along with many other rare and cherished features of the city, has had to go to make room for industrial progress. In 1883 a man returning from Mexico brought seeds home and planted them.

This one tree grew and flourished, which is a rare thing so far north. It stood at the end of Thomas street in the Sixth ward, and recently it was chopped down by La Belle employes. It had grown to be a foot in diameter and many pointed to it with pride. The trunk was given to William Clifton, a carpenter at the La Belle, to work up into something.

FARMERS' PICNIC

Annual Harvest Home at Shelton's Grove on Saturday, August 13.

Salem, August 13.—(Special)—The sixteenth annual harvest home picnic will be held at Shelton's grove Saturday, August 23. Cash prizes amounting to $25 will be awarded to elocutionists. There will be music by two bands, and orations on "The Mission of Culture" by Prof. A. B. Riker, of Mt. Union college, and on "Success" by Hon. S. H. Todd, of Wakeman. The railroads will give excursion rates.

LORD DERBY, RIVAL OF THE ABBOT AND CRESCEUS FOR THE TROTTING PREMIERSHIP.

Lord Derby, whose recent hollow victory over Boralma in their $40,000 match race at Hartford attracted a good deal of attention, is really the only present rival of The Abbot and Cresceus for the trotting premiership of the world. Indeed, there are presumably good judges who do not hesitate to predict that Lord Derby is the trotter who will first touch the two-minute mark. During the season of 1900 Lord Derby was beaten in most of his races, but last year he was first in nearly every event in which he started. His consistent improvement has been one of the marvels of the trotting turf.

LOADED TEAM AND DRIVER WENT OVER 50 FOOT BANK

While driving his team attached to a wagon loaded heavily with household furniture, down the steep hill road leading to Gardendale last evening, William Biddle, a West End teamster, narrowly escaped death.

The horses were plodding slowly and safely down the hill when suddenly the big lock on the wagon broke and threw the entire weight of the wagon on the horses. They bravely but vainly tried to bring the wagon to a stop. But they checked it sufficiently until an abrupt turn and exceedingly steep portion of the road was reached. Before the driver realized his precarious position he and the horses and wagon fell over the bank, a distance of fifty feet.

A number of people witnessed the accident and huried to the scene. They had difficulty in extracating Biddle from under the wagon and it was several minutes before they could remove him to the office of a physician, where it was found that although he had been badly shaken up he sustained only a broken ankle and several small cuts. Following the examination he became suddenly sick and was removed to his home, Jethro street, by the patrol wagon. The horses escaped serious injury but the wagon was badwrecked and the contents damaged. It took hours to get the outfit back on the main road. Biddle may institute a suit for damages against the city.

BUILDING CAME DOWN KILLING MAN UNDER IT

Salineville, August 13.—(Special)—Jesse Black, a single man aged 40, was crushed under a building and instantly killed near Grant Hill church at 5 o'clock last evening. He was working for Clyde Smith and with him trying to raise a small building about 20 feet square by means of jack screws.

The building had been elevated two or three feet from the foundation when the supports slipped and Black was caught beneath the building and the stone. Smith was unable to get him out alone and went for help, soon returning with two men named Shepard and Miles. Their combined efforts soon succeeded in getting the weight from the mangled body. The remains were brought to Salineville today for burial. Black carried a life insurance policy for $500.

A TORONTO MAN KILLED WHILE CHASING HIS HAT

Toronto, O., August 14.—(Special)—Samuel Charles, aged 38 years, married, was killed by a street car yesterday afternoon at Silver Lake park. He was riding on a car when his hat blew off. On alighting to get it another car ran over him. He had accampanied the Sunday school excursion from Toronto and Empire to Silver Lake. He has relatives in East Liverpool.

MAMMOTH TURTLE CAUGHT WEIGHING 100 POUNDS

Captain W. R. Hill and John Anderson returned last evening from Long's run, where they spent a week camping out. While in camp they spent considerable time in fishing and were quite successful, making some big catches. Of one of them they are especially proud. It was a turtle weighing nearly 100 pounds. They brought it home with them and now have it on exhibition. Turtles of this size are seldom caught in this part of the country, and it is a valuable prize.

POTTERY WORKER'S FALL FRACTURED HIS RIBS

Because saggers and not wood or stone were used for steps at the Brunt pottery, in a portion of the glost kilnshed, Frank Rigby, a fireman at this plant, fell yesterday and fractured several ribs. He was walking down these sagger steps, which were turned upside down, when one of them tilted, causing him to fall. He struck his side on one of the saggers and was severely injured. He is suffering considerable pain.

FATHERS DEATH FOLLOWS FUNERAL OF THE MOTHER

Robert Slack, manager of the decorating department of the D. E. McNicol pottery, returned home this morning from Trenton, where he went a few days ago to attend the funeral of his mother. When he arrived this morning he was presented with a telegram announcing that his father was dead. Mr. Slack left this afternoon for Trenton to bury his father.

Fined by the Mayor.

Charged with using indecent and vulgar language Nora Hardley, faced the mayor yesterday. She was represented by an attorney from Irondale. After all witnesses had been heard the mayor fined her $2 and costs. Thomas Smith, of Pittsburg, was arrested last evening for being drunk but was released in time to catch a train for home. He paid $1 and costs.

Tried to Kill His Only Son.

Steubenville, August 13.—Constable Milligan, of Warren township, brought William Danberry to this city and lodged him in jail, where he will probably remain until after the next grand jury meets. Danberry, who is a miner 51 years old, is charged with knocking down his only son and trying to kill him.

BOB COOLEY PLAYED THAT HE WAS SICK AND GOT OUT OF JAIL

He Was Soon Back Again and Now Gets Special Attention, But No More Dainty Food Is Furnished Him.

Lisbon, August 13. — (Special) — Robert Cooley, of East Liverpool, who is in jail on a burglarly charge, broke out and gave the sheriff and his deputy a lively chase yesterday afternoon.

Cooley has played sick for several days. A local physician has been calling twice a day to see him and Mrs. Leonard prepared toast and other delicacies to tempt his appetite.

Turnkey Porter thought the man too ill to run away and put the large hasp in the door over the staple without snapping the lock.

Cooley worked the hasp off the staple with a poker and struck out for liberty. Sheriff Leonard left the Democratic convention and started after him, while Deputies Porter and Brandon were also scouring the county.

Brandon found the fugitive in a store in Elkton and brought him back, a cured and crest-fallen man. He now gets no more toast.

RUNAWAYS HERE

Mrs. Schnabel And Man Who Left Cuyahoga Falls With Her Located.

The wife on Contractor Edward Schnabel, of Cuyahoga Falls, and C. D. McGibbon, who, it is alleged, eloped with her last week, have been located in this city and both are now under the surveillalnce of the police. They arrived last Saturday. The chief has no warrant for their arrest and will allow them their freedom until further advised by the authorities of Cuyahoga Falls.

Schnabel charges his wife with not only deserting him for McGibbon, but with stealing a large quantity of silverware and other useful household articles. The woman is lame.

TO THE INFIRMARY

A Man of 89, With Well-to-Do Children, Is Taken.

S. S. Dice, of Knox township, Columbiana county, a man who has turned the eighty-ninth mile stone, and has four children living in Columbiana county, and four in Stark county and one in Oklahoma, and all in fair circumstances, have all save two utterly refused to keep their father or help to support him.

Those that would have been willing to keep him concluded not to have all the responsibility and trouble resting on them, have given it over to the trustees of Knox township, who took him to the infirmary at Lisbon, says a Lisbon paper.

ASKS $10,000

Woman Whose Husband Was Killed by Train Wants Heavy Damages

Lisbon, August 13. — (Special) — Mrs. Jennie Whitman, of New Galilee, Pa., has entered suit against the Ft. Wayne railroad for $10,000 damages. Her husband, James Whitman, was killed while crossing the tracks August 18, 1901. She claims negligence. She has three young children.

ABUSE FOR 20 YEARS

The Grounds on which a Wife Married 41 Years Seeks Divorce.

Lisbon, August 13. — (Special) — Mary A. McCoy, of Madison township, has entered suit against Aaron McCoy for alimony. They were married in 1861 and have nine children. She claims that he has abused her for 20 years.

Sebring's Opera House.

Subscription books have been opened for the building of an opera house at Sebring to cost not less than $10,000. It has just been proposed, but already 68 shares have been taken, aggregating $4,000. It is only a matter of time when the ground will be broken for the new structure.

Wellsville Dispute Settled.

The reported strike at the United States pottery at Wellsville has been settled and this morning the entire clay department resumed operations. It is said the demands of the mould-runners and batter-outs for an increase of 15 cents a day were withdrawn.

Fish for the Ohio.

Through the efforts of local fishermen the Ohio river at Steubenville is to be restocked with black bass, crappie and jack salmon by the United States commission of fish and fisheries.

DEMOCRATS FIXED UP COUNTY TICKET

After Much Tribulation the Convention at Lisbon Finished Its Work.

FAMILIAR RESOLUTIONS

Which Denounce Republicans Are Again Brought Out And Made to Serve—Central Committee to Choose Delegates to Convention.

Lisbon, August 13. — (Special) — After the appointment of a committee to select delegates to the Democratic State convention the county convention yesterday afternoon proceeded to nominate candidates for county offices as follows:

Probate Judge—Conrade Hune, of Lisbon.

Clerk of Courts—John Sturgeon, Knox township.

Recorder—A. P. Dennis, Wellsville.

County Commissioner—Ed. Cook East Liverpool.

Coroner—B. F. Campf, Columbiana.

Surveyor—C. E. Vaughn, Unity township.

Infirmary Director—J. F. Dickey, Signal.

The names of Joseph Gottschalk, of Leetonia and J. F. Dickey, of Signal, were both proposed for the office of infirmary director. The question was put to a vote and Dickey received 48 votes and Gottschalk 26. The nomination of Dickey was then made unanimous.

The nomination for clerk of courts was tendered O. J. Astry, of Salem, but he declined the honor.

The following names were selected by the committee as delegates to the state convention: T. J. Duffy, East Liverpool; J. C. Walsh, East Liverpool; Otto Jourgens, Salem; O. J. Astry, Salem; George B. Aten, Wellsville; T. S Arnold, Leetonia; W. S. Potts, Lisbon; W. J. Foley, Unity township.

The resolutions proposed by the committee were read by W. S. Potts and unanimously adopted. They declare:

"First, that we adhere to the principals of Democracy as taught by Jefferson, and endorse the principals formulated at the last Democratic National convention.

"Second, we believe that taxation and the expenditure of public money are matters of the first importance and we denounce the Republican party, their leaders and public officers for the lavish hand they lay on the public funds and total lack of economy in the management of public affairs.

"Third, we insist that sober and competent men fill the public offices and we ask the taxpayers to vote out of office that drunken man, W. A. Tarr, who now disgraces the office of infirmary director.

"Fourth, we commend the public service of Sheriff Leonard and hereby express our full confidence in his integrity and ability.

"Fifth, We denounce the last Republican legislature for giving to our people the infamous road law that takes the management of roads from the hands of the farmers and places the expenditure of their road taxes in the hands of strangers. The road taxes ought to be expended in the

THE GIVING OF TITHES

Convention Representing Different Church Denominations Meets,

TO EVANGELIZE THE WORLD,

There Would Be Money, if the System Was Adopted, Declared Rev. Ballard—Movement to Have All Churches Adopt the System.

Warsaw, Ind., Aug. 13.—The National Tithers' convention was begun at Winona yesterday. The welcoming address was given by Thomas Kane, of Chicago, who was chosen to preside during the conference. Rev. F. O. Ballard, of Indianapolis, outlined the objects of the meeting. He said it was an inaugural effort toward getting all churches throughout the country to adopt a titheing system or Wesleyan chapel movement. If the system should be adopted, the speaker said, there would be plenty of money to evangelize the world on a scale far exceeding the dream of the most ardent Christian worker and foreign mission advocate. Delegates are present from all sections of the country. The denominations most numerously represented are the Baptists, Presbyterian, Christian, Methodist, Episcopal, United Brethren, Progressive Brethren and Congregational.

Elected to M. E. Church Position.

New York, Aug. 13.—The Rev. Stephen O. Benton, of Fall River, Mass., presiding elder of the New Bedford district, New England southern conference, Methodist Episcopal church, was yesterday elected recording secretary of the board of managers of the Missionary society, Methodist Episcopal church, to succeed the late Rev. Dr. S. L. Baldwin. Dr. Benton has been secretary of this conference for many years, has been a member of several Methodist general conferences, was for eight years secretary of the general book committee of the Methodist Episcopal church, and has been a member of the board of managers of the missionary society since 1892.

PRINCE CHEN WELCOMED.

Visited New York City Hall—Drove Through Chinatown—Left For Montreal.

New York, Aug. 13.—Prince Chen paid a visit to the city hall yesterday and was formally welcomed to the city by President Fornes, of the board of aldermen, who is acting mayor in the absence of Mr. Low on his vacation. The prince was accompanied by Third Assistant Secretary of State Peirce, the Chinese minister, Wu Ting Fang; the new minister, Sir Chentung Liang Cheng; the Chinese consul and vice consul and attaches of the Chinese legation at Washington.

A visit was next made to the postoffice, where Postmaster Van Cott, after receiving the distinguished visitors in his private room, conducted them through the office.

The prince and party then took a drive over the Brooklyn bridge, next visited the sub-treasury, and thence proceeded to Chinatown. An elaborate reception had been prepared. The prince drove through rapidly.

From Chinatown the party was driven back to the Waldorf-Astoria, where the prince entertained Sir Chentung Liang Cheng, Minister Wu Ting Fang, Secretary Peirce and Mr. A. W. Bach at dinner.

Prince Chen left last night for Montreal in a special car attached to the Montreal express.

ARMY OFFICERS URGE SMITH.

His Attorney Also Advises Contesting President's Action.

Portsmouth, O., Aug. 13.—Judge James Bannon, brother-in-law and attorney of General Jacob H. Smith, last night made a statement, saying in part:

"The sentence of the court martial was that General Smith be admonished for his order. President Roosevelt seems to have construed the word as meaning reprimand.

"I have said it once, but before I am through I will repeat many times—the president had no legal nor moral right to increase the sentence of the court martial.

"I have advised the general and will continue to advise him to go into the contest with heart and soul. Under the circumstances, his army friends can do no less, for they are more vitally interested than he.

"Many of them are now importuning him to begin action at once."

"THE PRISONER OF ZENDA."

Numbered among the many attractions which Manager Norris promises to an amusement loving public, the forthcoming engagement of "The Prisoner of Zena" is of special interest. This great play is the result of the dramatized form of Anthony Hope's novel of like name. The success of the book possibly signalized the success of the play, but if the former won immortal fame for its author, the latter has merited universal renown for itself as a masterpiece of dramatic art.

The ever progressive firm of Shipman Bros., who will direct its present tour, have engaged a company of artistic worth; mounted the play in magnificent style and promise a production second, not even to its New York engagement, when it comes to the New Grand in this city on September 30.

William Bonnett, accused of murder at a picnic in Wirt county, W. Va., some years ago, who escaped from jail and was captured afterward by Prosecuting Attorney Copen and returned to jail, escaped from the jail at Elizabeth, W. Va., by breaking through the walls. Samuel Shephard, who was taken to the penitentiary under death sentence, but who was afterward awarded a new trial and was awaiting it, escaped with Bonnett, but after wandering around a few hours returned to jail and gave himself up.

SIX STRIKERS WERE HELD.

Five Miners Were Charged With Intimidating Non-Union Men and Engaging In Riot.

Wilkesbarre, Pa., Aug. 13.—Five strikers, all members of Woodward local, United Mine Workers, of Edwardsville, were arraigned before Magistrate Pollock, of this city, last evening, charged with intimidating non-union workmen and rioting. The prosecution alleged that the defendants stopped a number of men on their way to work at the Woodward colliery and by threats and force compelled them to return to their homes.

The commonwealth wanted the secretary of the local, James Owens, to produce the minutes of the July meeting of the local, where, it is alleged, a motion was made that the members do picket duty at the mines and persuade the men who should attempt to go to work to return to their homes. Upon advice of counsel the secretary refused to produce the minute book and the magistrate held him in $100 bail for trial at court for contempt. The other defendants were held in $500 bail each on the charge of unlawful assemblage and rioting. Bail was furnished.

TWO MURDERERS LYNCHED.

Killed a Man Who Caught Them Stealing Chickens.

Lexington, Mo., Aug. 13.—At 1:30 yesterday morning a mob numbering 200 or 300 masked men battered down the door of the jail located in the court yard here and secured Charles Salyers, white, and Henry Gates, colored, who one week ago murdered George W. Johnson, and hanged them to a tree a short distance south of town. It took the mob 30 minutes to cut through the steel doors of the jail.

Gates was found to be shot in the right hip, showing that Johnson's shot had struck him. Salyer, in his statement to the mob, stated that Gates had done the murder, he having fired three shots, and when the last one was fired Gates had hold of Johnson Johnson had gone to his chicken house on hearing a noise and discovered the two men robbing the hen roost and opened fire, being then killed by the intruders.

NEW TRUST FORMED.

International Harvester Company Incorporated, at Trenton, N. J.

THE CAPITAL IS $120,000,000.

May Be Additional Stock—Payments Completed on Plants Optioned by the Shipbuilding Combine—English Firm Not Taken In.

Trenton, N. J., Aug. 13.—The International Harvester company, with an authorized capital of $120,000,000, was incorporated here last evening. The company is authorized to manufacture harvesting machines and agricultural implements of all kinds. It is understood that among the concerns interested in the syndicate is the McCormick reaper and mower concern of Chicago.

The articles provide that all of the $120,060,000 of the capital stock shall be common stock, unless it shall be decided to increase the company's capital beyond those figures. In that event $120,000,000 is to be preferred stock and the additional capital is to be common stock. The incorporators of the company are Abram M. Hyatt, of Allenhurst, N. J.; George W. Hebard, New York; Rowland R. Dennis Auburn, N. Y., Edward M. S. Miller New York; Robert S. Green, Elizabeth, N. J., and Erastus M. Cravath, New York.

Shipbuilding Combine.

New York, Aug. 13.—The Trust Company of the Republic yesterday completed the payments for all the shipbuilding plants held under the options of the United States Shipbuilding company, including the Bethlehem Steel company, Union Iron works, San Francisco; Bath Iron works, and Hyde Wandlass company, Bath, Me.; Eastern Shipbuilding company, New London, Conn.; Harlan and Hollingsworth company, Wilmington, Del.; Crescent ship yards, Elizabeth, N. J.; Samuel L. Moore & Son company, Elizabeth, N. J., and the Canda Manufacturing company, Cartaret, N. J. This consummates the transaction, and the business organization will begin at once by concentrating in different yards different types of vessels and introducing economies which are expected to result in increased profits over those of the independent companies before they were brought together. Daniel Leroy Dresser, president of the Trust Company of the Republic, says:

"There have been no negotiations whatever between Vickers, Maxim & Vickers and the United States Shipbuilding company."

Mr. Nixon was asked as to the report that the new company had acquired the Vickers, Maxim & Vickers plants in England, and he said:

"Our desire is to put American shipbuilding establishments upon such a basis that we can build foreign ships here. No steps looking to taking in English plants have been taken."

BUYS BALTIMORE FRONTAGE.

Western Maryland Railroad Gets Big Tract of Land For Terminals.

Baltimore, Aug. 13.—The Western Maryland Railroad company has purchased 125 acres of land in South Baltimore for terminal purposes, and it is said work will be begun immediately on improving the property for railroad purposes. The site is located west of Fort McHenry, on the middle branch of the Patapasco. Water frontage on both sides of the point has, it is said, been acquired. To reach the point the Gwynns Falls route at the western city limits already acquired by the company will be used and the Patapasco will be bridged at a shallow portion farther up stream. Congress has appropriated several hundred thousands of dollars to dredge this branch of the Patapasco, and with the completion of this work Baltimore will be given a new deep water harbor.

It is understood that the price paid for the property was $600,000, but the details of the purchase are not available. The land for the most part has never been improved.

Her One Success.

In the civil war time a western woman who had lost her husband in the field and who hoped to win a livelihood for herself and her little ones by writing sent to Harper's Magazine a story which had no special distinction and was returned. In the desperate mood that followed this rejection she sat down with pen aflame and told "why I wrote it," and her story under that title was accepted and published, winning a sympathetic response from all its readers. But this production, the echo of a vital moment, was her one story in the magazine. Oliver Wendell Holmes said that anybody could write one interesting novel if he could truly tell the story of his own life.—Harper's Magazine.

BISHOP HANDY SAYS

"I take great pleasure in acknowledging the curative effects of Peruna. At the solicitation of a friend I used your remedy and cheerfully recommend your Peruna to all who want a good tonic and a safe cure for catarrh."---JAMES A. HANDY.

Prominent members of the clergy are giving Peruna their unqualified endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop James A. Handy, D. D., of Baltimore.

OTHER NOTABLE CURES.

A Husband Escaped the Pangs of Catarrh of the Lungs.

Most Cases of Incipient Consumption are Catarrh.

Edward Stevens.

Mrs. Edward Stevens of Carthage, N. Y., writes as follows:

"I now take pleasure in notifying you that my husband has entirely recovered from catarrh. He is a well man today, thanks to you and Peruna. He took six bottles of your medicine as directed, and it proved to be just the thing for him. His appetite is good and every thing he eats seems to agree with him. His cough has left him and he is gaining in flesh, and seems to be well every way."—MRS. EDWARD STEVENS.

Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Mrs. Frederick Williams, President of the South Side Ladies' Aid Society of Chicago, Ill., writes the following words of praise for Peruna from 973 Cuyler avenue, Chicago, Ill.:

"My home is never without Peruna, for I have found during the past six years that there is no remedy that will at once alleviate suffering and actually cure, as Peruna does. Four bottles completely cured me of catarrh of the head of several years' standing, and if my husband feels badly, or either of us catch cold, we at once take Peruna, and in a day or two it has thrown the sickness out of the system."—Mrs. Frederick Williams.

Mrs. W. A. Allison, of 759 Sheffield avenue, Chicago, Ill., is the Assistant Matron of the People's Hospital. She has the following to say about Peruna:

Mrs. W. A. Allison.

"I have had frequent opportunities to observe the wonderful curative effects of Peruna especially on persons suffering with a conjested condition of the head, lungs, and stomach, generally called catarrh. It alleviates pain and soreness, increases the appetite and so tones up the entire system that the patient quickly regains strength and health."—Mrs. W. A. Allison.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

NEURALGYLINE FOR THE NERVES

is the enemy of all neuralgic and other nerve troubles. Accept no substitutes for it. Neuralgyline does not cure or relieve all diseases. It only RELIEVES PAINS CAUSED BY NEURALGIA AND OTHER NERVOUS TROUBLES. No matter how bad the case is, it must succumb to the all-powerful influence of Neuralgyline. Neuralgyline, by soothing the nerves, restores them to their normal state.

Neuralgyline is absolutely harmless. It is a combination of health giving chemicals. Try a box of it if you are one of the great army of neuralgic sufferers. ONE PELLET WILL BRING YOU RELIEF WITHIN TWENTY MINUTES. Read what these representative people have to say of Neuralgyline:

I have been a great sufferer from neuralgia; Neuralgyline has effected a permanent cure in my case. Miss E. V. EVANS, Sistersville, W. Va.

I have suffered for over a week with neuralgic pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one NEURALGYLINE tablet I was completely cured. Mr. J. R. SIRN, St. Paul, Minn.

Your suffering can be relieved too!

Every first-class druggist in town sells Neuralgyline. Price, 25c, a box.

If you find that Neuralgyline is not as represented, money will be cheerfully refunded.

EAST END

ALREADY IN TROUBLE

Steubenville's New Local of Street Railway Men Has a Fight on Hand.

The formation of a new local among the employes of the Steubenville and Toronto street railway seems to have started trouble on that line, and even at this early date the Trades Assembly of Steubenville has taken it in hand. Unless Motorman Davis, formerly of this city, is reinstated on the Toronto line district deputies of the Amalgamated Association of Street Railway Employes of America will be sent for to assist the Steubenville Trades Assembly in getting him reinstated.

President Charles Kontnier and Secretary Calhoun, of division No. 52, of the East End, have sent for the charter to National President Mahon, at Detroit, Mich., and it is expected to be received here in a day or so. The charter will then be forwarded to the Steubenville local.

The following officers have been elected for the Steubenville division, many of whom are known in the East End:

President, Howard T. Weekly; vice president, Hugh Crawford; financial secretary, Thomas J. Dowling; corresponding secretary, W. P. Maxwell; treasurer, E. G. Mushrush; conductor, George Spence; sentinel, Forney Good; warden, Ed Miller; executive board, Marion Ely, E. G. Mushrush, Eugene Burris, Thomas T. Brown, W. P. Maxwell; delegates to Trades and Labor Assembly, Charles Brandt, Thomas J. Dowling, Joseph Peterson, George Spence.

Representatives of the East End division will attend a meeting of the Steubenville local next Saturday evening, and the session gives promise of being very interesting.

Dancing Broke Lamps.

The Pastime club, of the East End, held a dance in the Larkins & Ferguson hall last evening, which did not adjourn until the early hours of the morning. The dance was held on the second floor, and a number of lamps in the grocery below were broken. The affair was well attended by about 50 couples, and all had a good time.

EAS TEND AFFAIRS.

Born, to Mr. and Mrs. Marion Shiveley, of McKinnon addition, a daughter.

George Pillar, of the East End, is arranging to remove his family back to Toronto.

A little daughter of Mr. and Mrs. McDevitt, of First avenue, is very ill with cholera infantum.

Miss Grace Helser will entertain a number of her friends at her home on Mulberry street tomorrow evening.

The home of Mr. and Mrs. Jeff Green, on High street, has been quarantined on account of one of the children having scarlet fever.

Walter Supplee is constructing a cement walk around his residence on Ohio avenue. It is the only sidewalk of the kind on that street.

Arrangements have been made for a lecture to be given in the Second Presbyterian church on Virginia avenue the latter part of the month.

Owing to the cool weather during the early morning many of the motormen of the East Liverpool street railway are compelled to wear their overcoats on their first trips.

A meeting of the Woman's Missionary society of the Second Presbyterian church will be held in the church tomorrow afternoon. The regular monthly business will be considered.

In the court of Justice L. W. Carman, Mrs. E. M. Randall has entered suit against Miller Harsha for forcible detention. The case will be heard Saturday afternoon at 3 o'clock.

About 25 friends surprised Mrs. Jennie Bryan at her home on Railroad sereet yesterday afternoon. Mrs. Bryan is about 65 years old. The afternoon was spent most pleasantly.

The bricklayers will commence work on the new residence being built on Ohio avenue for George Smith Friday. This residence will cost $8,000 and will be of a colonial style of architecture.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by Alvin H. Bulger.

Samuel Carter, a Unity township farmer, was violently thrown from his buggy and injured a few days ago. He had just returned from East Palestine during a violent storm, and a flash of lightning caused the horse to rear and plunge, throwing him out.

J. Frank Smith, until recently a resident of Salineville, met with a queer accident at his home in Elyria. He is night dispatcher on the Lorain & Elyria electric line, and in throwing a switch to turn off the electric power his hand was burned to a crisp by the current.

THE DOMINATING FACTORS

In Stock Market, Yesterday, Were the Coming Crops and the Money Outlook.

New York, Aug. 13.—The dominating factors in the stock market continue to be the coming crops and the money outlook. Crop news was eminently satisfactory yesterday, both that of the monthly report of the agricultural department and the later current news of the weather bureau, but it is to be borne in mind that the speculation for some time past has been diligently discounting good crops, which have been clearly foreshadowed. On the other hand the autumn activity in the money market, while it has been expected and made the subject of industrious warnings, has been ignored in speculation. This week's rise in money rates, therefore, would naturally be of most effect on speculative conditions.

Buyers, in anticipation of good crops, seeing the danger of a flurry in the money market which might force liquidation of stocks and attracted by the high level to which prices have attained, are tempted to sell to realize their profits. There was considerable strength at one time yesterday and in a few cases it continued to the close, but for the most part the early rise in prices was taken advantage of to realize profits, and the general level of prices ended lower than Monday night. There was a further contraction also in the volume of the dealings, which dropped back again below half a million shares.

Knights of Pythias Met.

San Francisco, Aug. 13.—The biennial convention of the Knights of Pythias was formally opened yesterday in the Palace hotel. Nearly 150 delegates were present. There were few vacant seats and these will be filled today. The absent supreme representatives have all telegraphed that they will be here as soons as the delayed specials shall be able to move. Among other business done, reports were made. Supreme Chancellor Fethers, in his annual report, said that on Dec. 31, 1901, the order had 540,138 members.

Origin of Spoons.

Two natural objects seem to have furnished the model for the spoon to primitive man—the river or sea shell and the leaf of plants. In southern China shell spoons are still used that are closely reproduced in the familiar porcelain spoon of that country, while metal spoons are found in India on which are reproduced even the veins of the leaves from which they were copied.

The United States bureau of forestry now has a division of forest extension and is co-operating with states, communities and private land owners in an effort to add to the country's wooded area. The field work of the division is now being carried on by a force of 32 men, and planting plans are being prepared by representatives of the bureau, working individually where their services are demanded. At the beginning of the present field season 224 planting plans had been made in 172 localities of 29 different states. Experiments are in progress in New England, Nebraska, Oklahoma, Arizona, Washington, Oregon, Texas and elsewhere. A line of work recently taken up by the bureau of forestry, and for the first time receiving adequate attention in the United States, is the study of the tendency of natural forests to extend over the land devoid of forest growth. This tendency has been noticed in many parts of the country, but has never been studied with a view of controlling it for practical use, or assisting it where desirable. Successful work has been done in the line of holding shifting sands in check by planting shrubs and grasses; denuded pine forests are being prepared for new growth, and the extension and preservation of hardwood forests are also receiving attention. The government is engaged in a noble work, which, scientifically and zealously prosecuted, with the co-operation of the people, should result in adding largely to the value of lands that are now nearly worthless, thus benefiting posterity, while present day benefits will speedily become apparent in greater uniformity of rainfall and the decrease of destructive floods.

The negro Young People's Christian and educational congress held at Atlanta last week did not waste its time in lamenting the social standing of the colored race nor in discussing visionary projects of deporting the negro to Africa. It attacked actual problems with zeal and earnestness and took a sensible and optimistic view of the present and the future. In a resolution it declared: "In spite of theorists and their theories, both before and after emancipation, we have shown ourselves able to live and thrive. A generation ago we came out of bondage without a foot of land, without a home, without a name. Even the clothes which covered our poorly clad bodies were not ours. Today we have some land, some homes, some money. Yesterday we had nothing; today we own millions of acres of land, pay taxes on property worth millions of dollars, and raise more cotton under freedom than under slavery." The white people can help the colored people to better their condition, but the prime requisite for advancement is that they should show a disposition to help themselves. The negro is learning this and much else that will be useful in the industrial schools which Booker T. Washington has been so instrumental in establishing.

Parliamentary law is absolutely useless in a Democratic convention. Attempts to apply it are a waste of effort and supremely ridiculous, as the proceedings at Lisbon prove. The father of the Democracy wrote eloquently of "a decent respect for the opinions of mankind," but modern Democracy has no respect for opinions, traditions or decency.

A member of President Roosevelt's cabinet is credited with the remark that one agitation for tariff revision is worse than two revisions. Those who are attempting to start such an agitation are simply striking a blow at business interests.

Half a century hence the "oldest inhabitant" will be telling incredulous youngsters of the remarkable summer of 1902 when overcoats were needed for comfort, even in dog days.

A volcano in Alaska is warming up and gold seekers are hoping it will thaw out their claims without overdoing the job.

The Venezuelan revolution, having reached a stage where actual battles are fought, cannot long survive.

Some ambitious code makers apparently have never read the state constitution.

It was not exactly a happy family party that the Democrats held at Lisbon.

OBITUARY

Willie Scheester.

Willie, the 18-months-old son of Mr. and Mrs. Emil Scheester, died at the home of its parents on Trentvale street last evening at 8:30 o'clock, of cholera infantum. The funeral services were held this afternoon, interment being at Riverview cemetery at 5 o'clock.

WHAT ADVERTISING DID.

Enormous Increase In Sales of National Biscuit Company.

The annual meeting of the National Biscuit company, held in Jersey City, was of considerable interest. The report of Mr. A. W. Green, chairman of the board of directors, showed a phenomenal growth in the business of the company. This he explained as follows:

"When the company started, our goods were sold almost entirely in bulk, and the package business was in its infancy. We determined that the true way to sell certain of our goods was to sell them in small, airtight, moisture proof packages. The first result of this determination was the Uneeda biscuit, a five cent package protected by United States patent. The idea was novel, and we soon found that we had struck the taste of the people. The introduction of the Uneeda biscuit was followed by many other packages put up in the same manner and sealed with the In-er-seal trademark design.

"The next point was to reach the consumer. We did this by extensive advertising.

"The results have exceeded even our expectations. The total sales of the company increased to $38,625,135, a gain of $2,185,975, or 6 per cent, and the profits increased to $3,670,445, a gain of $352,000 over the previous year. During the past year the company invited its employees to invest in its stock, and they have taken over 4,000 shares."

THE KILTIES ARE HERE

Famous Band Will Give Concert at Rock Springs To-night

The Kilties came in this forenoon, and will appear this afternoon and evening in concerts at Rock Springs park. For the past two Sundays they have been the attraction at Calhoun park near Pittsburg, where delighted crowds listened to their music. They praded the streets of this city this forenoon, and attracted much attention by their costumes and their excellent music. The band is a large one and the way it plays Scotch music and popular airs has won golden opinion wherever the organization has appeared.

THE BELLES.

Oh, the belles,
Summer belles!
What a plenitude of heartaches their giddiness compels!
How they giggle, giggle, giggle,
In the sea breeze laden night!
How their victims squirm and wriggle
In an ecstasy of fright!
How they hurt
When they flirt,
When with ghoulish glee they gloat
On the squirming of a fellow when they have him by the throat.

Oh, the belles,
Summer belles,
How they conjure, scheme and plan
To entrap the summer man,
The ribbon counter gentlemen who masquerade as swells!

Oh, the belles,
Greedy belles,
How they wring, wring, wring
Soda water, everything,
From the pockets of those "Cash!" exclaiming swells!

Oh, the belles,
Foxy belles,
What a wealth of hints they fling
To compel the pleasant ring—
Diamond ring—
Ah, the heart engaging ring
Of the golden wedding bells, bells, bells, bells, bells,
Oh, the belles!

SHIPPED TO KENSINGTON

Body of the Ill-fated Railroader, L. G. Cox, Sent Home for Burial.

The body of C. G. Cox, who was struck and instantly killed by train No. 309 yesterday, was taken to Kensington last night on train No. 301. Cox was a first-class railroader and was recently promoted to first extra passenger conductor. The cause of his falling asleep on the track is said to be due to over-work. A brakemanof the Conway drag stated last night that Cox had been on duty for twenty hours previous to the fatal accident.

Funeral services will be held from the home of his parents in Kensington this afternoon.

HORSE THIEF CAUGHT

And the Place Where He Was Found Raided By the Police.

George R. Tate, who, it is alleged, stole a horse from J. T. Sheppard at Amsterdam last Saturday, was arrested at Wellsville today. Tate sold the horse to Joe Keenan, of Second street, Wellsville, for $100. Tate was arrested at Keenan's resort and the same officers pulled this place, capturing five men and five women.

One woman was fined $13.60 and the other four paid $8.60. Keenan also paid $8.60.

One Saloon Less.

Third street has now one less saloon. The saloon run by Paul Leach in a building owned by Henry Greenwood, the East Liverpool brewer, was dismantled Saturday and the fixtures sent to Lisbon where Mr. Leach will start in business. It is stated that Mr. Greenwood expects to start a soft drink bottleing establishment in the building vacated.

Arrested in Wellsville.

"Mandy" Logan, a well-known Salineville character, and a well-known Irondale cripple were caught by Officers Houser and Davis here last evening. Each had had a drop too much and was loudly demonstrating their love for each other. The cripple put up a $5 forfeit and the woman's friends did likewise any they departed on a train.

Sent to the Infirmary.

Poor Director Hutchinson has ordered that Henry Malone and Lucas Phillips be taken to the infirmary. McLean Bros., will take them there to-day. Malone has heretofore been residing with his daughter-inlaw on Railroad street.

Funeral of a Child.

The three-months-old daughter of Mr. and Mrs. J. Pippin, of Eighteenth street, died at 1 o'clock yesterday; funeral took place at 2 o'clock this afternoon, Rev. C. L. Wells officiating.

Hand Badly Crushed.

Deadly Prussic Acid.

Hydrocyanic acid, or, as it is most commonly called, prussic acid, is one of the most deadly poisons known to animal life. It is a volatile principle contained in numerous shrubs and trees, chiefly the wild cherry, bitter almond, sherry laurel, St. Ignatius bean and the peach tree. It is obtained by distillation from ferrocyanide of potassium by the action of sulphuric acid in the form of a light, colorless gas. The preparation kept in the drugstore is a dilute acid of a strength of 2 per cent of anhydrous acid in distilled water, a colorless liquid, with the odor of bitter almonds. The dose is from two to six drops. One-half grain of the anhydrous acid is sufficient to produce death. It is used in medicine in correcting diseases of the stomach, also in whooping cough and the last stages of consumption.

It is very volatile, and the fumes will destroy vegetable life, causing the stems of plants to wither and dry up. Its effect on the lower animals is similar to its action on man, with the exception of the horse and the hyena, upon whom it does not appear to produce any impression. In fatal doses it causes death quickly by paralyzing the heart's action. After death the rigor mortis sets in, and in a few moments the unfortunate subject is as stiff as a board.

Some Curious Book Titles.

In the sixteenth century we find the greatest extravagance displayed in the titles of books. These may be taken as examples: "The Spiritual Snuffbox, to Lead Devoted Souls to Christ," and "The Spiritual Seringa For Souls Steeped In Devotion." A work on Christian charity published in 1587 is entitled "Buttons and Buttonholes For Believers' Breeches." Another quaint publication is Father La Chaucie's work entitled "Bread Cooked on the Ashes; Brought by an Angel to the Prophet Eligiah (Elijah) to Comfort the Dying." Another was issued with the curious title of "The Lamp of S. Augustine and the Flies That Flit Around It."

The following very attractive title appeared in a book published at Newcastle in 1605: "Some Beautiful Biscuits Cooked In the Oven of Charity and Put Aside For the Fowls of the Church, the Sparrows of the Spirit and the Swallows of Salvation."

Rubber Foot Fever.

If a man has a corn, it can be removed, but if he is suffering from rubber foot fever no chiropodist can help him, and the only thing to prescribe is liberal bathing of the feet and removal of the cause. Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from forcing the perspiration to soak the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. Even loose rubbers are a source of danger and the cause of many more serious colds than they avert.

Tiffany's Big Day In 1837.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of $1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, fine stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only $4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to $236.—American Monthly Review of Reviews.

Dublin's Red Haired Club.

The Red Haired club of Dublin, which flourished years ago, was a society which barred out all whose hirsute covering was not of the most pronounced auburn. In order that no one could gain admission by false pretenses it was required at the initiation of each member that the applicant wash his hair and whiskers in hot soda and water. This effectually took out any "dye" that might have been used.

Prediction That Captain Goucher Will Win in Pending Litigation.

The Emily, the Congo and Wellsville ferryboat, will continue to run until the litigation is fully decided. The matter was referred back from the circuit court to the county court for correction on a technicality. It is predicted that S. B. Goucher will win the case, notwithstanding reports to the contrary. The action on the bill is simply to make a correction on Judge Hervey's objection.

The decision was really in favor of Goucher, but for the technicality. When the county court rectifies this matter the decision is final.

AROUND THE CIRCLE

PRESIDENT ROOSEVELT TO TOUR THE COUNTRY NEXT FALL.

Will Visit Nearly Every State East of the Rockies—Previous Tours of Chief Executives—Presidents Who Liked to Travel.

When President Roosevelt starts out next fall to make his projected swing around the circle, he will be following the example set by many of his illustrious predecessors. The president has received many invitations to visit various sections of the country during the summer and fall, and if he finds time to fulfill his engagements he will before November have visited nearly every state in the Union except those in the Rocky mountains and on the Pacific slope.

Plans already made contemplate the most important swing around the circle made by a president in many years. The real beginning of Mr. Roosevelt's peregrinations will be in late August, when he will visit Maine and Vermont, where elections are held in early September.

The president is expected to make two speeches in Maine and one or two in Vermont. Following the New England tour, the president will start late in September for the northwest. He has accepted invitations to speak in Detroit, Minneapolis, Illinois, Missouri and Iowa.

Late in October the president will start on a long trip through the southwest and will probably go as far as San Antonio. On the way he will enjoy a big bear hunt in the swamps of Mississippi. Altogether the president has planned a very busy fall, and if every city and town in the Union does not see him and hear his voice before next November it will not be because they have not invited him.

The custom of taking long excursions through the country by presidents is much older than is generally believed. Washington had seen nearly all of the Union north of the Carolinas before he became president, and both of the Adamses were great travelers in their time.

President Monroe was the first to conceive the idea of making an ex-

PRESIDENT ROOSEVELT SPEAKING FROM A CAR.

tensive journey through the states while president. During one of his vacations he undertook to travel in his carriage northward through New England and then westward as far as Ohio. It was a tedious journey. No special invitations were extended him, but he was cordially received everywhere. The sight of a president was rare in those days.

Andrew Johnson was the first of recent presidents to make a long journey through the country. He delivered speeches from an open carriage in which he was driven through many large towns.

Johnson left Washington in September, 1866, to attend the laying of the cornerstone for the Stephen A. Douglas monument in Chicago. On his outward trip he stopped, among other places, at Baltimore, Philadelphia, Albany, Cleveland and Detroit. He returned by way of Louisville and Cincinnati, taking three weeks for the trip.

President Hayes traveled through the south soon after his plan of reconstruction was adopted. Garfield was starting on a trip when he was shot.

President Harrison made more trips than any of his predecessors. In 1891 he made his trip across the continent, taking thirty days. He traveled almost 10,000 miles and made 140 addresses.

In April, 1901, the late President McKinley made a trip extending over 15,000 miles, going to the Pacific coast by way of the south. He made speeches in the principal cities.

The trains on which presidents trave in these days are marvels of equipment and mechanical perfection. Everything is done to make the journey as comfortable as possible. Besides the invited guests of the president a corps of newspaper correspondents are provided with quarters, and these are the busiest men on the train. Whenever the president makes a speech these alert newsgatherers are on hand to telegraph his words all over the country. Every move of the president is known to the world from the time the wheels first begin to turn until the traveler returns to Washington.

Wolsey's Household.

In Cardinal Wolsey's palace no less than 280 beds were provided for strangers, with superb canopies and curtains of silk or velvet. There were bedsteads of alabaster, quilts of down and pillowcases embroidered with silk and gold. The chairs of state were covered with cloth of gold; the tables and cabinets were of the most costly woods. Much of the splendid furniture was emblazoned with "my lord's arms." Everywhere was impressed the cardinal's hat. The same magnificence appeared in the decorations and ornaments of the chapel, but the forty-four gorgeous copes of one suit and the rest of the sacerdotal pomp displayed there were eclipsed by the majesty of Wolsey's secular equipment.

The annual expenses of his household exceeded £30,000, an immense sum for those days. His retinue of 500 persons, his kingly stud, his sumptuous open table, are mentioned in every history. When he rode to and from Westminster in his character of lord chancellor, his mule was attended by a long train of nobles and knights on horseback; his pursuivant, ushers and other officers led the way in rich liveries, while footmen with gilded poleaxes brought up the rear.

The United States bureau of forestry now has a division of forest extension and is co-operating with states, communities and private land owners in an effort to add to the country's wooded area. The field work of the division is now being carried on by a force of 32 men, and planting plans are being prepared by representatives of the bureau, working individually where their services are demanded. At the beginning of the present field season 224 planting plans had been made in 172 localities of 29 different states. Experiments are in progress in New England, Nebraska, Oklahoma, Arizona, Washington, Oregon, Texas and elsewhere. A line of work recently taken up by the bureau of forestry, and for the first time receiving adequate attention in the United States, is the study of the tendency of natural forests to extend over the land devoid of forest growth. This tendency has been noticed in many parts of the country, but has never been studied with a view of controlling it for practical use, or assisting it where desirable. Successful work has been done in the line of holding shifting sands in check by planting shrubs and grasses; denuded pine forests are being prepared for new growth, and the extension and preservation of hardwood forests are also receiving attention. The government is engaged in a noble work, which, scientifically and zealously prosecuted, with the co-operation of the people, should result in adding largely to the value of lands that are now nearly worthless, thus benefiting posterity, while present day benefits will speedily become apparent in greater uniformity of rainfall and the decrease of destructive floods.

The negro Young People's Christian and educational congress held at Atlanta last week did not waste its time in lamenting the social standing of the colored race nor in discussing visionary projects of deporting the negro to Africa. It attacked actual problems with zeal and earnestness and took a sensible and optimistic view of the present and the future. In a resolution it declared: "In spite of theorists and their theories, both before and after emancipation, we have shown ourselves able to live and thrive. A generation ago we came out of bondage without a foot of land, without a home, without a name. Even the clothes which covered our poorly clad bodies were not ours. Today we have some land, some homes, some money. Yesterday we had nothing; today we own millions of acres of land, pay taxes on property worth millions of dollars, and raise more cotton under freedom than under slavery." The white people can help the colored people to better their condition, but the prime requisite for advancement is that they should show a disposition to help themselves. The negro is learning this and much else that will be useful in the industrial schools which Booker T. Washington has been so instrumental in establishing.

Parliamentary law is absolutely useless in a Democratic convention. Attempts to apply it are a waste of effort and supremely ridiculous, as the proceedings at Lisbon prove. The father of the Democracy wrote eloquently of "a decent respect for the opinions of mankind," but modern Democracy has no respect for opinions, traditions or decency.

A member of President Roosevelt's cabinet is credited with the remark that one agitation for tariff revision is worse than two revisions. Those who are attempting to start such an agitation are simply striking a blow at business interests.

Half a century hence the "oldest inhabitant" will be telling incredulous youngsters of the remarkable summer of 1902 when overcoats were needed for comfort, even in dog days.

A volcano in Alaska is warming up and gold seekers are hoping it will thaw out their claims without overdoing the job.

The Venezuelan revolution, having reached a stage where actual battles are fought, cannot long survive.

Some ambitious code makers apparently have never read the state constitution.

It was not exactly a happy family party that the Democrats held at Lisbon.

WHAT ADVERTISING DID.

Enormous Increase In Sales of National Biscuit Company.

The annual meeting of the National Biscuit company, held in Jersey City, was of considerable interest. The report of Mr. A. W. Green, chairman of the board of directors, showed a phenomenal growth in the business of the company. This he explained as follows:

"When the company started, our goods were sold almost entirely in bulk, and the package business was in its infancy. We determined that the true way to sell certain of our goods was to sell them in small, airtight, moisture proof packages. The first result of this determination was the Uneeda biscuit, a five cent package protected by United States patent. The idea was novel, and we soon found that we had struck the taste of the people. The introduction of the Uneeda biscuit was followed by many other packages put up in the same manner and sealed with the In-er-seal trademark design.

"The next point was to reach the consumer. We did this by extensive advertising.

"The results have exceeded even our expectations. The total sales of the company increased to $38,625,135, a gain of $2,185,975, or 6 per cent, and the profits increased to $3,670,445, a gain of $352,000 over the previous year. During the past year the company invited its employees to invest in its stock, and they have taken over 4,000 shares."

THE KILTIES ARE HERE

Famous Band Will Give Concert at Rock Springs To-night

The Kilties came in this forenoon, and will appear this afternoon and evening in concerts at Rock Springs park. For the past two Sundays they have been the attraction at Calhoun park near Pittsburg, where delighted crowds listened to their music. They praded the streets of this city this forenoon, and attracted much attention by their costumes and their excellent music. The band is a large one and the way it plays Scotch music and popular airs has won golden opinion wherever the organization has appeared.

It Was Hot.

Visitor (to Nebraska farmer)—It has been pretty hot out here this summer, has it not?

Farmer—Hot? Well, rather. Why, we even had to put ice in the pond to keep the ducks from laying hard boiled eggs.—Judge.

Not Revengeful.

Jester—I gave a lady my seat in a street car this morning.

Jimson—What did you do that for?

Jester—Well, I didn't want to be carried past my getting off place just to be mean.—Ohio State Journal.

Friendship's Tribute.

The Youth—I think Bessie Billus is as pretty as she can be, don't you?

The Maiden—Oh, yes. If she could think of any way to make herself prettier, you can bet she'd try it.—Chicago Tribune.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Dangerously Ill—Mrs. Homer Taylor, of Fifth street, is dangerously ill, and her father and mother, Mr. and Mrs. O. H. Sebring, have been summoned.

K. of C. Election—At a meeting of the Knights of Columbus last evening Dr. Francis Harrison was elected lecturer; Thomas Collins, warden, and Dr. Charles Harrison, assistant warden, to fill unexpired terms. It was decided that commencing with the meeting to be held two weeks hence a social feature would be connected with each session.

Got a Serious Fall—Ira Chamberlain, a tinner, residing on Mulberry street, East End, while at work at the Chester mill yesterday, fell from a ladder while crossing from one building to another a distance of about 15 feet. He struck the ground on his head and shoulders, causing him to be severely jolted. He was otherwise bruised, and is unable to work.

Gone With a Negro.

A white man from Rochester, Pa., was in the city yesterday looking for his wife who, he claims ran off with a colored man from that city.

To Queer the Game.

Detective—We have just unearthed an anarchistic plot.

Chief—So?

Detective—The reds were getting ready to manufacture explosive pingpong balls.—Town Topics.

Knew Who He Was.

Spatts—Who is that gloomy looking misanthrope over yonder?

THE BELLES.

Oh, the belles,
Summer belles!
What a plenitude of heartaches their giddiness compels!
How they giggle, giggle, giggle,
In the sea breeze laden night!
How their victims squirm and wriggle
In an ecstasy of fright!
How they hurt
When they flirt,
When with ghoulish glee they gloat
On the squirming of a fellow when they have him by the throat.

Oh, the belles,
Summer belles,
How they conjure, scheme and plan
To entrap the summer man,
The ribbon counter gentlemen who masquerade as swells!

Oh, the belles,
Greedy belles,
How they wring, wring, wring
Soda water, everything,
From the pockets of those "Cash!" exclaiming swells!

Oh, the belles,
Foxy belles,
What a wealth of hints they fling
To compel the pleasant ring—
Diamond ring—
Ah, the heart engaging ring
Of the golden wedding bells, bells, bells, bells, bells,
Oh, the belles!

SHIPPED TO KENSINGTON

Body of the Ill-fated Railroader, L. G. Cox, Sent Home for Burial.

The body of C. G. Cox, who was struck and instantly killed by train No. 309 yesterday, was taken to Kensington last night on train No. 301. Cox was a first-class railroader and was recently promoted to first extra passenger conductor. The cause of his falling asleep on the track is said to be due to over-work. A brakemanof the Conway drag stated last night that Cox had been on duty for twenty hours previous to the fatal accident.

Funeral services will be held from the home of his parents in Kensington this afternoon.

HORSE THIEF CAUGHT

And the Place Where He Was Found Raided By the Police.

George R. Tate, who, it is alleged, stole a horse from J. T. Sheppard at Amsterdam last Saturday, was arrested at Wellsville today. Tate sold the horse to Joe Keenan, of Second street, Wellsville, for $100. Tate was arrested at Keenan's resort and the same officers pulled this place, capturing five men and five women.

One woman was fined $13.60 and the other four paid $8.60. Keenan also paid $8.60.

One Saloon Less.

Third street has now one less saloon. The saloon run by Paul Leach in a building owned by Henry Greenwood, the East Liverpool brewer, was dismantled Saturday and the fixtures sent to Lisbon where Mr. Leach will start in business. It is stated that Mr. Greenwood expects to start a soft drink bottleing establishment in the building vacated.

Arrested in Wellsville.

"Mandy" Logan, a well-known Salineville character, and a well-known Irondale cripple were caught by Officers Houser and Davis here last evening. Each had had a drop too much and was loudly demonstrating their love for each other. The cripple put up a $5 forfeit and the woman's friends did likewise any they departed on a train.

Sent to the Infirmary.

Poor Director Hutchinson has ordered that Henry Malone and Lucas Phillips be taken to the infirmary. McLean Bros., will take them there to-day. Malone has heretofore been residing with his daughter-inlaw on Railroad street.

Funeral of a Child.

The three-months-old daughter of Mr. and Mrs. J. Pippin, of Eighteenth street, died at 1 o'clock yesterday; funeral took place at 2 o'clock this afternoon, Rev. C. L. Wells officiating.

Deadly Prussic Acid.

Hydrocyanic acid, or, as it is most commonly called, prussic acid, is one of the most deadly poisons known to animal life. It is a volatile principle contained in numerous shrubs and trees, chiefly the wild cherry, bitter almond, sherry laurel, St. Ignatius bean and the peach tree. It is obtained by distillation from ferrocyanide of potassium by the action of sulphuric acid in the form of a light, colorless gas. The preparation kept in the drugstore is a dilute acid of a strength of 2 per cent of anhydrous acid in distilled water, a colorless liquid, with the odor of bitter almonds. The dose is from two to six drops. One-half grain of the anhydrous acid is sufficient to produce death. It is used in medicine in correcting diseases of the stomach, also in whooping cough and the last stages of consumption.

It is very volatile, and the fumes will destroy vegetable life, causing the stems of plants to wither and dry up. Its effect on the lower animals is similar to its action on man, with the exception of the horse and the hyena, upon whom it does not appear to produce any impression. In fatal doses it causes death quickly by paralyzing the heart's action. After death the rigor mortis sets in, and in a few moments the unfortunate subject is as stiff as a board.

Some Curious Book Titles.

In the sixteenth century we find the greatest extravagance displayed in the titles of books. These may be taken as examples: "The Spiritual Snuffbox, to Lead Devoted Souls to Christ," and "The Spiritual Seringa For Souls Steeped In Devotion." A work on Christian charity published in 1587 is entitled "Buttons and Buttonholes For Believers' Breeches." Another quaint publication is Father La Chaucie's work entitled "Bread Cooked on the Ashes; Brought by an Angel to the Prophet Eligiah (Elijah) to Comfort the Dying." Another was issued with the curious title of "The Lamp of S. Augustine and the Flies That Flit Around It."

The following very attractive title appeared in a book published at Newcastle in 1605: "Some Beautiful Biscuits Cooked In the Oven of Charity and Put Aside For the Fowls of the Church, the Sparrows of the Spirit and the Swallows of Salvation."

Rubber Foot Fever.

If a man has a corn, it can be removed, but if he is suffering from rubber foot fever no chiropodist can help him, and the only thing to prescribe is liberal bathing of the feet and removal of the cause. Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from forcing the perspiration to soak the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. Even loose rubbers are a source of danger and the cause of many more serious colds than they avert.

Tiffany's Big Day In 1837.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of $1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, fine stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only $4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to $236.—American Monthly Review of Reviews.

Dublin's Red Haired Club.

The Red Haired club of Dublin, which flourished years ago, was a society which barred out all whose hirsute covering was not of the most pronounced auburn. In order that no one could gain admission by false pretenses it was required at the initiation of each member that the applicant wash his hair and whiskers in hot soda and water. This effectually took out any "dye" that might have been used.

All Agreed.

Krankleigh—Naw! I don't like my new neighborhood at all. Every man on the street's a cad.

Sharpe—You don't say?

Krankleigh—Yes, and there's one man in particular who isn't fit to live there at all.

Sharpe—Strange; that's what all the other neighbors say.—Philadelphia Press.

Prediction That Captain Goucher Will Win in Pending Litigation.

The Emily, the Congo and Wellsville ferryboat, will continue to run until the litigation is fully decided. The matter was referred back from the circuit court to the county court for correction on a technicality. It is predicted that S. B. Goucher will win the case, notwithstanding reports to the contrary. The action on the bill is simply to make a correction on Judge Hervey's objection.

The decision was really in favor of Goucher, but for the technicality. When the county court rectifies this matter the decision is final.

AROUND THE CIRCLE

PRESIDENT ROOSEVELT TO TOUR THE COUNTRY NEXT FALL.

Will Visit Nearly Every State East of the Rockies—Previous Tours of Chief Executives—Presidents Who Liked to Travel.

When President Roosevelt starts out next fall to make his projected swing around the circle, he will be following the example set by many of his illustrious predecessors. The president has received many invitations to visit various sections of the country during the summer and fall, and if he finds time to fulfill his engagements he will before November have visited nearly every state in the Union except those in the Rocky mountains and on the Pacific slope.

Plans already made contemplate the most important swing around the circle made by a president in many years. The real beginning of Mr. Roosevelt's peregrinations will be in late August, when he will visit Maine and Vermont, where elections are held in early September.

The president is expected to make two speeches in Maine and one or two in Vermont. Following the New England tour, the president will start late in September for the northwest. He has accepted invitations to speak in Detroit, Minneapolis, Illinois, Missouri and Iowa.

Late in October the president will start on a long trip through the southwest and will probably go as far as San Antonio. On the way he will enjoy a big bear hunt in the swamps of Mississippi. Altogether the president has planned a very busy fall, and if every city and town in the Union does not see him and hear his voice before next November it will not be because they have not invited him.

The custom of taking long excursions through the country by presidents is much older than is generally believed. Washington had seen nearly all of the Union north of the Carolinas before he became president, and both of the Adamses were great travelers in their time.

President Monroe was the first to conceive the idea of making an ex-

PRESIDENT ROOSEVELT SPEAKING FROM A CAR.

tensive journey through the states while president. During one of his vacations he undertook to travel in his carriage northward through New England and then westward as far as Ohio. It was a tedious journey. No special invitations were extended him, but he was cordially received everywhere. The sight of a president was rare in those days.

Andrew Johnson was the first of recent presidents to make a long journey through the country. He delivered speeches from an open carriage in which he was driven through many large towns.

Johnson left Washington in September, 1866, to attend the laying of the cornerstone for the Stephen A. Douglas monument in Chicago. On his outward trip he stopped, among other places, at Baltimore, Philadelphia, Albany, Cleveland and Detroit. He returned by way of Louisville and Cincinnati, taking three weeks for the trip.

President Hayes traveled through the south soon after his plan of reconstruction was adopted. Garfield was starting on a trip when he was shot.

President Harrison made more trips than any of his predecessors. In 1891 he made his trip across the continent, taking thirty days. He traveled almost 10,000 miles and made 140 addresses.

In April, 1901, the late President McKinley made a trip extending over 15,000 miles, going to the Pacific coast by way of the south. He made speeches in the principal cities.

The trains on which presidents travel in these days are marvels of equipment and mechanical perfection. Everything is done to make the journey as comfortable as possible. Besides the invited guests of the president a corps of newspaper correspondents are provided with quarters, and these are the busiest men on the train. Whenever the president makes a speech these alert newsgatherers are on hand to telegraph his words all over the country. Every move of the president is known to the world from the time the wheels first begin to turn until the traveler returns to Washington.

Wolsey's Household.

In Cardinal Wolsey's palace no less than 280 beds were provided for strangers, with superb canopies and curtains of silk or velvet. There were bedsteads of alabaster, quilts of down and pillowcases embroidered with silk and gold. The chairs of state were covered with cloth of gold; the tables and cabinets were of the most costly woods. Much of the splendid furniture was emblazoned with "my lord's arms." Everywhere was impressed the cardinal's hat. The same magnificence appeared in the decorations and ornaments of the chapel, but the forty-four gorgeous copes of one suit and the rest of the sacerdotal pomp displayed there were eclipsed by the majesty of Wolsey's secular equipment.

The annual expenses of his household exceeded £30,000, an immense sum for those days. His retinue of 500 persons, his kingly stud, his sumptuous open table, are mentioned in every history. When he rode to and from Westminster in his character of lord chancellor, his mule was attended by a long train of nobles and knights on horseback; his pursuivant, ushers and other officers led the way in rich liveries, while footmen with gilded poleaxes brought up the rear.

WITH THE WORKMEN IN THE CLAY PLANTS

FROM NEW CASTLE.

The Shenango pottery is now being operated in full in every department. The employes, however, are a little doubtful as to how long this run is to last, and as far as I can learn, orders are a little slow. Many of the employes have arranged to go to Erie, Pa., where they will take new positions under their old foreman, Henry Haney.

After a severe illness Jack Monroe, mouldmaker at the Shenango pottery, has returned to his work.

Del Thorman, a mouldmaker at the same shop, who has been confined to his home on account of illness, has recovered sufficiently to permit him to be about his home.

John Craven has left the Shenango and is now located at the Beaver Falls sanitary shop.

After a prolonged visit at East Liverpool Samuel Coventry has returned to New Castle.

A cable shape will soon be placed on the market by the Shenango pottery. The mouldmaker is now working on the moulds, and they will be ready for the clay shops within a week.

A strong effort is being made to make the Snenango pottery a card shop. The firm has agreed to this and the only drawback is the men themselves.

William Gillespie is the latest arrival in New Castle from East Liverpool.

Owing to a rush of business the warehouse girls at the New Castle China company have been compelled to work late at nights for several weeks.

Robert Conwell has resigned his position in the pressing shop at New Castle. No one knows where he will go.

Thomas Nolan has gonne to Sebring to hunt work. He resigned his position at the china shop.

Like a great many other operatives who leave East Liverpool to work in new shops, John McGuire will leave New Castle to return to his former home. He is now working out his notice. He has been employed as a dishmaker at the Shenango.

A man named Fitzgerald, who was employed as a dishmaker in this city, left town rather suddenly and no one knows where he has gone.

Ralph Woods, who left a good position at the Diamond in East Liverpool, where he was employed for a long time as a presser, and who left that position to take a similar one at the New Castle sanitary shop, has also resigned his position there. He is now on his way to Camden, N. J., where he will take a position in the sanitary there. William Ayers, of Wheeling, lately employed at the Riverside plant in that city, will take the position made vacant by Woods.

The sanitary shop will resume operations next Monday. The plant is closed this week on account of some needed repairs being made.

William Van Fossen has been elected president of Local No. 54 to fill the unexpired term of Samuel Dobbs, who resigned. The new board of trustees of this local is composed of Alfred Woods, J. Pershall and J. Gilligan. The local will be represented in the New Castle Labor day demonstration.

MORE ABOUT TRUST.

Now comes the announcement that a trust or working combination is bound to be formed among the manufacturing potters of this city before the first of the year. The old story, it seems. There is always room, however, for something of this sort to take place, but when and how, are questions that are not answered. A few weeks ago Messrs. Irwin and Trainer, of Chicago, were asked for a statement of their work in forming a combination upon the plans they mailed to every manufacturing pottery in the country, and which communication was published exclusively in this paper at the time, but they never took the time to answer that letter. Their scheme is a dead one. Only yesterday a manufacturer, talking about the plans of the Chicago men, said: "Why should we give those fellows a few million of dollars for doing something that we can and are perfectly able to do ourselves?" The Chicago lawyers do not know any more about forming a combination among the manufacturing potters of the country than the potters do themselves. Why did they ask for such a large amount of money for putting through such a scheme? There may be a combination formed, but when it is, the chances are 10 to 1 that it will be done at home, and not by a Chicago or New York law firm.

STOPPED FOR MONTHS.

The California pottery, located out California hollow, has suspended operations. It did so several months ago. The shop, under the management of the men who took hold of it about the first of the year, had an apparently bright future before it, but it is different now. No person is seen about the plant save the watchman and a few chickens, who perchance roost there at night. 'Tis a pity that this shop is not operated. True, it is a little distant from the city and was operated on a small scale, but still there is money to be made at this little shop and the wonder is that some person does not take advantage of the fact. It will be remembered that when certain pottery workers of this city took a lease on this plant from the First National bank the intention was to make a fine grade of jet ware. Several kilns were made and sold and the company advertised extensively in all the trade papers for representatives. In fact, they had representatives in all the large cities of the country. Not so now. There is nothing doing. Shop closed. Going fast to decay. Why not, if nothing else is possible, convert this shop into a small art pottery? Something might become of such an attempt in after years. All that is required is a trial.

AS TO THE FRAUDS.

Local pottery manufacturers seen today claim that they are not at all conversant with the matter which has been brought to the attention of the treasury department by the eastern manufacturers. A well known hill manufacturer today said: "The matter does not affect this city very much, other than in this way: If there were not so much crockery imported the trade of the United States potters would be materially increased." Referring to the published statement to the effect that the treasury department had in its possession evidence tending to show that the government had lost many millions of dollars through undervaluations on pottery importations, Secretary Shaw stated that this question was not new. Charges of undervaluations on pottery had been made from time to time covering a number of years, and when made by responsible parties they always had been investigated. At present the treasury department had agents at work on the other side looking into the marked prices of pottery, and it is possible that an increase in prices of certain kinds and qualities may be necessary. At present there is no evidence in the possession of the government showing that it has been defrauded out of large sums by pottery undervaluations.

WILL START SOON.

Work will soon begin on the remodeling of the old soap factory at Wellsville by the Burgess Stilt company. Mr. and Mrs. William Burgess, who have been spending a short vacation in England, are expected to arrive in the city about the first of the week, and Mr. Burgess' arrival here will be followed by detail work connected with the new purchase. Then the actual work on the remodeling of the plant will start, and it is expected that it will be ready to operate within a month or six weeks.

THEY NEED SAGGERS.

The biscuit kilnmen at the Union who have been unable to work for several days owing to a shortage of saggers, expect to return to work tomorrow morning. The company has ordered 500 new saggers and they are expected to be delivered at the plant today. A kiln or two have been missed but this, it is expected, will be made up in a short time.

NOW AT PITTSBURG.

William Cartwright, Sr., of this city, who has been spending some weeks at Cambridge Springs for the benefit of his health, is now at the home of his daughter, Mrs. S. R. Huss, Waverly street, Pittsburg. His health has been much improved by his stay at Cambridge Springs, and it is expected that he will return to the city within a fortnight.

SAME OLD STORY.

Archie Putnam, well known in the West End, who has been employed at the Barberton pottery, which is something new, for a few weeks as a jiggerman, has resigned his position and is now located at Sebring. His friends here think that it will be but a short time until he will be back in East Liverpool.

STARTED TODAY.

The kilnmen at the United States pottery at Wellsville, who have been off for several days, resumed work this morning, and owing to the rush of orders offered this firm, the employes have a continued run in sight. This is one of the plants operated by the East Liverpool Potteries company.

LONG WAS TOUCHED.

Joseph Long, a drayman at the Sebring pottery, is mourning the loss of $22. It happened Saturday evening and the belief is that he was "touched." The police, however, are trying to unravel the mystery. Long is well known in this city.

TO START SOON.

It is announced that the new Crooksville Art pottery, near Zanesville, will be completed and ready for operation about the first of the month. New designs will be made at this shop, all of which are very neat.

KILNMAN ILL.

Albert Krider, a glost kilnman at Laughlin No. 2, has been unable to work for several days on account of illness. He is suffering with an attack of tonsilitis.

AMONG THE POTTERS.

Frank Grant, a well known pottery worker of this city, returned home from a visit with Salem friends.

Frank A. Sebring and Frank Hummel, of Sebring, were in the city yesterday afternoon on business pertaining to their interests in this city.

Frank A. Sebring is making some extensive additions to his residence at Sebring, consisting of a circular porch with a bay window at the north extension, drill arches, stairway, etc.

FOR M'KINLEY MEMORIAL.

$50,000 Subscribed by the People of Illinois.

Chicago, Aug. 13.—The Illinois auxiliary of the McKinley Memorial association reported yesterday that the fund of $50,000 asked of the people of Illinois has been raised. The fund consists of over 50,000 subscriptions, and, counting the individual school children who sent their pennies in through the schools, the contributors in Illinois run into the hundreds of thousands.

At the close of business yesterday the subscriptions amounted to $50,128. Many of the local committees and others throughout the state still have their lists open and it is expected that by the time all of them have been heard from the funds will have been swelled to $60,000.

A BLOODY BATTLE.

VENEZUELAN TROOPS SURRENDERED AT BARCELONA.

Rebels Murdered and Pillaged—Minister Bowen Cabled the Cincinnati to Go to Barcelona.

Port-of-Spain, Island of Trinidad, Aug. 13.—Details of the fighting at Barcelona, Venezuela, received here by boat, show that a terrible battle started on Sunday, Aug. 3, and that on the following Wednesday the revolutionists entered the city. They kept up a continuous firing day and night, destroying houses one by one to reach the center of the city. At midnight on Thursday two-thirds of the city was in the power of the revolutionists. On Friday the government strongholds were carried and the last survivors of the government officers tried to escape by the river to the sea, but failing in this, they made one last stand, after which, at noon Friday, they surrendered to the revolutionist commanders, Generals Francisco, Monagas and Platero. Among those taken prisoner are Martin Marcano president of the state of Barcelona and commander of the government troops, eight generals and 23 colonels. The dead on both sides numbered 167. All houses in the city were sacked and in some instances inoffensive women and children were maltreated and killed. All stores were pillaged, especially those belonging to foreigners, and the French cable office was robbed. The American, Italian and Dutch consulates were pillaged, and the consuls have asked for men-of-war to protect life and property.

United States Minister Bowen, at Caracas, has cabled the United States cruiser Cincinnati to go to Barcelona without delay and take provisions The Topeka is anchored at Porto Cabello, the Marietta is on the Orinoco the German warship Falke is at Curacoa and the Italian cruiser Giovanni Pausan and the British cruiser Pallas are at LaGuaira.

TWO POLICEMEN MURDERED.

Shot to Death by Burglars at Chicago.

Chicago, Aug. 13.—Two policemen were shot in an alley, both dying within a few minutes, shortly before 4 o'clock yesterday morning. Their assailants were two burglars, caught in an attempt to rob the house of Dr. Harry Shaw, 222 Ashland boulevard. Both escaped.

The policemen were Timothy Devine, 40 years old, shot through the heart, and Charles Pennell, 35 years of age, shot through the abdomen; died at the county hospital.

Five men, Arthur, John and Sam Dillon and Jerry Hawley and George O'Brien, were among those arrested after a terrific fight with the police. They are known to have been hostile to Officer Devine, and it is believed by the police that they had a hand in the murder of Devine and Pennell.

GUERIN CODE BILL.

Principal Topic to Be Considered by Ohio Republican Legislators.

MEETING TO BE HELD THIS WEEK

Most of Members Have Accepted Guerin's Invitation to Visit Cedar Point—News of Ohio, Pennsylvania and West Virginia.

Sandusky, O., Aug. 13.—The gathering of Republican members of the legislature at Cedar Point, in this city, Aug. 14, 15 and 16, on invitation of Representative Guerin, of Erie, promises to have a more important bearing on the work of the general assembly at the approaching extra session than at first was supposed. Of the 67 Republican members of the lower house, 50 have accepted the invitation, and all the Republican members of the senate, except three. Governor Nash will be present Friday; Attorney General Sheets on all three days; also other state officials.

The Guerin code bill will be the principal topic of the speeches and discussion. It is likely that the work of the approaching special session will have been pretty well outlined and the unity of action from the Republican standpoint foreshadowed before the members return home.

ALLEGHENY COUNTY LEADS.

Figures on Production of Pig Iron and Steel, In Pennsylvania.

Harrisburg, Pa., Aug. 13.—Captain James M. Clark, chief of the bureau of industrial statistics, will devote a considerable portion of his forthcoming annual report for 1901 to pig iron and steel statistics. During the year Pennsylvania produced 7,364,295 gross tons of pig iron. The capital invested to bring about this production was $152,075,575, and the average realized value per ton was $14.52. The number of workmen employed was 14,739, and the aggregate wages paid was $8,646,479. The average yearly earnings for all workingmen employed was $586.24.

The average daily wage paid was $1.85.

Allegheny leads in the production of pig iron, with 3,685,665 tons; Mercer, Cambria, Lebanon, Lawrence and Dauphin followin the order named. Of the steel products the following was the productive: Bessemer, 4,319,144 gross tons; open hearth, 3,754,828 tons; crucible and other processes, 85,748 tons, making a total production of steel in the state of 7,959,720 tons. Allegheny leads in steel production, with 5,140,580 tons, and Cambria follows, with 655,775 tons. Over 80 per cent of the production came from counties west of the Allegheny mountains.

OHIO BOY NOT ARRESTED.

Expedition Wilson Was With, Under Direction of Colombian Army.

Columbus, O., Aug. 13.—In a letter to a cousin in this city Dr. Russel Wilson, of Norwalk, O., who was reported to have been condemned to death by the Nicaraguan government for participating in a filibustering expedition, says he has never been arrested and was never in danger. The doctor says in substance:

"Several months ago I joined the Colombian regular army, with the rank of major surgeon. Colombia and Nicaragua were at variance, and I was placed on board the gunboat General Pinzon as surgeon to accompany the expedition. We tried to land at Bluefields, at night, but a high sea suddenly coming up, 50 men only were able to land, and at daybreak we were fired on from the forts and forced to retreat, leaving the 50 there. That may account for the story getting out that I was arrested. The expedition I was with was not a filibustering trip, but one under the direction of the regular Colombian army."

WILL CARRY ON STRIKE.

Secretary Wilson Will Violate Law, if Necessary.

Charleston, W. Va., Aug. 13.—The case of John Richards and others charged with contempt for violating an injunction issued from Federal Judge Keller's court was argued yesterday by counsel, and will be decided by Judge Keller today.

National Secretary W. B. Wilson, of the Mine Workers of America, who is here, stated yesterday that the object of his visit is to direct the movement of the strikers and that he will observe the injunction of the court as far as he believes the court has a right to go. If it shall become necessary to violate the court order to carry on the business of the strike he will do so.

THE PENNSYLVANIA FIGHT.

Democratic Campaign Committee Met. Executive Committee Also Met.

Harrisburg, Aug. 13.—The Democratic state campaign committee met yesterday at state headquarters in this city to formulate a plan of campaign and arrange for a tour of the state this fall by ex-Governor Pattison and his associates. Members of the committee said before the meeting that it was necessary to perfect party organization in every county of the state if they hoped to elect the ex-governor. To do this, they said, would require untiring labor on the part of State Chairman Creasy and his assistants, as well as a big campaign fund.

The state executive committee also met yesterday to discuss certain changes in the party rules and other matters pertaining to the organization. Chairman Creasy reported that he was perfecting an organization in every school district of the state to work independently of the Democratic county and city committees and that he expected good results from those organizations at the fall election.

SOME TRI-STATE EVENTS.

New Castle, Pa., now has an anti-expectoration law.

Erie, Pa., barbers are on strike to enforce a demand for a half holiday each week.

At Aetna, near Reading, Pa., Hettie Anspach, aged 17, was struck by lightning and killed.

At Toledo, O., Joseph Kelley, aged 30 years, fell off a government dredge into the river and was drowned. His home is said to be at Plattsburg, N. Y.

John Williams, a well-known tin worker, formerly employed in the Star mill in Pittsburg, was killed by a train near Washington, Pa.

At Warren, O., A. Sotinger attempted to commit suicide with laudanum, but prompt service of a doctor saved him. He had been drinking heavily.

At Springfield, O., Samuel Parker, charged with criminal assault by Mattie Merrett, his 15-year-old stepdaughter, was bound over to the grand jury.

Albert Lacy, it is charged, stabbed Leonard Scott in the left side in a fight at Conesville, near Coshocton, O. Lacy escaped.

Belle Center, near Bellefontaine, O., had a Beal law election, and by a majority of 107 voted to remain dry.

At Willoughby, O., in the local option election under the Beal law, the drys won by a vote of 309 to 130.

Rev. Charles Allen, of Peninsula, near Akron, O., is endeavoring to have the mayor and town marshal and the county sheriff removed from office, because they refuse to stop Sunday ball playing.

At Findlay, O., M. A. Curtess, a prominent merchant, returned with a bride, having been married to Miss Ida McElroy, of Galian, in Windsor, Canada, a few days ago.

The automobile lost off the steamer Stanley at Aberdeen, O., has not been found, as first reported. One hundred dollars will be given to the one who recovers it.

At Wheeling, W. Va., Joe Curtis, a young man of a prominent family died at the city hospital in great agony as a result of a protracted drunk. He was found on the streets a raving maniac.

The annual reunion of the Seventy-eighth regiment, Pennsylvania volunteer infantry, will be held at New Bethlehem, Pa., Sept. 19, the thirty-ninth anniversary of the battle of Chickamauga.

19TH YEAR. NO. 190. EAST LIVERPOOL, O., WEDNESDAY, AUGUST 13, 1902. TWO CENTS.

COUNCIL'S SESSION LASTED THREE HOURS MANY QUESTIONS UP

Contracts Entered Into For Various Street Improvements—Signs to Designate Streets Promised at Last.

The city council held a meeting last evening, the first regular one for five weeks. Much business had accumulated, and it required three hours of hard work to dispose of it.

On the reading of the minutes of three past meetings but one obection was offered. Marshall was not present at the meeting when council rescinded the motion giving Mr. Martin, of the East End, compensation for improving in front of his residence. He, having prevailed upon council to have the motion passed, thought that he had detected a flaw in the rescinding motion. He argued that the motion was not valid, but the chair overruled him.

Because they can get a rebate from business houses providing they pay cash, the city's street laborers presented a petition asking council to arrange to pay them semi-monthly instead of once a month. Council seemed to be in favor, but there being an ordinance providing for a monthly payment no action was taken until the matter can be further investigated.

A petition asking that a grade be established on Nottingham avenue was presented and the engineer ordered to make the grade.

On request made by Bullock a committee of three was appointed to investigate the condition of the wall in front of the McDevitt residence on West Market street. Rains have washed parts of the wall away and a damage suit is threatened. Bullock, McConnell and Johnson are the committee.

The regular monthly reports of the city officers were read and adopted. The fire chief reported one fire call, 39 patrol calls and three ambulance calls. The mayor reported the collection of $174.40 for fines and licenses.

Over $100 having been spent during the past few weeks for the hire of a team council thought it high time to make a purchase. Marshall, Johnson and Peach were appointed to purchase the team.

Marshal Thompson submitted a report showing that he had condemned nearly 100 sidewalks and the mayor was instructed to notify the abutting property owners.

The upper side of Third street from Washington to Market streets is sorely in need of new sidewalks. About half of the street has never been paved and foot passengers are in danger there. The engineer wanted immediate action, but the matter was referred to the solicitor.

An ordinance for the paving of Sugar alley from Robinson to Kossuth street was placed upon its third reading and passed, the rules being suspended.

The East Liverpool Brick Manufacturing company succeeded in having an ordinance passed granting the right to construct a side track in the alley of Frederick & Shenkle's addition. A clause requiring the company to plank the entire length of the track was stricken out. The company agrees to plank the approach at either end.

Upon motion of Marshall a resolution was passed declaring it necessary to improve Prospect street from Calcutta street to Lincoln avenue.

The clerk was instructed to notify the sewer commission to advertise for bids for the construction of sanitary sewers on East Seventh street, Green lane and West Market street.

McConnell asked that a grade line be established on John street. The engineer was instructed to furnish it.

Contracts were awarded to lowest bidders on street work as follows: For concreting a portion of Pennsylvania avenue, Thomas McLaughlin's bid was accepted. The excavation of Baldwin alley at 30 cents per square yard was given to Amos Anderson; the paving of Church allley at $1 per square yard and 27 cents for excavating to John Ryan; the paving of Drury lane at 99 cents per square yard to Mr. Ryan and the paving of College street at 97 cents per square yard to Mr. McLaughlin.

It was found that there is not enough money in the treasury to pay the city's part of the expense incident to the improvements and the clerk and mayor were instructed to give the city's obligation for enough money. The whole amount is but $2,300, $1,500 of which will be spent on the concreting.

A motion instructing the clerk to notify the Sevres China works to cease running hot water on the street was passed, but later reconsidered, and the engineer was ordered to determine whether it would be advisable to turn the water into the sanitary sewer. It is not likely that he will find it a favorable proposition. When the matter is settled all potteries will receive a notice. For years they have been accustomed to drain the hot water into the streets, and, it is said, have thereby caused the city considerable unnecessary expense. During the winter months the water freezes on the streets and many hours of labor are consumed in removing the ice. Blacksmith bills for sharpening the picks are also no litlle expense.

Mr. Peach moved that the clerk be instructed to order the railway companies operating in the city to keep their cars on the tracks, or if they fail to do so that they be compelled to repair streets and walks torn up by derailment.

The numbering and naming of streets was again brought up. Bids will be advertised for and the engineer and street committee were instructed to confer with the bidders. As the streets are now named there is not a resident of the city that could tell the location of them all. At the next meeting steps will be taken to change some of the names, and if possible arrange them so that in starting on a street one will not travel several streets and still be on a straight route. Objection may arise from the property owners, who have property recorded according to the old names.

McConnell stated that for the convenience of several hundred people who travel the road at the foot of Jethro bridge steps should be erected. The street commissioner was notified to build them.

"Over 1,200 people living on Trentvale street are doing without water and fire protection," said President Nice, "and I think it is high time that steps were taken to have a main constructed." The matter was referred to the water works trustees.

The bills of the attorneys and physicians who tendered their services to Miss Itha McHenry in behalf of the city were turned down, but will be taken up again at the next meeting.

MAHOGANY TREE IN OHIO

One That Had Flourished for Years Cut Down at Steubenville.

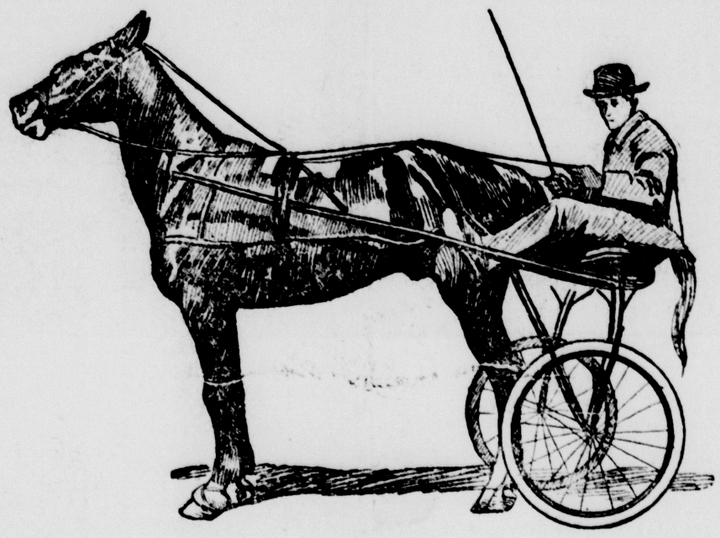

Steubenville, Aug. 13—Very few of the population of Steubenville were aware that a mahogany tree has been growing in their midst, but it, along with many other rare and cherished features of the city, has had to go to make room for industrial progress. In 1883 a man returning from Mexico brought seeds home and planted them.

This one tree grew and flourished, which is a rare thing so far north. It stood at the end of Thomas street in the Sixth ward, and recently it was chopped down by La Belle employes. It had grown to be a foot in diameter and many pointed to it with pride. The trunk was given to William Clifton, a carpenter at the La Belle, to work up into something.

FARMERS' PICNIC

Annual Harvest Home at Shelton's Grove on Saturday, August 13.

Salem, August 13.—(Special)—The sixteenth annual harvest home picnic will be held at Shelton's grove Saturday, August 23. Cash prizes amounting to $25 will be awarded to elocutionists. There will be musiic by two bands, and orations on "The Mission of Culture" by Prof. A. B. Riker, of Mt. Union college, and on "Success" by Hon. S. H. Todd, of Wakeman. The railroads will give excursion rates.

LORD DERBY, RIVAL OF THE ABBOT AND CRESCEUS FOR THE TROTTING PREMIERSHIP.

Lord Derby, whose recent hollow victory over Boralma in their $40,000 match race at Hartford attracted a good deal of attention, is really the only present rival of The Abbot and Cresceus for the trotting premiership of the world. Indeed, there are presumably good judges who do not hesitate to predict that Lord Derby is the trotter who will first touch the two-minute mark. During the season of 1900 Lord Derby was beaten in most of his races, but last year he was first in nearly every event in which he started. His consistent improvement has been one of the marvels of the trotting turf.

LOADED TEAM AND DRIVER WENT OVER 50 FOOT BANK

While driving his team attached to a wagon loaded heavily with household furniture, down the steep hill road leading to Gardendale last evening, William Biddle, a West End teamster, narrowly escaped death.

The horses were plodding slowly and safely down the hill when suddenly the big lock on the wagon broke and threw the entire weight of the wagon on the horses. They bravely but vainly tried to bring the wagon to a stop. But they checked it sufficiently until an abrupt turn and exceedingly steep portion of the road was reached. Before the driver realized his precarious position he and the horses and wagon fell over the bank, a distance of fifty feet.

A number of people witnessed the accident and huried to the scene. They had difficulty in extracating Biddle from under the wagon and it was several minutes before they could remove him to the office of a physician, where it was found that although he had been badly shaken up he sustained only a broken ankle and several small cuts. Following the examination he became suddenly sick and was removed to his home, Jethro street, by the patrol wagon. The horses escaped serious injury but the wagon was badly wrecked and the contents damaged. It took hours to get the outfit back on the main road. Biddle may institute a suit for damages against the city.

BUILDING CAME DOWN KILLING MAN UNDER IT

Salineville, August 13.—(Special)—Jesse Black, a single man aged 40, was crushed under a building and instantly killed near Grant Hill church at 5 o'clock last evening. He was working for Clyde Smith and with him trying to raise a small building about 20 feet square by means of jack screws.

The building had been elevated two or three feet from the foundation when the supports slipped and Black was caught beneath the building and the stone. Smith was unable to get him out alone and went for help, soon returning with two men named Shepard and Miles. Their combined efforts soon succeeded in getting the weight from the mangled body. The remains were brought to Salineville today for burial. Black carried a life insurance policy for $500.

A TORONTO MAN KILLED WHILE CHASING HIS HAT

Toronto, O., August 14.—(Special)—Samuel Charles, aged 38 years, married, was killed by a street car yesterday afternoon at Silver Lake park. He was riding on a car when his hat blew off. On alighting to get it another car ran over him. He had accompanied the Sunday school excursion from Toronto and Empire to Silver Lake. He has relatives in East Liverpool.

MAMMOTH TURTLE CAUGHT WEIGHING 100 POUNDS

Captain W. R. Hill and John Anderson returned last evening from Long's run, where they spent a week camping out. While in camp they spent considerable time in fishing and were quite successful, making some big catches. Of one of them they are especially proud. It was a turtle weighing nearly 100 pounds. They brought it home with them and now have it on exhibition. Turtles of this size are seldom caught in this part of the country, and it is a valuable prize.

POTTERY WORKER'S FALL FRACTURED HIS RIBS

Because saggers and not wood or stone were used for steps at the Brunt pottery, in a portion of the glost kilnshed, Frank Rigby, a fireman at this plant, fell yesterday and fractured several ribs. He was walking down these sagger steps, which were turned upside down, when one of them tilted, causing him to fall. He struck his side on one of the saggers and was severely injured. He is suffering considerable pain.

FATHERS DEATH FOLLOWS FUNERAL OF THE MOTHER

Robert Slack, manager of the decorating department of the D. E. McNicol pottery, returned home this morning from Trenton, where he went a few days ago to attend the funeral of his mother. When he arrived this morning he was presented with a telegram announcing that his father was dead. Mr. Slack left this afternoon for Trenton to bury his father.

Fined by the Mayor.

Charged with using indecent and vulgar language Nora Hardley, faced the mayor yesterday. She was represented by an attorney from Irondale. After all witnesses had been heard the mayor fined her $2 and costs. Thomas Smith, of Pittsburg, was arrested last evening for being drunk but was released in time to catch a train for home. He paid $1 and costs.

Tried to Kill His Only Son.

Steubenville, August 13.—Constable Milligan, of Warren township, brought William Danberry to this city and lodged him in jail, where he will probably remain until after the next grand jury meets. Danberry, who is a miner 51 years old, is charged with knocking down his only son and trying to kill him.

BOB COOLEY PLAYED THAT HE WAS SICK AND GOT OUT OF JAIL

He Was Soon Back Again and Now Gets Special Attention, But No More Dainty Food Is Furnished Him.

Lisbon, August 13. — (Special) — Robert Cooley, of East Liverpool, who is in jail on a burglarly charge, broke out and gave the sheriff and his deputy a lively chase yesterday afternoon.

Cooley has played sick for several days. A local physician has been calling twice a day to see him and Mrs. Leonard prepared toast and other delicacies to tempt his appetite.

Turnkey Porter thought the man too ill to run away and put the large hasp in the door over the staple without snapping the lock.

Cooley worked the hasp off the staple with a poker and struck out for liberty. Sheriff Leonard left the Democratic convention and started after him, while Deputies Porter and Brandon were also scouring the county.

Brandon found the fugitive in a store in Elkton and brought him back, a cured and crest-fallen man. He now gets no more toast.

RUNAWAYS HERE

Mrs. Schnabel And Man Who Left Cuyahoga Falls With Her Located.

The wife on Contractor Edward Schnabel, of Cuyahoga Falls, and C. D. McGibbon, who, it is alleged, eloped with her last week, have been located in this city and both are now under the surveillalnce of the police. They arrived last Saturday. The chief has no warrant for their arrest and will allow them their freedom until further advised by the authorities of Cuyahoga Falls.

Schnabel charges his wife with not only deserting him for McGibbon, but with stealing a large quantity of silverware and other useful household articles. The woman is lame.

TO THE INFIRMARY

A Man of 89, With Well-to-Do Children, Is Taken.

S. S. Dice, of Knox township, Columbiana county, a man who has turned the eighty-ninth mile stone, and has four children living in Columbiana county, and four in Stark county and one in Oklahoma, and all in fair circumstances, have all save two utterly refused to keep their father or help to support him.

Those that would have been willing to keep him concluded not to have all the responsibility and trouble resting on them, have given it over to the trustees of Knox township, who took him to the infirmary at Lisbon, says a Lisbon paper.

ASKS $10,000

Woman Whose Husband Was Killed by Train Wants Heavy Damages

Lisbon, August 13. — (Special) — Mrs. Jennie Whitman, of New Galilee, Pa., has entered suit against the Ft. Wayne railroad for $10,000 damages. Her husband, James Whitman, was killed while crossing the tracks August 18, 1901. She claims negligence. She has three young children.

ABUSE FOR 20 YEARS

The Grounds on which a Wife Married 41 Years Seeks Divorce.

Lisbon, August 13. — (Special) — Mary A. McCoy, of Madison township, has entered suit against Aaron McCoy for alimony. They were married in 1861 and have nine children. She claims that he has abused her for 20 years.

Sebring's Opera House.

Subscription books have been opened for the building of an opera house at Sebring to cost not less than $10,000. It has just been proposed, but already 68 shares have been taken, aggregating $4,000. It is only a matter of time when the ground will be broken for the new structure.

Wellsville Dispute Settled.

The reported strike at the United States pottery at Wellsville has been settled and this morning the entire clay department resumed operations. It is said the demands of the mould-runners and batter-outs for an increase of 15 cents a day were withdrawn.

Fish for the Ohio.

Through the efforts of local fishermen the Ohio river at Steubenville is to be restocked with black bass, crappie and jack salmon by the United States commission of fish and fisheries.

DEMOCRATS FIXED UP COUNTY TICKET

After Much Tribulation the Convention at Lisbon Finished Its Work.

FAMILIAR RESOLUTIONS

Which Denounce Republicans Are Again Brought Out And Made to Serve—Central Committee to Choose Delegates to Convention.

Lisbon, August 13. — (Special) — After the appointment of a committee to select delegates to the Democratic State convention the county convention yesterday afternoon proceeded to nominate candidates for county offices as follows:

Probate Judge—Conrade Hune, of Lisbon.

Clerk of Courts—John Sturgeon, Knox township.

Recorder—A. P. Dennis, Wellsville.

County Commissioner—Ed. Cook East Liverpool.

Coroner—B. F. Campt, Columbiana.

Surveyor—C. E. Vaughn, Unity township.

Infirmary Director—J. F. Dickey, Signal.

The names of Joseph Gottschalk, of Leetonia and J. F. Dickey, of Signal, were both proposed for the office of infirmary director. The question was put to a vote and Dickey received 48 votes and Gottschalk 26. The nomination of Dickey was then made unanimous.

The nomination for clerk of courts was tendered O. J. Astry, of Salem, but he declined the honor.

The following names were selected by the committee as delegates to the state convention: T. J. Duffy, East Liverpool; J. C. Walsh, East Liverpool; Otto Jourgens, Salem; O. J. Astry, Salem; George B. Aten, Wellsville; T. S. Arnold, Leetonia; W. S. Potts, Lisbon; W. J. Foley, Unity township.

The resolutions proposed by the committee were read by W. S. Potts and unanimously adopted. They declare:

"First, that we adhere to the principals of Democracy as taught by Jefferson, and endorse the principals formulated at the last Democratic National convention.

"Second, we believe that taxation and the expenditure of public money are matters of the first importance and we denounce the Republican party, their leaders and public officers for the lavish hand they lay on the public funds and total lack of economy in the management of public affairs.

"Third, we insist that sober and competent men fill the public offices and we ask the taxpayers to vote out of office that drunken man, W. A. Tarr, who now disgraces the office of infirmary director.

"Fourth, we commend the public service of Sheriff Leonard and hereby express our full confidence in his integrity and ability.

"Fifth, We denounce the last Republican legislature for giving to our people the infamous road law that takes the management of roads from the hands of the farmers and places the expenditure of their road taxes in the hands of strangers. The road taxes ought to be expended in the

THE GIVING OF TITHES

Convention Representing Different Church Denominations Meets,

TO EVANGELIZE THE WORLD,

There Would Be Money, if the System Was Adopted, Declared Rev. Ballard—Movement to Have All Churches Adopt the System.

Warsaw, Ind., Aug. 13.—The National Tithers' convention was begun at Winona yesterday. The welcoming address was given by Thomas Kane, of Chicago, who was chosen to preside during the conference. Rev. F. O. Ballard, of Indianapolis, outlined the objects of the meeting. He said it was an inaugural effort toward getting all churches throughout the country to adopt a titheing system or Wesleyan chapel movement. If the system should be adopted, the speaker said, there would be plenty of money to evangelize the world on a scale far exceeding the dream of the most ardent Christian worker and foreign mission advocate. Delegates are present from all sections of the country. The denominations most numerously represented are the Baptists, Presbyterian, Christian, Methodist, Episcopal, United Brethren, Progressive Brethren and Congregational.

Elected to M. E. Church Position.

New York, Aug. 13.—The Rev. Stephen O. Benton, of Fall River, Mass., presiding elder of the New Bedford district, New England southern conference, Methodist Episcopal church, was yesterday elected recording secretary of the board of managers of the Missionary society, Methodist Episcopal church, to succeed the late Rev. Dr. S. L. Baldwin. Dr. Benton has been secretary of this conference for many years, has been a member of several Methodist general conferences, was for eight years secretary of the general book committee of the Methodist Episcopal church, and has been a member of the board of managers of the missionary society since 1892.

PRINCE CHEN WELCOMED.

Visited New York City Hall—Drove Through Chinatown—Left For Montreal.

New York, Aug. 13.—Prince Chen paid a visit to the city hall yesterday and was formally welcomed to the city by President Fornes, of the board of aldermen, who is acting mayor in the absence of Mr. Low on his vacation. The prince was accompanied by Third Assistant Secretary of State Peirce, the Chinese minister, Wu Ting Fang; the new minister, Sir Chentung Liang Cheng; the Chinese consul and vice consul and attaches of the Chinese legation at Washington.

A visit was next made to the postoffice, where Postmaster Van Cott, after receiving the distinguished visitors in his private room, conducted them through the office.

The prince and party then took a drive over the Brooklyn bridge, next visited the sub-treasury, and thence proceeded to Chinatown. An elaborate reception had been prepared. The prince drove through rapidly.

From Chinatown the party was driven back to the Waldorf-Astoria, where the prince entertained Sir Chentung Liang Cheng, Minister Wu Ting Fang, Secretary Peirce and Mr. A. W. Bach at dinner.

Prince Chen left last night for Montreal in a special car attached to the Montreal express.

ARMY OFFICERS URGE SMITH.

His Attorney Also Advises Contesting President's Action.

Portsmouth, O., Aug. 13.—Judge James Bannon, brother-in-law and attorney of General Jacob H. Smith, last night made a statement, saying in part:

"The sentence of the court martial was that General Smith be admonished for his order. President Roosevelt seems to have construed the word as meaning reprimand.

"I have said it once, but before I am through I will repeat many times—the president had no legal nor moral right to increase the sentence of the court martial.

"I have advised the general and will continue to advise him to go into the contest with heart and soul. Under the circumstances, his army friends can do no less, for they are more vitally interested than he.

"Many of them are now importuning him to begin action at once."

"THE PRISONER OF ZENDA."

Numbered among the many attractions which Manager Norris promises to an amusement loving public, the forthcoming engagement of "The Prisoner of Zena" is of special interest. This great play is the result of the dramatized form of Anthony Hope's novel of like name. The success of the book possibly signalized the success of the play, but if the former won immortal fame for its author, the latter has merited universal renown for itself as a masterpiece of dramatic art.

The ever progressive firm of Shipman Bros., who will direct its present tour, have engaged a company of artistic worth; mounted the play in magnificent style and promise a production second, not even to its New York engagement, when it comes to the New Grand in this city on September 30.

William Bonnett, accused of murder at a picnic in Wirt county, W. Va., some years ago, who escaped from jail and was captured afterward by Prosecuting Attorney Copen and returned to jail, escaped from the jail at Elizabeth, W. Va., by breaking through the walls. Samuel Shephard, who was taken to the penitentiary under death sentence, but who was afterward awarded a new trial and was awaiting it, escaped with Bonnett, but after wandering around a few hours returned to jail and gave himself up.

SIX STRIKERS WERE HELD.

Five Miners Were Charged With Intimidating Non-Union Men and Engaging In Riot.

Wilkesbarre, Pa., Aug. 13.—Five strikers, all members of Woodward local, United Mine Workers, of Edwardsville, were arraigned before Magistrate Pollock, of this city, last evening, charged with intimidating non-union workmen and rioting. The prosecution alleged that the defendants stopped a number of men on their way to work at the Woodward colliery and by threats and force compelled them to return to their homes.

The commonwealth wanted the secretary of the local, James Owens, to produce the minutes of the July meeting of the local, where, it is alleged, a motion was made that the members do picket duty at the mines and persuade the men who should attempt to go to work to return to their homes. Upon advice of counsel the secretary refused to produce the minute book and the magistrate held him in $100 bail for trial at court for contempt. The other defendants were held in $500 bail each on the charge of unlawful assemblage and rioting. Bail was furnished.

TWO MURDERERS LYNCHED.

Killed a Man Who Caught Them Stealing Chickens.

Lexington, Mo., Aug. 13.—At 1:30 yesterday morning a mob numbering 200 or 300 masked men battered down the door of the jail located in the court yard here and secured Charles Salyers, white, and Henry Gates, colored, who one week ago murdered George W. Johnson, and hanged them to a tree a short distance south of town. It took the mob 30 minutes to cut through the steel doors of the jail.

Gates was found to be shot in the right hip, showing that Johnson's shot had struck him. Salyer, in his statement to the mob, stated that Gates had done the murder, he having fired three shots, and when the last one was fired Gates had hold of Johnson. Johnson had gone to his chicken house on hearing a noise and discovered the two men robbing the hen roost and opened fire, being then killed by the intruders.

NEW TRUST FORMED.

International Harvester Company Incorporated, at Trenton, N. J.

THE CAPITAL IS $120,000,000.

May Be Additional Stock—Payments Completed on Plants Optioned by the Shipbuilding Combine—English Firm Not Taken In.

Trenton, N. J., Aug. 13.—The International Harvester company, with an authorized capital of $120,000,000, was incorporated here last evening. The company is authorized to manufacture harvesting machines and agricultural implements of all kinds. It is understood that among the concerns interested in the syndicate is the McCormick reaper and mower concern of Chicago.

The articles provide that all of the $120,000,000 of the capital stock shall be common stock, unless it shall be decided to increase the company's capital beyond those figures. In that event $120,000,000 is to be preferred stock and the additional capital is to be common stock. The incorporators of the company are Abram M. Hyatt, of Allenhurst, N. J.; George W. Hebard, New York; Rowland R. Dennis Auburn, N. Y., Edward M. S. Miller New York; Robert S. Green, Elizabeth, N. J., and Erastus M. Cravath, New York.

Shipbuilding Combine.

New York, Aug. 13.—The Trust Company of the Republic yesterday completed the payments for all the shipbuilding plants held under the options of the United States Shipbuilding company, including the Bethlehem Steel company, Union Iron works, San Francisco; Bath Iron works, and Hyde Wandlass company, Bath, Me.; Eastern Shipbuilding company, New London, Conn.; Harlan and Hollingsworth company, Wilmington, Del.; Crescent ship yards, Elizabeth, N. J.; Samuel L. Moore & Son company, Elizabeth, N. J., and the Canda Manufacturing company, Cartaret, N. J. This consummates the transaction, and the business organization will begin at once by concentrating in different yards different types of vessels and introducing economies which are expected to result in increased profits over those of the independent companies before they were brought together. Daniel Leroy Dresser, president of the Trust Company of the Republic, says:

"There have been no negotiations whatever between Vickers, Maxim & Vickers and the United States Shipbuilding company."

Mr. Nixon was asked as to the report that the new company had acquired the Vickers, Maxim & Vickers plants in England, and he said:

"Our desire is to put American shipbuilding establishments upon such a basis that we can build foreign ships here. No steps looking to taking in English plants have been taken."

BUYS BALTIMORE FRONTAGE.

Western Maryland Railroad Gets Big Tract of Land For Terminals.

Baltimore, Aug. 13.—The Western Maryland Railroad company has purchased 125 acres of land in South Baltimore for terminal purposes, and it is said work will be begun immediately on improving the property for railroad purposes. The site is located west of Fort McHenry, on the middle branch of the Patapasco. Water frontage on both sides of the point has, it is said, been acquired. To reach the point the Gwynns Falls route at the western city limits already acquired by the company will be used and the Patapasco will be bridged at a shallow portion farther up stream. Congress has appropriated several hundred thousands of dollars to dredge this branch of the Patapasco, and with the completion of this work Baltimore will be given a new deep water harbor.

It is understood that the price paid for the property was $600,000, but the details of the purchase are not available. The land for the most part has never been improved.

Her One Success.

In the civil war time a western woman who had lost her husband in the field and who hoped to win a livelihood for herself and her little ones by writing sent to Harper's Magazine a story which had no special distinction and was returned. In the desperate mood that followed this rejection she sat down with pen aflame and told "why I wrote it," and her story under that title was accepted and published, winning a sympathetic response from all its readers. But this production, the echo of a vital moment, was her one story in the magazine. Oliver Wendell Holmes said that anybody could write one interesting novel if he could truly tell the story of his own life.—Harper's Magazine.

BISHOP HANDY
SAYS

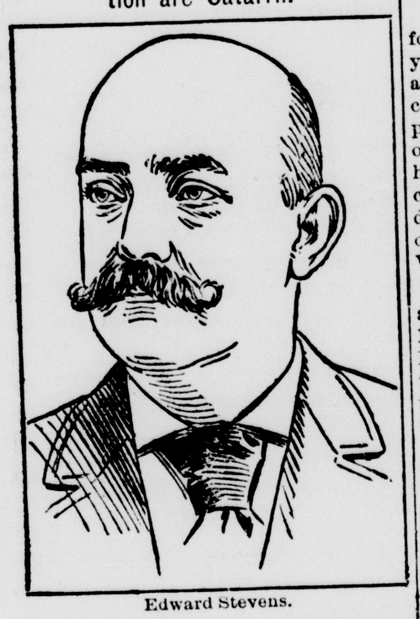

"I take great pleasure in acknowledging the curative effects of Peruna. At the solicitation of a friend I used your remedy and cheerfully recommend your Peruna to all who want a good tonic and a safe cure for catarrh."---JAMES A. HANDY.

Prominent members of the clergy are giving Peruna their unqualified endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop James A. Handy, D. D., of Baltimore.

OTHER NOTABLE CURES.

A Husband Escaped the Pangs of Catarrh of the Lungs.

Most Cases of Incipient Consumption are Catarrh.

Edward Stevens.

Mrs. Edward Stevens of Carthage, N. Y., writes as follows:

"I now take pleasure in notifying you that my husband has entirely recovered from catarrh. He is a well man today, thanks to you and Peruna. He took six bottles of your medicine as directed, and it proved to be just the thing for him. His appetite is good and every thing he eats seems to agree with him. His cough has left him and he is gaining in flesh, and seems to be well every way."—MRS. EDWARD STEVENS.

Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Mrs. Frederick Williams, President of the South Side Ladies' Aid Society of Chicago, Ill., writes the following words of praise for Peruna from 973 Cuyler avenue, Chicago, Ill.:

"My home is never without Peruna, for I have found during the past six years that there is no remedy that will at once alleviate suffering and actually cure, as Peruna does. Four bottles completely cured me of catarrh of the head of several years' standing, and if my husband feels badly, or either of us catch cold, we at once take Peruna, and in a day or two it has thrown the sickness out of the system."—Mrs. Frederick Williams.

Mrs. W. A. Allison, of 759 Sheffield avenue, Chicago, Ill., is the Assistant Matron of the People's Hospital. She has the following to say about Peruna:

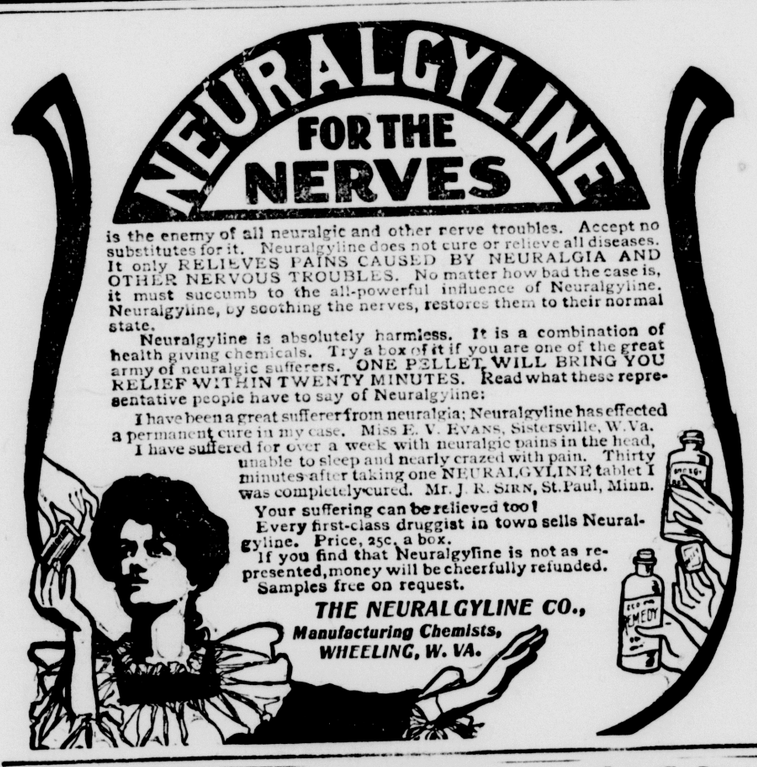

Mrs. W. A. Allison.

"I have had frequent opportunities to observe the wonderful curative effects of Peruna especially on persons suffering with a conjested condition of the head, lungs, and stomach, generally called catarrh. It alleviates pain and soreness, increases the appetite and so tones up the entire system that the patient quickly regains strength and health."—Mrs. W. A. Allison.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

EAST END

ALREADY IN TROUBLE

Steubenville's New Local of Street Railway Men Has a Fight on Hand.

The formation of a new local among the employes of the Steubenville and Toronto street railway seems to have started trouble on that line, and even at this early date the Trades Assembly of Steubenville has taken it in hand. Unless Motorman Davis, formerly of this city, is reinstated on the Toronto line district deputies of the Amalgamated Association of Street Railway Employes of America will be sent for to assist the Steubenville Trades Assembly in getting him reinstated.

President Charles Kontnier and Secretary Calhoun, of division No. 52, of the East End, have sent for the charter to National President Mahon, at Detroit, Mich., and it is expected to be received here in a day or so. The charter will then be forwarded to the Steubenville local.

The following officers have been elected for the Steubenville division, many of whom are known in the East End:

President, Howard T. Weekly; vice president, Hugh Crawford; financial secretary, Thomas J. Dowling; corresponding secretary, W. P. Maxwell; treasurer, E. G. Mushrush; conductor, George Spence; sentinel, Forney Good; warden, Ed Miller; executive board, Marion Ely, E. G. Mushrush, Eugene Burris, Thomas T. Brown, W. P. Maxwell; delegates to Trades and Labor Assembly, Charles Brandt, Thomas J. Dowling, Joseph Peterson, George Spence.

Representatives of the East End division will attend a meeting of the Steubenville local next Saturday evening, and the session gives promise of being very interesting.

Dancing Broke Lamps.

The Pastime club, of the East End, held a dance in the Larkins & Ferguson hall last evening, which did not adjourn until the early hours of the morning. The dance was held on the second floor, and a number of lamps in the grocery below were broken. The affair was well attended by about 50 couples, and all had a good time.

EAS TEND AFFAIRS.

Born, to Mr. and Mrs. Marion Shiveley, of McKinnon addition, a daughter.

George Pillar, of the East End, is arranging to remove his family back to Toronto.

A little daughter of Mr. and Mrs. McDevitt, of First avenue, is very ill with cholera infantum.

Miss Grace Heiser will entertain a number of her friends at her home on Mulberry street tomorrow evening.

The home of Mr. and Mrs. Jeff Green, on High street, has been quarantined on account of one of the children having scarlet fever.

Walter Supplee is constructing a cement walk around his residence on Ohio avenue. It is the only sidewalk of the kind on that street.

Arrangements have been made for a lecture to be given in the Second Presbyterian church on Virginia avenue the latter part of the month.

Owing to the cool weather during the early morning many of the motormen of the East Liverpool street railway are compelled to wear their overcoats on their first trips.

A meeting of the Woman's Missionary society of the Second Presbyterian church will be held in the church tomorrow afternoon. The regular monthly business will be considered.

In the court of Justice L. W. Carman, Mrs. E. M. Randall has entered suit against Miller Harsha for forcible detention. The case will be heard Saturday afternoon at 3 o'clock.

About 25 friends surprised Mrs. Jennie Bryan at her home on Railroad sereet yesterday afternoon. Mrs. Bryan is about 65 years old. The afternoon was spent most pleasantly.

The bricklayers will commence work on the new residence being built on Ohio avenue for George Smith Friday. This residence will cost $8,000 and will be of a colonial style of architecture.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by Alvin H. Bulger.

COUNTY AND NEIGHBORHOOD

James H. Denham, for 35 years superintendent of the Taplin, Rice & Co. foundries at Akron, is dead, aged 65 years.

The Wheeling Traction company is to make extensions to Brilliant, St. Clairsville and Shadyside, south of Bellaire.

Brilliant will get the new power house that will furnish power for the Wheeling Traction company. It will cost $175,000.

Miss Lyle, a Youngstown nurse, has been secured to nurse Attorney T. E. Raley, of Akron, who is suffering with smallpox at Signal.

Mrs. Charles Fullerton, aged 21, committed suicide at Youngstown by taking morphine. She removed there a short time ago from Allegheny.

Two children aged 2 and 5 of Joseph Williams, who formerly lived at Toronto, have been sent to the Harrison county children's home. Their father is in the penitentiary for stealing brass.

The Wellsburg-Brilliant Bridge and Ferry company has been chartered, with an authorized capital stock of $50,000, to operate a ferry and also to build and operate a bridge across the Ohio river between Wellsburg and Brilliant.

Judge Hervey, of the Hancock county circuit court, on Monday decided a case involving the title of 4½ acres of land, which is surrounded by oil wells producing 50 to 75 barrels. The decision was adverse to E. A. Freshwater.

Samuel Carter, a Unity township farmer, was violently thrown from his buggy and injured a few days ago. He had just returned from East Palestine during a violent storm, and a flash of lightning caused the horse to rear and plunge, throwing him out.

J. Frank Smith, until recently a resident of Salineville, met with a queer accident at his home in Elyria. He is night dispatcher on the Lorain & Elyria electric line, and in throwing a switch to turn off the electric power his hand was burned to a crisp by the current.

THE DOMINATING FACTORS

In Stock Market, Yesterday, Were the Coming Crops and the Money Outlook.

New York, Aug. 13.—The dominating factors in the stock market continue to be the coming crops and the money outlook. Crop news was eminently satisfactory yesterday, both that of the monthly report of the agricultural department and the later current news of the weather bureau, but it is to be borne in mind that the speculation for some time past has been diligently discounting good crops, which have been clearly foreshadowed. On the other hand the autumn activity in the money market, while it has been expected and made the subject of industrious warnings, has been ignored in speculation. This week's rise in money rates, therefore, would naturally be of most effect on speculative conditions.

Buyers, in anticipation of good crops, seeing the danger of a flurry in the money market which might force liquidation of stocks and attracted by the high level to which prices have attained, are tempted to sell to realize their profits. There was considerable strength at one time yesterday and in a few cases it continued to the close, but for the most part the early rise in prices was taken advantage of to realize profits, and the general level of prices ended lower than Monday night. There was a further contraction also in the volume of the dealings, which dropped back again below half a million shares.

Knights of Pythias Met.

San Francisco, Aug. 13.—The biennial convention of the Knights of Pythias was formally opened yesterday in the Palace hotel. Nearly 150 delegates were present. There were few vacant seats and these will be filled today. The absent supreme representatives have all telegraphed that they will be here as soons as the delayed specials shall be able to move. Among other business done, reports were made. Supreme Chancellor Fethers, in his annual report, said that on Dec. 31, 1901, the order had 540,138 members.

Origin of Spoons.

Two natural objects seem to have furnished the model for the spoon to primitive man—the river or sea shell and the leaf of plants. In southern China shell spoons are still used that are closely reproduced in the familiar porcelain spoon of that country, while metal spoons are found in India on which are reproduced even the veins of the leaves from which they were copied.

Helping the Heathen.

Aunt (severely)—How dare you take the money from your missionary box?

Willie—Didn't you say I was a regular little heathen?

"You are far worse."

"Well, I was saving the money for the heathen, and first come first served."

A Terrible Threat.

Customer—That tea service costs 50 marks. That is more than I can pay.

His Wife (whispering)—If I should have a fainting spell among all this china, it would cost you far more.—Fliegende Blatter.

Wisdom.

Wisdom consisteth not in knowing many things nor even in knowing them thoroughly, but in choosing and in following what conduces the most certainly to our lasting happiness and true glory.

The United States bureau of forestry now has a division of forest extension and is co-operating with states, communities and private land owners in an effort to add to the country's wooded area. The field work of the division is now being carried on by a force of 32 men, and planting plans are being prepared by representatives of the bureau, working individually where their services are demanded. At the beginning of the present field season 224 planting plans had been made in 172 localities of 29 different states. Experiments are in progress in New England, Nebraska, Oklahoma, Arizona, Washington, Oregon, Texas and elsewhere. A line of work recently taken up by the bureau of forestry, and for the first time receiving adequate attention in the United States, is the study of the tendency of natural forests to extend over the land devoid of forest growth. This tendency has been noticed in many parts of the country, but has never been studied with a view of controlling it for practical use, or assisting it where desirable. Successful work has been done in the line of holding shifting sands in check by planting shrubs and grasses; denuded pine forests are being prepared for new growth, and the extension and preservation of hardwood forests are also receiving attention. The government is engaged in a noble work, which, scientifically and zealously prosecuted, with the co-operation of the people, should result in adding largely to the value of lands that are now nearly worthless, thus benefiting posterity, while present day benefits will speedily become apparent in greater uniformity of rainfall and the decrease of destructive floods.

The negro Young People's Christian and educational congress held at Atlanta last week did not waste its time in lamenting the social standing of the colored race nor in discussing visionary projects of deporting the negro to Africa. It attacked actual problems with zeal and earnestness and took a sensible and optimistic view of the present and the future. In a resolution it declared: "In spite of theorists and their theories, both before and after emancipation, we have shown ourselves able to live and thrive. A generation ago we came out of bondage without a foot of land, without a home, without a name. Even the clothes which covered our poorly clad bodies were not ours. Today we have some land, some homes, some money. Yesterday we had nothing; today we own millions of acres of land, pay taxes on property worth millions of dollars, and raise more cotton under freedom than under slavery." The white people can help the colored people to better their condition, but the prime requisite for advancement is that they should show a disposition to help themselves. The negro is learning this and much else that will be useful in the industrial schools which Booker T. Washington has been so instrumental in establishing.

Parliamentary law is absolutely useless in a Democratic convention. Attempts to apply it are a waste of effort and supremely ridiculous, as the proceedings at Lisbon prove. The father of the Democracy wrote eloquently of "a decent respect for the opinions of mankind," but modern Democracy has no respect for opinions, traditions or decency.

A member of President Roosevelt's cabinet is credited with the remark that one agitation for tariff revision is worse than two revisions. Those who are attempting to start such an agitation are simply striking a blow at business interests.

Half a century hence the "oldest inhabitant" will be telling incredulous youngsters of the remarkable summer of 1902 when overcoats were needed for comfort, even in dog days.

A volcano in Alaska is warming up and gold seekers are hoping it will thaw out their claims without overdoing the job.

The Venezuelan revolution, having reached a stage where actual battles are fought, cannot long survive.

Some ambitious code makers apparently have never read the state constitution.

It was not exactly a happy family party that the Democrats held at Lisbon.

OBITUARY

Willie Scheester.

Willie, the 18-months-old son of Mr. and Mrs. Emil Scheester, died at the home of its parents on Trentvale street last evening at 8:30 o'clock, of cholera infantum. The funeral services were held this afternoon, interment being at Riverview cemetery at 5 o'clock.

WHAT ADVERTISING DID.

Enormous Increase In Sales of National Biscuit Company.

The annual meeting of the National Biscuit company, held in Jersey City, was of considerable interest. The report of Mr. A. W. Green, chairman of the board of directors, showed a phenomenal growth in the business of the company. This he explained as follows:

"When the company started, our goods were sold almost entirely in bulk, and the package business was in its infancy. We determined that the true way to sell certain of our goods was to sell them in small, airtight, moisture proof packages. The first result of this determination was the Uneeda biscuit, a five cent package protected by United States patent. The idea was novel, and we soon found that we had struck the taste of the people. The introduction of the Uneeda biscuit was followed by many other packages put up in the same manner and sealed with the In-er-seal trademark design.

"The next point was to reach the consumer. We did this by extensive advertising.

"The results have exceeded even our expectations. The total sales of the company increased to $38,625,135, a gain of $2,185,975, or 6 per cent, and the profits increased to $3,670,445, a gain of $352,000 over the previous year. During the past year the company invited its employees to invest in its stock, and they have taken over 4,000 shares."

THE KILTIES ARE HERE

Famous Band Will Give Concert at Rock Springs To-night

The Kilties came in this forenoon, and will appear this afternoon and evening in concerts at Rock Springs park. For the past two Sundays they have been the attraction at Calhoun park near Pittsburg, where delighted crowds listened to their music. They praded the streets of this city this forenoon, and attracted much attention by their costumes and their excellent music. The band is a large one and the way it plays Scotch music and popular airs has won golden opinion wherever the organization has appeared.

THE BELLES.

Oh, the belles,
Summer belles!
What a plenitude of heartaches their giddiness compels!
How they giggle, giggle, giggle,
In the sea breeze laden night!
How their victims squirm and wriggle
In an ecstasy of fright!
How they hurt
When they flirt,
When with ghoulish glee they gloat
On the squirming of a fellow when they have him by the throat.

Oh, the belles,
Summer belles,
How they conjure, scheme and plan
To entrap the summer man,
The ribbon counter gentlemen who masquerade as swells!

Oh, the belles,
Greedy belles,
How they wring, wring, wring
Soda water, everything,
From the pockets of those "Cash!" exclaiming swells!

Oh, the belles,
Foxy belles,
What a wealth of hints they fling
To compel the pleasant ring—
Diamond ring—
Ah, the heart engaging ring
Of the golden wedding bells, bells, bells, bells, bells,
Oh, the belles!

WELLSVILLE

SHIPPED TO KENSINGTON

Body of the Ill-fated Railroader, L. G. Cox, Sent Home for Burial.

The body of C. G. Cox, who was struck and instantly killed by train No. 309 yesterday, was taken to Kensington last night on train No. 301. Cox was a first-class railroader and was recently promoted to first extra passenger conductor. The cause of his falling asleep on the track is said to be due to over-work. A brakemanof the Conway drag stated last night that Cox had been on duty for twenty hours previous to the fatal accident.

Funeral services will be held from the home of his parents in Kensington this afternoon.

HORSE THIEF CAUGHT

And the Place Where He Was Found Raided By the Police.

George R. Tate, who, it is alleged, stole a horse from J. T. Sheppard at Amsterdam last Saturday, was arrested at Wellsville today. Tate sold the horse to Joe Keenan, of Second street, Wellsville, for $100. Tate was arrested at Keenan's resort and the same officers pulled this place, capturing five men and five women.

One woman was fined $13.60 and the other four paid $8.60. Keenan also paid $8.60.

One Saloon Less.

Third street has now one less saloon. The saloon run by Paul Leach in a building owned by Henry Greenwood, the East Liverpool brewer, was dismantled Saturday and the fixtures sent to Lisbon where Mr. Leach will start in business. It is stated that Mr. Greenwood expects to start a soft drink bottleing establishment in the building vacated.

Arrested in Wellsville.

"Mandy" Logan, a well-known Salineville character, and a well-known Irondale cripple were caught by Officers Houser and Davis here last evening. Each had had a drop too much and was loudly demonstrating their love for each other. The cripple put up a $5 forfeit and the woman's friends did likewise any they departed on a train.

Sent to the Infirmary.

Poor Director Hutchinson has ordered that Henry Malone and Lucas Phillips be taken to the infirmary. McLean Bros., will take them there to-day. Malone has heretofore been residing with his daughter-inlaw on Railroad street.

Funeral of a Child.

The three-months-old daughter of Mr. and Mrs. J. Pippin, of Eighteenth street, died at 1 o'clock yesterday; funeral took place at 2 o'clock this afternoon, Rev. C. L. Wells officiating.

Hand Badly Crushed.

J. T. Aten, who is employed in the planing mill at the C. & P. shops, was engaged piling up stringers when one fell on his right hand, crushing it badly

The Death of an Infant

The two-days'-old infant daughter of Mr. and Mrs. Ora Idenier, Center street, died yesterday afternoon. The funeral was held this afternoon.

Deadly Prussic Acid.

Hydrocyanic acid, or, as it is most commonly called, prussic acid, is one of the most deadly poisons known to animal life. It is a volatile principle contained in numerous shrubs and trees, chiefly the wild cherry, bitter almond, sherry laurel, St. Ignatius bean and the peach tree. It is obtained by distillation from ferrocyanide of potassium by the action of sulphuric acid in the form of a light, colorless gas. The preparation kept in the drugstore is a dilute acid of a strength of 2 per cent of anhydrous acid in distilled water, a colorless liquid, with the odor of bitter almonds. The dose is from two to six drops. One-half grain of the anhydrous acid is sufficient to produce death. It is used in medicine in correcting diseases of the stomach, also in whooping cough and the last stages of consumption.

It is very volatile, and the fumes will destroy vegetable life, causing the stems of plants to wither and dry up. Its effect on the lower animals is similar to its action on man, with the exception of the horse and the hyena, upon whom it does not appear to produce any impression. In fatal doses it causes death quickly by paralyzing the heart's action. After death the rigor mortis sets in, and in a few moments the unfortunate subject is as stiff as a board.

Some Curious Book Titles.

In the sixteenth century we find the greatest extravagance displayed in the titles of books. These may be taken as examples: "The Spiritual Snuffbox, to Lead Devoted Souls to Christ," and "The Spiritual Seringa For Souls Steeped In Devotion." A work on Christian charity published in 1587 is entitled "Buttons and Buttonholes For Believers' Breeches." Another quaint publication is Father La Chaucie's work entitled "Bread Cooked on the Ashes; Brought by an Angel to the Prophet Eligiah (Elijah) to Comfort the Dying." Another was issued with the curious title of "The Lamp of S. Augustine and the Flies That Flit Around It."

The following very attractive title appeared in a book published at Newcastle in 1605: "Some Beautiful Biscuits Cooked In the Oven of Charity and Put Aside For the Fowls of the Church, the Sparrows of the Spirit and the Swallows of Salvation."

Rubber Foot Fever.

If a man has a corn, it can be removed, but if he is suffering from rubber foot fever no chiropodist can help him, and the only thing to prescribe is liberal bathing of the feet and removal of the cause. Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from forcing the perspiration to soak the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. Even loose rubbers are a source of danger and the cause of many more serious colds than they avert.

Tiffany's Big Day In 1837.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of $1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, fine stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only $4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to $236.—American Monthly Review of Reviews.

Dublin's Red Haired Club.

The Red Haired club of Dublin, which flourished years ago, was a society which barred out all whose hirsute covering was not of the most pronounced auburn. In order that no one could gain admission by false pretenses it was required at the initiation of each member that the applicant wash his hair and whiskers in hot soda and water. This effectually took out any "dye" that might have been used.

All Agreed.

Krankleigh—Naw! I don't like my new neighborhood at all. Every man on the street's a cad.

Sharpe—You don't say?

Krankleigh—Yes, and there's one man in particular who isn't fit to live there at all.

Sharpe—Strange; that's what all the other neighbors say.—Philadelphia Press.

FERRYBOAT WILL RUN

Prediction That Captain Goucher Will Win in Pending Litigation.

The Emily, the Congo and Wellsville ferryboat, will continue to run until the litigation is fully decided. The matter was referred back from the circuit court to the county court for correction on a technicality. It is predicted that S. B. Goucher will win the case, notwithstanding reports to the contrary. The action on the bill is simply to make a correction on Judge Hervey's objection.

The decision was really in favor of Goucher, but for the technicality. When the county court rectifies this matter the decision is final.

Real Estate Purchases.

Dr. W. F. Donehoo has purchased a lot from the Chester Land and Rolling Mill company near Carolina avenue and Fifth streets. He will erect a residence and office building. C. P. Harrigan, formerly of Irondale, now superintendent of the tin house mill, has purchased a residence on Virginia avenue.

AROUND THE CIRCLE

PRESIDENT ROOSEVELT TO TOUR THE COUNTRY NEXT FALL.

Will Visit Nearly Every State East of the Rockies—Previous Tours of Chief Executives—Presidents Who Liked to Travel.

When President Roosevelt starts out next fall to make his projected swing around the circle, he will be following the example set by many of his illustrious predecessors. The president has received many invitations to visit various sections of the country during the summer and fall, and if he finds time to fulfill his engagements he will before November have visited nearly every state in the Union except those in the Rocky mountains and on the Pacific slope.

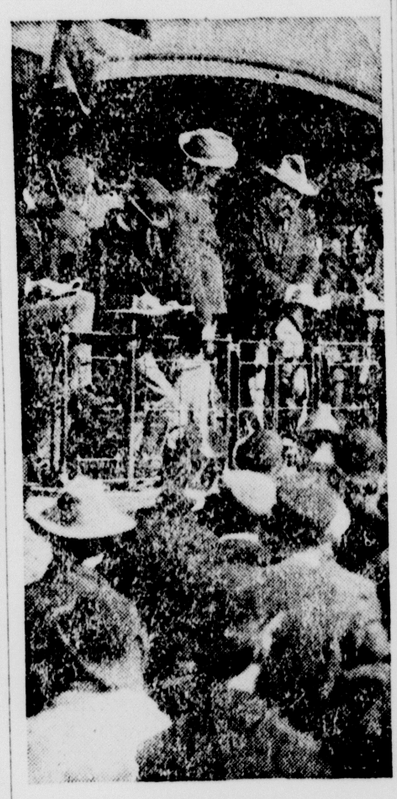

Plans already made contemplate the most important swing around the circle made by a president in many years. The real beginning of Mr. Roosevelt's peregrinations will be in late August, when he will visit Maine and Vermont, where elections are held in early September.

The president is expected to make two speeches in Maine and one or two in Vermont. Following the New England tour, the president will start late in September for the northwest. He has accepted invitations to speak in Detroit, Minneapolis, Illinois, Missouri and Iowa.

Late in October the president will start on a long trip through the southwest and will probably go as far as San Antonio. On the way he will enjoy a big bear hunt in the swamps of Mississippi. Altogether the president has planned a very busy fall, and if every city and town in the Union does not see him and hear his voice before next November it will not be because they have not invited him.

The custom of taking long excursions through the country by presidents is much older than is generally believed. Washington had seen nearly all of the Union north of the Carolinas before he became president, and both of the Adamses were great travelers in their time.

President Monroe was the first to conceive the idea of making an ex-

PRESIDENT ROOSEVELT SPEAKING FROM A CAR.

tensive journey through the states while president. During one of his vacations he undertook to travel in his carriage northward through New England and then westward as far as Ohio. It was a tedious journey. No special invitations were extended him, but he was cordially received everywhere. The sight of a president was rare in those days.

Andrew Johnson was the first of recent presidents to make a long journey through the country. He delivered speeches from an open carriage in which he was driven through many large towns.

Johnson left Washington in September, 1866, to attend the laying of the cornerstone for the Stephen A. Douglas monument in Chicago. On his outward trip he stopped, among other places, at Baltimore, Philadelphia, Albany, Cleveland and Detroit. He returned by way of Louisville and Cincinnati, taking three weeks for the trip.

President Hayes traveled through the south soon after his plan of reconstruction was adopted. Garfield was starting on a trip when he was shot.

President Harrison made more trips than any of his predecessors. In 1891 he made his trip across the continent, taking thirty days. He traveled almost 10,000 miles and made 140 addresses.

In April, 1901, the late President McKinley made a trip extending over 15,000 miles, going to the Pacific coast by way of the south. He made speeches in the principal cities.

The trains on which presidents trave in these days are marvels of equipment and mechanical perfection. Everything is done to make the journey as comfortable as possible. Besides the invited guests of the president a corps of newspaper correspondents are provided with quarters, and these are the busiest men on the train. Whenever the president makes a speech these alert newsgatherers are on hand to telegraph his words all over the country. Every move of the president is known to the world from the time the wheels first begin to turn until the traveler returns to Washington.

Wolsey's Household.

In Cardinal Wolsey's palace no less than 280 beds were provided for strangers, with superb canopies and curtains of silk or velvet. There were bedsteads of alabaster, quilts of down and pillowcases embroidered with silk and gold. The chairs of state were covered with cloth of gold; the tables and cabinets were of the most costly woods. Much of the splendid furniture was emblazoned with "my lord's arms." Everywhere was impressed the cardinal's hat. The same magnificence appeared in the decorations and ornaments of the chapel, but the forty-four gorgeous copes of one suit and the rest of the sacerdotal pomp displayed there were eclipsed by the majesty of Wolsey's secular equipment.

The annual expenses of his household exceeded £30,000, an immense sum for those days. His retinue of 500 persons, his kingly stud, his sumptuous open table, are mentioned in every history. When he rode to and from Westminster in his character of lord chancellor, his mule was attended by a long train of nobles and knights on horseback; his pursuivant, ushers and other officers led the way in rich liveries, while footmen with gilded poleaxes brought up the rear.

The United States bureau of forestry now has a division of forest extension and is co-operating with states, communities and private land owners in an effort to add to the country's wooded area. The field work of the division is now being carried on by a force of 32 men, and planting plans are being prepared by representatives of the bureau, working individually where their services are demanded. At the beginning of the present field season 224 planting plans had been made in 172 localities of 29 different states. Experiments are in progress in New England, Nebraska, Oklahoma, Arizona, Washington, Oregon, Texas and elsewhere. A line of work recently taken up by the bureau of forestry, and for the first time receiving adequate attention in the United States, is the study of the tendency of natural forests to extend over the land devoid of forest growth. This tendency has been noticed in many parts of the country, but has never been studied with a view of controlling it for practical use, or assisting it where desirable. Successful work has been done in the line of holding shifting sands in check by planting shrubs and grasses; denuded pine forests are being prepared for new growth, and the extension and preservation of hardwood forests are also receiving attention. The government is engaged in a noble work, which, scientifically and zealously prosecuted, with the co-operation of the people, should result in adding largely to the value of lands that are now nearly worthless, thus benefiting posterity, while present day benefits will speedily become apparent in greater uniformity of rainfall and the decrease of destructive floods.

The negro Young People's Christian and educational congress held at Atlanta last week did not waste its time in lamenting the social standing of the colored race nor in discussing visionary projects of deporting the negro to Africa. It attacked actual problems with zeal and earnestness and took a sensible and optimistic view of the present and the future. In a resolution it declared: "In spite of theorists and their theories, both before and after emancipation, we have shown ourselves able to live and thrive. A generation ago we came out of bondage without a foot of land, without a home, without a name. Even the clothes which covered our poorly clad bodies were not ours. Today we have some land, some homes, some money. Yesterday we had nothing; today we own millions of acres of land, pay taxes on property worth millions of dollars, and raise more cotton under freedom than under slavery." The white people can help the colored people to better their condition, but the prime requisite for advancement is that they should show a disposition to help themselves. The negro is learning this and much else that will be useful in the industrial schools which Booker T. Washington has been so instrumental in establishing.

Parliamentary law is absolutely useless in a Democratic convention. Attempts to apply it are a waste of effort and supremely ridiculous, as the proceedings at Lisbon prove. The father of the Democracy wrote eloquently of "a decent respect for the opinions of mankind," but modern Democracy has no respect for opinions, traditions or decency.

A member of President Roosevelt's cabinet is credited with the remark that one agitation for tariff revision is worse than two revisions. Those who are attempting to start such an agitation are simply striking a blow at business interests.

Half a century hence the "oldest inhabitant" will be telling incredulous youngsters of the remarkable summer of 1902 when overcoats were needed for comfort, even in dog days.

A volcano in Alaska is warming up and gold seekers are hoping it will thaw out their claims without overdoing the job.

The Venezuelan revolution, having reached a stage where actual battles are fought, cannot long survive.

Some ambitious code makers apparently have never read the state constitution.

It was not exactly a happy family party that the Democrats held at Lisbon.

OBITUARY

Willie Scheester.

Willie, the 18-months-old son of Mr. and Mrs. Emil Scheester, died at the home of its parents on Trentvale street last evening at 8:30 o'clock, of cholera infantum. The funeral services were held this afternoon, interment being at Riverview cemetery at 5 o'clock.

WHAT ADVERTISING DID.

Enormous Increase In Sales of National Biscuit Company.

The annual meeting of the National Biscuit company, held in Jersey City, was of considerable interest. The report of Mr. A. W. Green, chairman of the board of directors, showed a phenomenal growth in the business of the company. This he explained as follows:

"When the company started, our goods were sold almost entirely in bulk, and the package business was in its infancy. We determined that the true way to sell certain of our goods was to sell them in small, airtight, moisture proof packages. The first result of this determination was the Uneeda biscuit, a five cent package protected by United States patent. The idea was novel, and we soon found that we had struck the taste of the people. The introduction of the Uneeda biscuit was followed by many other packages put up in the same manner and sealed with the In-er-seal trademark design.

"The next point was to reach the consumer. We did this by extensive advertising.

"The results have exceeded even our expectations. The total sales of the company increased to $38,625,135, a gain of $2,185,975, or 6 per cent, and the profits increased to $3,670,445, a gain of $352,000 over the previous year. During the past year the company invited its employees to invest in its stock, and they have taken over 4,000 shares."

THE BELLES.

Oh, the belles,
Summer belles!
What a plenitude of heartaches their giddiness compels!
How they giggle, giggle, giggle,
In the sea breeze laden night!
How their victims squirm and wriggle
In an ecstasy of fright!
How they hurt
When they flirt,
When with ghoulish glee they gloat
On the squirming of a fellow when they have him by the throat.

Oh, the belles,
Summer belles,
How they conjure, scheme and plan
To entrap the summer man,
The ribbon counter gentlemen who masquerade as swells!

Oh, the belles,
Greedy belles,
How they wring, wring, wring
Soda water, everything,
From the pockets of those "Cash!" exclaiming swells!

Oh, the belles,
Foxy belles,
What a wealth of hints they fling
To compel the pleasant ring—
Diamond ring—
Ah, the heart engaging ring
Of the golden wedding bells, bells, bells, bells, bells,
Oh, the belles!

WELLSVILLE

SHIPPED TO KENSINGTON

Body of the Ill-fated Railroader, L. G. Cox, Sent Home for Burial.

The body of C. G. Cox, who was struck and instantly killed by train No. 309 yesterday, was taken to Kensington last night on train No. 301. Cox was a first-class railroader and was recently promoted to first extra passenger conductor. The cause of his falling asleep on the track is said to be due to over-work. A brakemanof the Conway drag stated last night that Cox had been on duty for twenty hours previous to the fatal accident.

Funeral services will be held from the home of his parents in Kensington this afternoon.

HORSE THIEF CAUGHT

And the Place Where He Was Found Raided By the Police.

George R. Tate, who, it is alleged, stole a horse from J. T. Sheppard at Amsterdam last Saturday, was arrested at Wellsville today. Tate sold the horse to Joe Keenan, of Second street, Wellsville, for $100. Tate was arrested at Keenan's resort and the same officers pulled this place, capturing five men and five women.

One woman was fined $13.60 and the other four paid $8.60. Keenan also paid $8.60.

One Saloon Less.

Third street has now one less saloon. The saloon run by Paul Leach in a building owned by Henry Greenwood, the East Liverpool brewer, was dismantled Saturday and the fixtures sent to Lisbon where Mr. Leach will start in business. It is stated that Mr. Greenwood expects to start a soft drink bottleing establishment in the building vacated.

Arrested in Wellsville.

"Mandy" Logan, a well-known Salineville character, and a well-known Irondale cripple were caught by Officers Houser and Davis here last evening. Each had had a drop too much and was loudly demonstrating their love for each other. The cripple put up a $5 forfeit and the woman's friends did likewise any they departed on a train.

Sent to the Infirmary.

Poor Director Hutchinson has ordered that Henry Malone and Lucas Phillips be taken to the infirmary. McLean Bros., will take them there to-day. Malone has heretofore been residing with his daughter-inlaw on Railroad street.

Deadly Prussic Acid.

Hydrocyanic acid, or, as it is most commonly called, prussic acid, is one of the most deadly poisons known to animal life. It is a volatile principle contained in numerous shrubs and trees, chiefly the wild cherry, bitter almond, sherry laurel, St. Ignatius bean and the peach tree. It is obtained by distillation from ferrocyanide of potassium by the action of sulphuric acid in the form of a light, colorless gas. The preparation kept in the drugstore is a dilute acid of a strength of 2 per cent of anhydrous acid in distilled water, a colorless liquid, with the odor of bitter almonds. The dose is from two to six drops. One-half grain of the anhydrous acid is sufficient to produce death. It is used in medicine in correcting diseases of the stomach, also in whooping cough and the last stages of consumption.

It is very volatile, and the fumes will destroy vegetable life, causing the stems of plants to wither and dry up. Its effect on the lower animals is similar to its action on man, with the exception of the horse and the hyena, upon whom it does not appear to produce any impression. In fatal doses it causes death quickly by paralyzing the heart's action. After death the rigor mortis sets in, and in a few moments the unfortunate subject is as stiff as a board.

Some Curious Book Titles.

In the sixteenth century we find the greatest extravagance displayed in the titles of books. These may be taken as examples: "The Spiritual Snuffbox, to Lead Devoted Souls to Christ," and "The Spiritual Seringa For Souls Steeped In Devotion." A work on Christian charity published in 1587 is entitled "Buttons and Buttonholes For Believers' Breeches." Another quaint publication is Father La Chaucie's work entitled "Bread Cooked on the Ashes; Brought by an Angel to the Prophet Eligiah (Elijah) to Comfort the Dying." Another was issued with the curious title of "The Lamp of S. Augustine and the Flies That Flit Around It."

The following very attractive title appeared in a book published at Newcastle in 1605: "Some Beautiful Biscuits Cooked In the Oven of Charity and Put Aside For the Fowls of the Church, the Sparrows of the Spirit and the Swallows of Salvation."

Rubber Foot Fever.

If a man has a corn, it can be removed, but if he is suffering from rubber foot fever no chiropodist can help him, and the only thing to prescribe is liberal bathing of the feet and removal of the cause. Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from forcing the perspiration to soak the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. Even loose rubbers are a source of danger and the cause of many more serious colds than they avert.

Tiffany's Big Day In 1837.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of $1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, fine stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only $4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to $236.—American Monthly Review of Reviews.

Dublin's Red Haired Club.

The Red Haired club of Dublin, which flourished years ago, was a society which barred out all whose hirsute covering was not of the most pronounced auburn. In order that no one could gain admission by false pretenses it was required at the initiation of each member that the applicant wash his hair and whiskers in hot soda and water. This effectually took out any "dye" that might have been used.

Prediction That Captain Goucher Will Win in Pending Litigation.

The Emily, the Congo and Wellsville ferryboat, will continue to run until the litigation is fully decided. The matter was referred back from the circuit court to the county court for correction on a technicality. It is predicted that S. B. Goucher will win the case, notwithstanding reports to the contrary. The action on the bill is simply to make a correction on Judge Hervey's objection.

The decision was really in favor of Goucher, but for the technicality. When the county court rectifies this matter the decision is final.

AROUND THE CIRCLE

PRESIDENT ROOSEVELT TO TOUR THE COUNTRY NEXT FALL.

Will Visit Nearly Every State East of the Rockies—Previous Tours of Chief Executives—Presidents Who Liked to Travel.

When President Roosevelt starts out next fall to make his projected swing around the circle, he will be following the example set by many of his illustrious predecessors. The president has received many invitations to visit various sections of the country during the summer and fall, and if he finds time to fulfill his engagements he will before November have visited nearly every state in the Union except those in the Rocky mountains and on the Pacific slope.

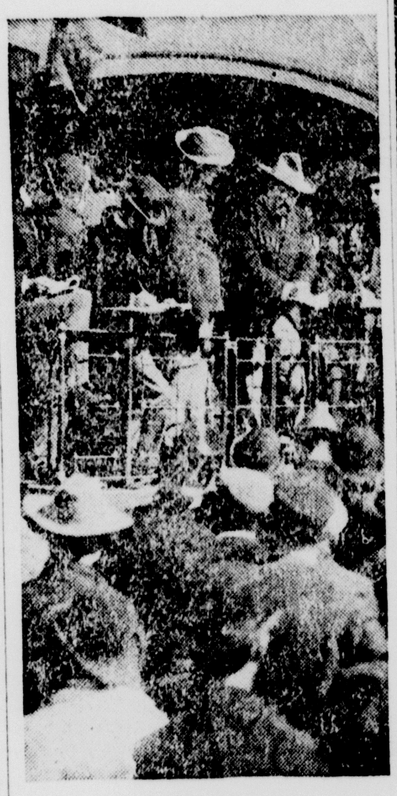

Plans already made contemplate the most important swing around the circle made by a president in many years. The real beginning of Mr. Roosevelt's peregrinations will be in late August, when he will visit Maine and Vermont, where elections are held in early September.

The president is expected to make two speeches in Maine and one or two in Vermont. Following the New England tour, the president will start late in September for the northwest. He has accepted invitations to speak in Detroit, Minneapolis, Illinois, Missouri and Iowa.

Late in October the president will start on a long trip through the southwest and will probably go as far as San Antonio. On the way he will enjoy a big bear hunt in the swamps of Mississippi. Altogether the president has planned a very busy fall, and if every city and town in the Union does not see him and hear his voice before next November it will not be because they have not invited him.

The custom of taking long excursions through the country by presidents is much older than is generally believed. Washington had seen nearly all of the Union north of the Carolinas before he became president, and both of the Adamses were great travelers in their time.

President Monroe was the first to conceive the idea of making an extensive journey through the states while president. During one of his vacations he undertook to travel in his carriage northward through New England and then westward as far as Ohio. It was a tedious journey. No special invitations were extended him, but he was cordially received everywhere. The sight of a president was rare in those days.

PRESIDENT ROOSEVELT SPEAKING FROM A CAR.

Andrew Johnson was the first of recent presidents to make a long journey through the country. He delivered speeches from an open carriage in which he was driven through many large towns.

Johnson left Washington in September, 1866, to attend the laying of the cornerstone for the Stephen A. Douglas monument in Chicago. On his outward trip he stopped, among other places, at Baltimore, Philadelphia, Albany, Cleveland and Detroit. He returned by way of Louisville and Cincinnati, taking three weeks for the trip.

President Hayes traveled through the south soon after his plan of reconstruction was adopted. Garfield was starting on a trip when he was shot.

President Harrison made more trips than any of his predecessors. In 1891 he made his trip across the continent, taking thirty days. He traveled almost 10,000 miles and made 140 addresses.

In April, 1901, the late President McKinley made a trip extending over 15,000 miles, going to the Pacific coast by way of the south. He made speeches in the principal cities.

The trains on which presidents travel in these days are marvels of equipment and mechanical perfection. Everything is done to make the journey as comfortable as possible. Besides the invited guests of the president a corps of newspaper correspondents are provided with quarters, and these are the busiest men on the train. Whenever the president makes a speech these alert newsgatherers are on hand to telegraph his words all over the country. Every move of the president is known to the world from the time the wheels first begin to turn until the traveler returns to Washington.

Wolsey's Household.

In Cardinal Wolsey's palace no less than 280 beds were provided for strangers, with superb canopies and curtains of silk or velvet. There were bedsteads of alabaster, quilts of down and pillowcases embroidered with silk and gold. The chairs of state were covered with cloth of gold; the tables and cabinets were of the most costly woods. Much of the splendid furniture was emblazoned with "my lord's arms." Everywhere was impressed the cardinal's hat. The same magnificence appeared in the decorations and ornaments of the chapel, but the forty-four gorgeous copes of one suit and the rest of the sacerdotal pomp displayed there were eclipsed by the majesty of Wolsey's secular equipment.

The annual expenses of his household exceeded £30,000, an immense sum for those days. His retinue of 500 persons, his kingly stud, his sumptuous open table, are mentioned in every history. When he rode to and from Westminster in his character of lord chancellor, his mule was attended by a long train of nobles and knights on horseback; his pursuivant, ushers and other officers led the way in rich liveries, while footmen with gilded poleaxes brought up the rear.

WITH THE WORKMEN IN THE CLAY PLANTS

FROM NEW CASTLE.

The Shenango pottery is now being operated in full in every department. The employes, however, are a little doubtful as to how long this run is to last, and as far as I can learn, orders are a little slow. Many of the employes have arranged to go to Erie, Pa., where they will take new positions under their old foreman, Henry Haney.

After a severe illness Jack Monroe, mouldmaker at the Shenango pottery, has returned to his work.

Del Thorman, a mouldmaker at the same shop, who has been confined to his home on account of illness, has recovered sufficiently to permit him to be about his home.

John Craven has left the Shenango and is now located at the Beaver Falls sanitary shop.

After a prolonged visit at East Liverpool Samuel Coventry has returned to New Castle.

A cable shape will soon be placed on the market by the Shenango pottery. The mouldmaker is now working on the moulds, and they will be ready for the clay shops within a week.

A strong effort is being made to make the Shenango pottery a card shop. The firm has agreed to this and the only drawback is the men themselves.

William Gillespie is the latest arrival in New Castle from East Liverpool.

Owing to a rush of business the warehouse girls at the New Castle China company have been compelled to work late at nights for several weeks.

Robert Conwell has resigned his position in the pressing shop at New Castle. No one knows where he will go.

Thomas Nolan has gonne to Sebring to hunt work. He resigned his position at the china shop.

Like a great many other operatives who leave East Liverpool to work in new shops, John McGuire will leave New Castle to return to his former home. He is now working out his notice. He has been employed as a dishmaker at the Shenango.

A man named Fitzgerald, who was employed as a dishmaker in this city, left town rather suddenly and no one knows where he has gone.

Ralph Woods, who left a good position at the Diamond in East Liverpool, where he was employed for a long time as a presser, and who left that position to take a similar one at the New Castle sanitary shop, has also resigned his position there. He is now on his way to Camden, N. J., where he will take a position in the sanitary there. William Ayers, of Wheeling, lately employed at the Riverside plant in that city, will take the position made vacant by Woods.

The sanitary shop will resume operations next Monday. The plant is closed this week on account of some needed repairs being made.

William Van Fossen has been elected president of Local No. 54 to fill the unexpired term of Samuel Dobbs, who resigned. The new board of trustees of this local is composed of Alfred Woods, J. Pershall and J. Gilligan. The local will be represented in the New Castle Labor day demonstration.

MORE ABOUT TRUST.

Now comes the announcement that a trust or working combination is bound to be formed among the manufacturing potters of this city before the first of the year. The old story, it seems. There is always room, however, for something of this sort to take place, but when and how, are questions that are not answered. A few weeks ago Messrs. Irwin and Trainer, of Chicago, were asked for a statement of their work in forming a combination upon the plans they mailed to every manufacturing pottery in the country, and which communication was published exclusively in this paper at the time, but they never took the time to answer that letter. Their scheme is a dead one. Only yesterday a manufacturer, talking about the plans of the Chicago men, said: "Why should we give those fellows a few million of dollars for doing something that we can and are perfectly able to do ourselves?" The Chicago lawyers do not know any more about forming a combination among the manufacturing potters of the country than the potters do themselves. Why did they ask for such a large amount of money for putting through such a scheme? There may be a combination formed, but when it is, the chances are 10 to 1 that it will be done at home, and not by a Chicago or New York law firm.

STOPPED FOR MONTHS.

The California pottery, located out California hollow, has suspended operations. It did so several months ago. The shop, under the management of the men who took hold of it about the first of the year, had an apparently bright future before it, but it is different now. No person is seen about the plant save the watchman and a few chickens, who perchance roost there at night. 'Tis a pity that this shop is not operated. True, it is a little distant from the city and was operated on a small scale, but still there is money to be made at this little shop and the wonder is that some person does not take advantage of the fact. It will be remembered that when certain pottery workers of this city took a lease on this plant from the First National bank the intention was to make a fine grade of jet ware. Several kilns were made and sold and the company advertised extensively in all the trade papers for representatives. In fact, they had representatives in all the large cities of the country. Not so now. There is nothing doing. Shop closed. Going fast to decay. Why not, if nothing else is possible, convert this shop into a small art pottery? Something might become of such an attempt in after years. All that is required is a trial.

AS TO THE FRAUDS.

Local pottery manufacturers seen today claim that they are not at all conversant with the matter which has been brought to the attention of the treasury department by the eastern manufacturers. A well known hill manufacturer today said: "The matter does not affect this city very much, other than in this way: If there were not so much crockery imported the trade of the United States potters would be materially increased." Referring to the published statement to the effect that the treasury department had in its possession evidence tending to show that the government had lost many millions of dollars through undervaluations on pottery importations, Secretary Shaw stated that this question was not new. Charges of undervaluations on pottery had been made from time to time covering a number of years, and when made by responsible parties they always had been investigated. At present the treasury department had agents at work on the other side looking into the marked prices of pottery, and it is possible that an increase in prices of certain kinds and qualities may be necessary. At present there is no evidence in the possession of the government showing that it has been defrauded out of large sums by pottery undervaluations.

WILL START SOON.

Work will soon begin on the remodeling of the old soap factory at Wellsville by the Burgess Stilt company. Mr. and Mrs. William Burgess, who have been spending a short vacation in England, are expected to arrive in the city about the first of the week, and Mr. Burgess' arrival here will be followed by detail work connected with the new purchase. Then the actual work on the remodeling of the plant will start, and it is expected that it will be ready to operate within a month or six weeks.

THEY NEED SAGGERS.

The biscuit kilnmen at the Union who have been unable to work for several days owing to a shortage of saggers, expect to return to work tomorrow morning. The company has ordered 500 new saggers and they are expected to be delivered at the plant today. A kiln or two have been missed but this, it is expected, will be made up in a short time.

NOW AT PITTSBURG.

William Cartwright, Sr., of this city, who has been spending some weeks at Cambridge Springs for the benefit of his health, is now at the home of his daughter, Mrs. S. R. Huss, Waverly street, Pittsburg. His health has been much improved by his stay at Cambridge Springs, and it is expected that he will return to the city within a fortnight.

SAME OLD STORY.

Archie Putnam, well known in the West End, who has been employed at the Barberton pottery, which is something new, for a few weeks as a jiggerman, has resigned his position and is now located at Sebring. His friends here think that it will be but a short time until he will be back in East Liverpool.

STARTED TODAY.

The kilnmen at the United States pottery at Wellsville, who have been off for several days, resumed work this morning, and owing to the rush of orders offered this firm, the employes have a continued run in sight. This is one of the plants operated by the East Liverpool Potteries company.

LONG WAS TOUCHED.

Joseph Long, a drayman at the Sebring pottery, is mourning the loss of $22. It happened Saturday evening and the belief is that he was "touched." The police, however, are trying to unravel the mystery. Long is well known in this city.

TO START SOON.

It is announced that the new Crooksville Art pottery, near Zanesville, will be completed and ready for operation about the first of the month. New designs will be made at this shop, all of which are very neat.

KILNMAN ILL.

Albert Krider, a glost kilnman at Laughlin No. 2, has been unable to work for several days on account of illness. He is suffering with an attack of tonsilitis.

AMONG THE POTTERS.

Frank Grant, a well known pottery worker of this city, returned home from a visit with Salem friends.

Frank A. Sebring and Frank Hummel, of Sebring, were in the city yesterday afternoon on business pertaining to their interests in this city.

Frank A. Sebring is making some extensive additions to his residence at Sebring, consisting of a circular porch with a bay window at the north extension, drill arches, stairway, etc.

Chicago, Aug. 13.—The Illinois auxiliary of the McKinley Memorial association reported yesterday that the fund of $50,000 asked of the people of Illinois has been raised. The fund consists of over 50,000 subscriptions and, counting the individual school children who sent their pennies in through the schools, the contributors in Illinois run into the hundreds of thousands.

At the close of business yesterday the subscriptions amounted to $50,128. Many of the local committees and others throughout the state still have their lists open and it is expected that by the time all of them have been heard from the funds will have been swelled to $60,000.

BEYOND A DOUBT

Good Hard Facts—Told in As Few Words as Possible.

Mrs. Geo. Hall of 389 West Market street, East Liverpool, O., says: "I was bilious, my head ached hard and constantly, there was a general feeling of weakness and depression. I was asked to try Dr. A. W. Chase's Nerve Pills and did so getting them at Larkins' Drug Store. The result was very good indeed as the biliousness was overcome, the headache cured and bodily and nerve strength furnished. Dr. A. W. Chase's Ointment I can vouch for in burns as a fine application."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

A BLOODY BATTLE.

VENEZUELAN TROOPS SURRENDERED AT BARCELONA.

Rebels Murdered and Pillaged—Minister Bowen Cabled the Cincinnati to Go to Barcelona.

Port-of-Spain, Island of Trinidad, Aug. 13.—Details of the fighting at Barcelona, Venezuela, received here by boat, show that a terrible battle started on Sunday, Aug. 3, and that on the following Wednesday the revolutionists entered the city. They kept up a continuous firing day and night, destroying houses one by one to reach the center of the city. At midnight on Thursday two-thirds of the city was in the power of the revolutionists. On Friday the government strongholds were carried and the last survivors of the government officers tried to escape by the river to the sea, but failing in this, they made one last stand, after which, at noon Friday, they surrendered to the revolutionist commanders, Generals Francisco, Monagas and Platero. Among those taken prisoner are Martin Marcano president of the state of Barcelona and commander of the government troops, eight generals and 23 colonels. The dead on both sides numbered 167. All houses in the city were sacked and in some instances inoffensive women and children were maltreated and killed. All stores were pillaged, especially those belonging to foreigners, and the French cable office was robbed. The American, Italian and Dutch consulates were pillaged, and the consuls have asked for men-of-war to protect life and property.

United States Minister Bowen, at Caracas, has cabled the United States cruiser Cincinnati to go to Barcelona without delay and take provisions. The Topeka is anchored at Porto Cabello, the Marietta is on the Orinoco the German warship Falke is at Curacoa and the Italian cruiser Giovanni Pausan and the British cruiser Pallas are at LaGuaira.

TWO POLICEMEN MURDERED.

Shot to Death by Burglars at Chicago.

Chicago, Aug. 13.—Two policemen were shot in an alley, both dying within a few minutes, shortly before 4 o'clock yesterday morning. Their assailants were two burglars, caught in an attempt to rob the house of Dr. Harry Shaw, 222 Ashland boulevard. Both escaped.

The policemen were Timothy Devine, 40 years old, shot through the heart, and Charles Pennell, 35 years of age, shot through the abdomen; died at the county hospital.

Five men, Arthur, John and Sam Dillon and Jerry Hawley and George O'Brien, were among those arrested after a terrific fight with the police. They are known to have been hostile to Officer Devine, and it is believed by the police that they had a hand in the murder of Devine and Pennell.

GUERIN CODE BILL.

Principal Topic to Be Considered by Ohio Republican Legislators.

MEETING TO BE HELD THIS WEEK

Most of Members Have Accepted Guerin's Invitation to Visit Cedar Point—News of Ohio, Pennsylvania and West Virginia.

Sandusky, O., Aug. 13.—The gathering of Republican members of the legislature at Cedar Point, in this city, Aug. 14, 15 and 16, on invitation of Representative Guerin, of Erie, promises to have a more important bearing on the work of the general assembly at the approaching extra session than at first was supposed. Of the 67 Republican members of the lower house, 50 have accepted the invitation, and all the Republican members of the senate, except three. Governor Nash will be present Friday; Attorney General Sheets on all three days; also other state officials.

The Guerin code bill will be the principal topic of the speeches and discussion. It is likely that the work of the approaching special session will have been pretty well outlined and the unity of action from the Republican standpoint foreshadowed before the members return home.

ALLEGHENY COUNTY LEADS.

Figures on Production of Pig Iron and Steel, In Pennsylvania.

Harrisburg, Pa., Aug. 13.—Captain James M. Clark, chief of the bureau of industrial statistics, will devote a considerable portion of his forthcoming annual report for 1901 to pig iron and steel statistics. During the year Pennsylvania produced 7,364,295 gross tons of pig iron. The capital invested to bring about this production was $152,075,575, and the average realized value per ton was $14.52. The number of workmen employed was 14,739, and the aggregate wages paid was $8,646,479. The average yearly earnings for all workingmen employed was $586.24.

The average daily wage paid was $1.85.

Allegheny leads in the production of pig iron, with 3,685,665 tons; Mercer, Cambria, Lebanon, Lawrence and Dauphin followin the order named. Of the steel products the following was the productive: Bessemer, 4,319,144 gross tons; open hearth, 3,554,828 tons; crucible and other processes, 85,748 tons, making a total production of steel in the state of 7,959,720 tons. Allegheny leads in steel production, with 5,140,580 tons, and Cambria follows, with 655,775 tons. Over 80 per cent of the production came from counties west of the Allegheny mountains.

OHIO BOY NOT ARRESTED.

Expedition Wilson Was With, Under Direction of Colombian Army.

Columbus, O., Aug. 13.—In a letter to a cousin in this city Dr. Russell Wilson, of Norwalk, O., who was reported to have been condemned to death by the Nicaraguan government for participating in a filibustering expedition, says he has never been arrested and was never in danger. The doctor says in substance:

"Several months ago I joined the Colombian regular army, with the rank of major surgeon. Colombia and Nicaragua were at variance, and I was placed on board the gunboat General Pinzon as surgeon to accompany the expedition. We tried to land at Bluefields, at night, but a high sea suddenly coming up, 50 men only were able to land, and at daybreak we were fired on from the forts and forced to retreat, leaving the 50 there. That may account for the story getting out that I was arrested. The expedition I was with was not a filibustering trip, but one under the direction of the regular Colombian army."

WILL CARRY ON STRIKE.

Secretary Wilson Will Violate Law, if Necessary.

Charleston, W. Va., Aug. 13.—The case of John Richards and others charged with contempt for violating an injunction issued from Federal Judge Keller's court was argued yesterday by counsel, and will be decided by Judge Keller today.

National Secretary W. B. Wilson, of the Mine Workers of America, who is here, stated yesterday that the object of his visit is to direct the movement of the strikers and that he will observe the injunction of the court as far as he believes the court has a right to go. If it shall become necessary to violate the court order to carry on the business of the strike he will do so.

THE PENNSYLVANIA FIGHT.

Democratic Campaign Committee Met. Executive Committee Also Met.

Harrisburg, Aug. 13.—The Democratic state campaign committee met yesterday at state headquarters in this city to formulate a plan of campaign and arrange for a tour of the state this fall by ex-Governor Pattison and his associates. Members of the committee said before the meeting that it was necessary to perfect party organization in every county of the state if they hoped to elect the ex-governor. To do this, they said, would require untiring labor on the part of State Chairman Creasy and his assistants, as well as a big campaign fund.

The state executive committee also met yesterday to discuss certain changes in the party rules and other matters pertaining to the organization. Chairman Creasy reported that he was perfecting an organization in every school district of the state to work independently of the Democratic county and city committees and that he expected good results from those organizations at the fall election.

SOME TRI-STATE EVENTS.

New Castle, Pa., now has an anti-expectoration law.

Erie, Pa., barbers are on strike to enforce a demand for a half holiday each week.

At Aetna, near Reading, Pa., Hettie Anspach, aged 17, was struck by lightning and killed.

At Toledo, O., Joseph Kelley, aged 30 years, fell off a government dredge into the river and was drowned. His home is said to be at Plattsburg, N. Y.

John Williams, a well-known tin worker, formerly employed in the Star mill in Pittsburg, was killed by a train near Washington, Pa.

At Warren, O., A. Sotinger attempted to commit suicide with laudanum, but prompt service of a doctor saved him. He had been drinking heavily.

At Springfield, O., Samuel Parker, charged with criminal assault by Mattie Merrett, his 15-year-old stepdaughter, was bound over to the grand jury.

Albert Lacy, it is charged, stabbed Leonard Scott in the left side in a fight at Conesville, near Coshocton, O. Lacy escaped.

Belle Center, near Bellefontaine, O., had a Beal law election, and by a majority of 107 voted to remain dry.

At Willoughby, O., in the local option election under the Beal law, the drys won by a vote of 309 to 130.

Rev. Charles Allen, of Peninsula, near Akron, O., is endeavoring to have the mayor and town marshal and the county sheriff removed from office, because they refuse to stop Sunday ball playing.

At Findlay, O., M. A. Curtess, a prominent merchant, returned with a bride, having been married to Miss Ida McElroy, of Galian, in Windsor, Canada, a few days ago.

The automobile lost off the steamer Stanley at Aberdeen, O., has not been found, as first reported. One hundred dollars will be given to the one who recovers it.

At Wheeling, W. Va., Joe Curtis, a young man of a prominent family died at the city hospital in great agony as a result of a protracted drunk. He was found on the streets a raving maniac.

The annual reunion of the Seventy-eighth regiment, Pennsylvania volunteer infantry, will be held at New Bethlehem, Pa., Sept. 19, the thirty-ninth anniversary of the battle of Chickamauga.

During a storm at Allentown, Pa., a new three-story house being built for Frank J. Schroth was blown down and Schroth, who was on the roof, was killed. Eight other men were at work in the building, but only two of them were hurt.

The citizens of Jackson Center, Mercer county, Pa., have petitioned the court to dissolve the school board of that place for failure to elect teachers, there being a deadlock.

The Keystone Electric company, of Erie, Pa., makers of electrical machinery, has been bought by a company of New York capitalists, headed by P. R. Clarke. The capital will be increased to $400,000.

At Chillicothe, O., George Caldwell, formerly a detective, but now a saloonkeeper, swore out an affidavit against "Uncle" Jake Warner, proprietor of the Warner house, charging him with selling intoxicating liquors on Sunday.

At Wellston, O., William Woods has been adjudged insane. Some time ago he drew some money from the county and was visited by masked robbers, who relieved him of his coin. Woods brooded over the affair until his mind gave way.

At Columbus Grove, O., the prosecution of Miner Thompkins, a telephone lineman, on the charge of criminal assault, the charge preferred by Jessie Point, aged 16, was terminated by the defendant marrying the girl.

At Newark, O., the police were looking for David McLaughlin, of North Fourth street, who is accused of an unnatural crime. G. W. Marfield, father of McLaughlin's alleged victim, aged 8 years, made the charge public.

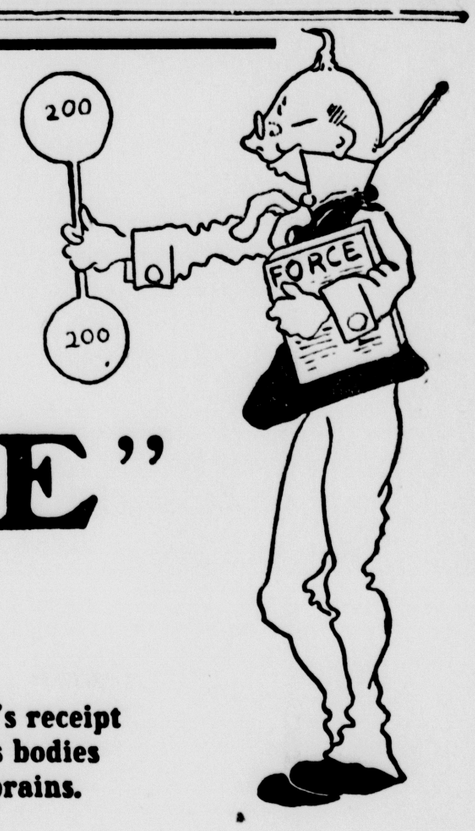

Joseph Allen was held by the coroner's jury at Pittsburg to await the action of the grand jury for the murder Achsah King. The prisoner was identified positively by Nellie Reed, who was present in the back room of Curran's saloon, and who witnessed the murder. She says she is positive that Allen is the man who wielded the deadly knife that let out the girl's life blood.
